Registrant's telephone number: (212) 823-1900

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class	Trading Symbol(s)	Name of Each Exchange on Which Registered
Units, each consisting of one share of Class A Common Stock and one-half of one Redeemable Warrant	AMHCU	The Nasdaq Stock Market LLC
Class A Common Stock, par value \$0.0001 per share	AMHC	The Nasdaq Stock Market LLC
Warrants, each whole warrant exercisable for one share of Class A Common Stock for \$11.50 per share	AMHCW	The Nasdaq Stock Market LLC

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Exchange Act.

Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company or an emerging growth company. See definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input checked="" type="checkbox"/>	Smaller reporting company	<input checked="" type="checkbox"/>
		Emerging growth company	<input checked="" type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

As of June 28, 2019, the last business day of the registrant's most recently completed second fiscal quarter, the registrant's securities were not publicly traded. The registrant's units began trading on the NASDAQ Capital Market on November 20, 2019 and the registrant's shares of Class A common stock and warrants began trading on the NASDAQ Capital Market on January 10, 2020. The aggregate market value of the units outstanding, other than shares held by persons who may be deemed affiliates of the registrant, computed by reference to the closing sales price for the units on December 31, 2019, as reported on the Nasdaq Capital Market, was approximately \$100,700,000.

As of March 24, 2020, there were 10,000,000 shares of Class A common stock and 2,500,000 shares of Class B common stock of the registrant issued and outstanding.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This report, including, without limitation, statements under the heading “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements can be identified by the use of forward-looking terminology, including the words “believes,” “estimates,” “anticipates,” “expects,” “intends,” “plans,” “may,” “will,” “potential,” “projects,” “predicts,” “continue,” or “should,” or, in each case, their negative or other variations or comparable terminology. There can be no assurance that actual results will not materially differ from expectations. Such statements include, but are not limited to, any statements relating to our ability to consummate any acquisition or other business combination and any other statements that are not statements of current or historical facts. These statements are based on management’s current expectations, but actual results may differ materially due to various factors, including, but not limited to:

- our ability to complete our initial business combination;
- our success in retaining or recruiting, or changes required in, our officers, key employees or directors following our initial business combination;
- our officers and directors allocating their time to other businesses and potentially having conflicts of interest with our business or in approving our initial business combination, as a result of which they would then receive expense reimbursements;
- our potential ability to obtain additional financing to complete our initial business combination;
- our pool of prospective target businesses;
- failure to maintain the listing on, or the delisting of our securities from, Nasdaq or an inability to have our securities listed on Nasdaq or another national securities exchange following our initial business combination;
- the ability of our officers and directors to generate a number of potential investment opportunities;
- our public securities’ potential liquidity and trading;
- the lack of a market for our securities;
- the use of proceeds not held in the trust account or available to us from interest income on the trust account balance; or
- our financial performance.

The forward-looking statements contained in this report are based on our current expectations and beliefs concerning future developments and their potential effects on us. Future developments affecting us may not be those that we have anticipated. These forward-looking statements involve a number of risks, uncertainties (some of which are beyond our control) and other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to, those factors described under the heading “Risk Factors.” Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, actual results may vary in material respects from those projected in these forward-looking statements. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws. These risks and others described under “Risk Factors” may not be exhaustive.

By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. We caution you that forward-looking statements are not guarantees of future performance and that our actual results of operations, financial condition and liquidity, and developments in the industry in which we operate may differ materially from those made in or suggested by the forward-looking statements contained in this report. In addition, even if our results or operations, financial condition and liquidity, and developments in the industry in which we operate are consistent with the forward-looking statements contained in this report, those results or developments may not be indicative of results or developments in subsequent periods.

Unless otherwise stated in this report, or the context otherwise requires, references to:

- “common stock” are to our Class A common stock and our Class B common stock, collectively;
- “founder shares” are to shares of our Class B common stock initially purchased by our sponsor in a private placement prior to our initial public offering, and the shares of our Class A common stock issued upon the conversion thereof as described herein;
- “Founders” are to Metalmark Capital and Avego Healthcare Capital, each an affiliate of our sponsor;
- “initial stockholders” are to our sponsor and any other holders of our founder shares (or their permitted transferees);
- “management” or our “management team” are to our officers and directors;
- “private placement warrants” are to the warrants issued to our sponsor in a private placement simultaneously with the closing of our initial public offering;
- “public shares” are to shares of our Class A common stock sold as part of the units in our initial public offering (whether they were purchased in such offering or thereafter in the open market);
- “public stockholders” are to the holders of our public shares, including our initial stockholders and management team to the extent our initial stockholders and/or members of our management team purchase public shares, provided that each initial stockholder’s and member of our management team’s status as a “public stockholder” shall only exist with respect to such public shares;
- “public warrants” are to our redeemable warrants sold as part of the units in our initial public offering (whether they were purchased in our initial public offering or thereafter in the open market) and to any private placement warrants or warrants issued upon conversion of working capital loans that are sold to third parties that are not initial purchasers or executive officers or directors (or permitted transferees) following the consummation of our initial business combination;
- “specified future issuance” are to an issuance of a class of equity or equity-linked securities to specified purchasers, which may include affiliates of our management team or Founders or their respective affiliates, that we may determine to make in connection with financing our initial business combination;
- “sponsor” are to Amplitude Healthcare Holdings LLC, a Delaware limited liability company; affiliates of our Founders and certain of our officers and directors control our sponsor;
- “warrants” are to our redeemable warrants, which includes the public warrants as well as the private placement warrants to the extent they are no longer held by the initial purchasers of the private placement warrants or their permitted transferees; and
- “we,” “us,” “company” or “our company” are to Amplitude Healthcare Acquisition Corporation.

PART I

Item 1. Business.

Introduction

We are an early stage blank check company incorporated as a Delaware corporation formed for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses, which we refer to throughout this Report as our initial business combination or our business combination.

While we may pursue an acquisition opportunity in any business, industry, sector or geographical location, we intend to focus on industries that complement our management team's background, and to capitalize on the ability of our management team to identify and acquire a business, focusing on the healthcare or healthcare related industries in the United States and Europe. In particular, we intend to prioritize companies in the life sciences and pharmaceutical services sectors where our management team has extensive experience.

Our Founders and Directors

We were jointly founded by Metalmark and Avego, two leading investment firms with a focus on the healthcare industry. Metalmark and Avego (collectively our "Founders") have a history of collaborating on and evaluating investment opportunities together and have successfully partnered within the healthcare space. Our management team is led by the respective founding partners of Metalmark and Avego, Howard Hoffen and Bala Venkataraman, who serve as our Chairman and Chief Executive Officer, respectively, and Kenneth Clifford, who serves as our Chief Financial Officer. We have hired a President named Vishal Kapoor who has significant life sciences and pharmaceutical services sectors experience to help us source, diligence and complete the acquisition of a prospective target business. In addition, we have assembled a team of industry experts with extensive executive and operational experience at pharmaceutical, life sciences as well as pharmaceutical services companies who will serve as our directors. We believe that the experience of our management team and our relationship with Metalmark and Avego will allow us to effectively source, identify and execute an attractive transaction for our shareholders.

Founders

Metalmark is a middle-market, growth oriented private investment firm with over two decades of investing experience in a broad range of industries, with healthcare representing one of its core focus areas. Metalmark was founded by Howard Hoffen, then Chairman and Chief Executive Officer of Morgan Stanley Capital Partners ("MSCP") and Morgan Stanley Private Equity, to manage the MSCP funds and to employ the same successful investment strategies and approaches to the Metalmark Capital funds. Since 1992, the partners of Metalmark have invested approximately \$5.5 billion in over 58 companies and have generated total value of approximately \$11 billion on behalf of investment partners.

Avego is a healthcare-only, captive investment firm with \$300 million of committed capital from its principals and more than \$1.5 billion in value created in this decade. The principals of Avego have founded and backed multiple healthcare companies over the last fifteen years, generating significant returns for their principals and partners. Avego's expertise and industry contacts allow it to source and evaluate undervalued and high-quality companies that it believes could be ideal acquisition candidates for our initial business combination. Avego's principals and scientific advisors are passionate about applying their experiences as healthcare executives and investors to formulate long-term strategies for their investment companies that improve the lives of patients and physicians while achieving attractive investment outcomes. Avego's investment activity is focused on partnering and working closely with management teams to achieve these objectives.

Metalmark and Avego have significant domain expertise within the life sciences industry, having investments in the pharmaceutical, specialty pharmaceutical, and pharmaceutical services verticals and having deep and extensive relationships that enable deal procurement, evaluation and execution. Additionally, they have extensive capital markets and mergers and acquisitions experience with a shared discipline regarding investments and capital prioritization, as well as a "true owners" approach with capital at risk.

Our Directors

Joining our Founders is a team of key opinion leaders and high level senior life sciences executives, who are currently serving on our Board of Directors. The team includes Fred Eshelman, former Chairman and Chief Executive Officer of Pharmaceutical Product Development; Ernest Mario, Chairman of Soleno Therapeutics and former Chief Executive Officer at Glaxo; Peter Dolan, former Chief Executive Officer of Bristol-Myers Squibb; and Glenn Reicin, the Chief Financial Officer at Sigilon Therapeutics, Inc. Our Board of Directors provide valuable guidance, extensive technical domain expertise, value added input regarding senior team leadership capabilities, and have access to differentiated ideas and opportunities through complementary networks to our Founders.

Acquisition Strategy

We believe our management team is well positioned to identify unique opportunities within the healthcare and healthcare-related industries. Certain members of our management team have spent significant portions of their careers working with businesses in the healthcare industry, and have developed a wide network of professional services contacts and business relationships in that industry. Our selection process leverages our relationships with venture capitalists and growth equity funds, executives of private and public companies, as well as investment banking firms, which we believe should provide us with a key competitive advantage in sourcing potential business combination targets. Given our profile and dedicated industry approach, target business candidates are brought to our attention from various unaffiliated sources, and in particular investors in other private and public companies in our networks. Our management team also proactively searches for unique opportunities that are best positioned for our initial business combination. We also believe that our management team's reputation, experience and track record of making investments in the healthcare space make us a preferred partner for these potential targets.

Acquisition Criteria

We have identified the following criteria to evaluate prospective target businesses. We may however, decide to enter into our initial business combination with a target business that does not meet these criteria. We currently intend to seek to acquire companies that we believe:

- have developed or are developing differentiated products or services that address unmet needs and therefore represent significant growth opportunities serving the markets in which they operate or intend to operate;
- have developed or are developing products or services that have achieved a level of maturity such that the investment has been relatively de-risked and can be adequately evaluated;
- exhibit unrecognized value or other characteristics that we believe have been misvalued by the market based on the expertise of our Founders and management team and our rigorous sourcing and due diligence processes;
- will offer attractive risk-adjusted equity returns for our shareholders;
- can benefit from access to public investors for additional capital well as our industry relationships and expertise;
- are ready to be public, with strong management, corporate governance and reporting policies in place; and
- will likely be well received by public investors and are expected to have good access to the public capital markets.

We may use other criteria as well. Any evaluation relating to the merits of a particular initial business combination may be based, to the extent relevant, on these general guidelines as well as other considerations, factors and criteria that from time to time our management team may deem relevant. In the event that we decide to enter into our initial business combination with a target business that does not meet the above criteria and guidelines, we will disclose that the target business does not meet the above criteria in our stockholder communications related to our initial business combination, which, as discussed in this Report, would be in the form of tender offer documents or proxy solicitation materials that we would file with the SEC.

In evaluating a prospective acquisition candidate, we conduct a thorough due diligence review which encompasses, among other things, meetings with incumbent management, investors and employees, document reviews, inspection of facilities, as well as a review of scientific, regulatory, operational, financial, legal and other information which will be made available to us. We are not prohibited from pursuing an initial business combination with a company that is affiliated with our Founders, sponsor, officers, directors or advisors and their respective affiliates. In the event we seek to complete our initial business combination with a company that is affiliated with our Founders, sponsor, officers, directors or advisors and their respective affiliates, we, or a committee of independent directors, will obtain an opinion from an independent investment banking firm which is a member of FINRA or a qualified independent accounting firm that our initial business combination is fair to our company from a financial point of view.

Initial Business Combination

Our initial business combination must occur with one or more target businesses that together have an aggregate fair market value of at least 80% of the assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the income earned on the trust account) at the time of the agreement to enter into the initial business combination. If our board is not able to independently determine the fair market value of the target business or businesses, we will obtain an opinion from an independent investment banking firm that is a member of FINRA, or an independent accounting firm with respect to the satisfaction of such criteria. Our stockholders may not be provided with a copy of such opinion, nor will they be able to rely on such opinion.

We may, at our option, pursue an acquisition opportunity jointly with one or more entities or funds affiliated with our Founders, sponsor or management team or their respective affiliates, which we refer to as an "Affiliated Joint Acquisition." Any such parties may co-invest with us in the target business at the time of our initial business combination, or we could raise additional proceeds to complete the acquisition by issuing to such parties a class of equity or equity-linked securities. We refer to this potential future issuance, or a similar issuance to other specified purchasers, as a "specified future issuance" throughout this Report.

The amount and other terms and conditions of any such specified future issuance would be determined at the time thereof. We are not obligated to make any specified future issuance and may determine not to do so. Pursuant to the anti-dilution provisions of our Class B common stock, any such specified future issuance would result in an adjustment to the conversion ratio such that our initial stockholders and their permitted transferees, if any, would retain their aggregate percentage ownership at 20% of the sum of the total number of all shares of common stock outstanding upon completion of our initial public offering plus all shares issued in the specified future issuance, unless the holders of a majority of the then-outstanding shares of Class B common stock agreed to waive such adjustment with respect to the specified future issuance at the time thereof. We cannot determine at this time whether a majority of the holders of our Class B common stock at the time of any such specified future issuance would agree to waive such adjustment to the conversion ratio. If such adjustment is not waived, the specified future issuance would not reduce the percentage ownership of holders of our Class B common stock, but would reduce the percentage ownership of holders of our Class A common stock. If such adjustment is waived, the specified future issuance would reduce the percentage ownership of holders of both classes of our common stock.

We anticipate structuring our initial business combination so that the post-transaction company in which our public stockholders own shares will own or acquire 100% of the equity interests or assets of the target business or businesses. We may, however, structure our initial business combination such that the post-transaction company owns or acquires less than 100% of such interests or assets of the target business in order to meet certain objectives of the target management team or stockholders or for other reasons, including an Affiliated Joint Acquisition as described above. However, we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires an interest in the target or assets sufficient for the post-transaction company not to be required to register as an investment company under the Investment Company Act of 1940, as amended, or the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the voting securities of the target, our stockholders prior to the business combination may collectively own a minority interest in the post-transaction company, depending on valuations ascribed to the target and us in the business combination transaction. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock of a target. In this case, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our stockholders immediately prior to our initial business combination could own less than a majority of our outstanding shares subsequent to our initial business combination. If less than 100% of the equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired is what will be valued for purposes of the 80% of net assets test. If the business combination involves more than one target business, the 80% of net assets test will be based on the aggregate value of all of the target businesses and we will treat the target businesses together as the initial business combination for purposes of a tender offer or for seeking stockholder approval, as applicable.

Our Acquisition Process

We believe that conducting comprehensive due diligence on prospective investments is particularly important within the healthcare industry. We utilize the diligence, rigor, and expertise of our Founders' respective platforms to evaluate potential targets' strengths, weaknesses, and opportunities to identify the relative risk and return profile of any potential target for our initial business combination. Given our management team's extensive tenure investing in the healthcare industry, we are often familiar with a prospective target's end-market, competitive landscape and business model.

We are not prohibited from pursuing an initial business combination with a company that is affiliated with our Founders, sponsor, officers, directors or advisors, subject to certain approvals and consents. In the event we seek to complete our initial business combination with a company that is affiliated with our Founders, sponsor, officers, directors or advisors, we, or a committee of independent directors, will obtain an opinion from an independent investment banking firm which is a member of FINRA or an independent accounting firm that our initial business combination is fair to us from a financial point of view. Currently, we are not aware of an affiliate of any of our Founders that would make a suitable target for our initial business combination.

Some of our officers and directors presently have, or any of them in the future may have additional, fiduciary or contractual obligations to other entities pursuant to which such officer or director is or will be required to present a business combination opportunity. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity which is suitable for an entity to which he or she has then-current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such opportunity to such entity. Most of our officers and certain of our directors and advisors are employed by or affiliated with our Founders. Our Founders and management team are continuously made aware of potential investment opportunities, one or more of which we may desire to pursue for a business combination. In addition, we may, at our option, pursue an Affiliated Joint Acquisition opportunity with an entity to which a Founder, officer or director has a fiduciary or contractual obligation. Any such entity may co-invest with us in the target business at the time of our initial business combination, or we could raise additional proceeds to complete the acquisition by making a specified future issuance to any such entity. Our amended and restated certificate of incorporation provides that we renounce our interest in any corporate opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of our company and such opportunity is one we are legally and contractually permitted to undertake and would otherwise be reasonable for us to pursue.

Our officers have agreed not to become an officer or director of any other special purpose acquisition company with a class of securities registered under the Securities Exchange Act of 1934, as amended, or the Exchange Act, until we have entered into a definitive agreement regarding our initial business combination or we have failed to complete our initial business combination by November 22, 2021.

Status as a Public Company

We believe our structure makes us an attractive business combination partner to target businesses. As an existing public company, we offer a target business an alternative to the traditional initial public offering through a merger or other business combination. In this situation, the owners of the target business would exchange their shares of stock in the target business for shares of our stock or for a combination of shares of our stock and cash, allowing us to tailor the consideration to the specific needs of the sellers. Although there are various costs and obligations associated with being a public company, we believe target businesses will find this method a more certain and cost effective method to becoming a public company than the typical initial public offering. In a typical initial public offering, there are additional expenses incurred in marketing, road show and public reporting efforts that may not be present to the same extent in connection with a business combination with us.

Furthermore, once a proposed business combination is completed, the target business will have effectively become public, whereas an initial public offering is always subject to the underwriters' ability to complete the offering, as well as general market conditions, which could delay or prevent the offering from occurring or could have negative valuation consequences. Once public, we believe the target business would then have greater access to capital and an additional means of providing management incentives consistent with stockholders' interests. It can offer further benefits by augmenting a company's profile among potential new customers and vendors and aid in attracting talented employees.

We are an "emerging growth company," as defined in Section 2(a) of the Securities Act, as modified by the JOBS Act. As such, we are eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not "emerging growth companies" including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. If some investors find our securities less attractive as a result, there may be a less active trading market for our securities and the prices of our securities may be more volatile.

In addition, Section 107 of the JOBS Act also provides that an "emerging growth company" can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an "emerging growth company" can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We intend to take advantage of the benefits of this extended transition period.

We will remain an emerging growth company until the earlier of (1) the last day of the fiscal year (a) following November 22, 2024, (b) in which we have total annual gross revenue of at least \$1.07 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our Class A common stock that is held by non-affiliates exceeds \$700 million as of the prior June 30th, and (2) the date on which we have issued more than \$1.0 billion in non-convertible debt securities during the prior three-year period.

Financial Position

With funds in the trust account available for a business combination, as of December 31, 2019, in the amount of \$96,654,572, after payment of \$3,500,000 of deferred underwriting fees, in each case before fees and expenses associated with our initial business combination, we offer a target business a variety of options such as creating a liquidity event for its owners, providing capital for the potential growth and expansion of its operations or strengthening its balance sheet by reducing its debt or leverage ratio. Because we are able to complete our business combination using our cash, debt or equity securities, or a combination of the foregoing, we have the flexibility to use the most efficient combination that will allow us to tailor the consideration to be paid to the target business to fit its needs and desires. However, we have not taken any steps to secure third party financing and there can be no assurance it will be available to us.

Effecting our Initial Business Combination

We are not presently engaged in, and we will not engage in, any operations for an indefinite period of time. We intend to complete our initial business combination using cash from the proceeds of our initial public offering and the private placement of the private placement warrants, our capital stock, debt or a combination of these as the consideration to be paid in our initial business combination. We may seek to complete our initial business combination with a company or business that may be financially unstable or in its early stages of development or growth, which would subject us to the numerous risks inherent in such companies and businesses.

If our initial business combination is paid for using equity or debt instruments, or not all of the funds released from the trust account are used for payment of the consideration in connection with our business combination or used for redemptions of our Class A common stock, we may apply the balance of the cash released to us from the trust account for general corporate purposes, including for maintenance or expansion of operations of the post-transaction company, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other assets, companies or for working capital.

We may seek to raise additional funds through a private offering of debt or equity securities in connection with the completion of our initial business combination (which may include a specified future issuance), and we may complete our initial business combination using the proceeds of our initial public offering rather than using the amounts held in the trust account. Subject to compliance with applicable securities laws, we would expect to complete such financing only simultaneously with the completion of our business combination. In the case of an initial business combination funded with assets other than the trust account assets, our tender offer documents or proxy materials disclosing the business combination would disclose the terms of the financing and, only if required by law, we would seek stockholder approval of such financing. There are no prohibitions on our ability to raise funds privately, including pursuant to any specified future issuance, or through loans in connection with our initial business combination.

The time required to select and evaluate a target business and to structure and complete our initial business combination, and the costs associated with this process, are not currently ascertainable with any degree of certainty. Any costs incurred with respect to the identification and evaluation of a prospective target business with which our business combination is not ultimately completed will result in our incurring losses and will reduce the funds we can use to complete another business combination.

Sources of Target Businesses

We receive proprietary transaction opportunities to originate as a result of the business relationships, direct outreach, and deal sourcing activities of our management team and our Founders. In addition to the proprietary deal flow, target business candidates are brought to our attention from various unaffiliated sources, including investment banking firms, consultants, accounting firms, private equity groups, large business enterprises, and other market participants. These sources may also introduce us to target businesses in which they think we may be interested on an unsolicited basis, since many of these sources will have read our public filings and know what types of businesses we are targeting. Our management team and our Founders, as well as their affiliates, may also bring to our attention target business candidates that they become aware of through their business contacts as a result of formal or informal inquiries or discussions they may have, as well as attending trade shows or conventions. Some of our officers, directors and advisors may enter into employment or consulting agreements with the post-transaction company following our initial business combination. The presence or absence of any such fees or arrangements will not be used as a criterion in our selection process of an acquisition candidate. Except as set forth herein with respect to a bonus payment to Mr. Kapoor, in no event will our sponsor or any of our existing officers, directors or advisors, or any entity with which they are affiliated, be paid any finder's fee, consulting fee, advisory fee or other compensation prior to, or for any services they render in order to effectuate, the completion of our initial business combination (regardless of the type of transaction that it is) although we may consider cash or other compensation to officers or advisors we have hired or may hire to be paid either prior to or in connection with our initial business combination. We have agreed to reimburse our sponsor for any out-of-pocket expenses related to identifying, investigating and completing an initial business combination.

We are not prohibited from pursuing an initial business combination with a business combination target that is affiliated with our Founders, sponsor, officers, directors or advisors or making the acquisition through a joint venture or other form of shared ownership with our Founders, officers, directors or advisors. In the event we seek to complete our initial business combination with a business combination target that is affiliated with our Founders, sponsor, officers, directors or advisors, we, or a committee of independent directors, would obtain an opinion from an independent investment banking firm which is a member of FINRA or an independent accounting firm that such an initial business combination is fair to our company from a financial point of view. We are not required to obtain such an opinion in any other context. If any of our officers or directors becomes aware of a business combination opportunity that falls within the line of business of any entity to which he or she has pre-existing fiduciary or contractual obligations, he or she may be required to present such business combination opportunity to such entity prior to presenting such business combination opportunity to us. Any such entity may co-invest with us in the target business at the time of our initial business combination, or we could raise additional proceeds to complete the acquisition by making a specified future issuance to any such entity.

Lack of Business Diversification

For an indefinite period of time after the completion of our initial business combination, the prospects for our success may depend entirely on the future performance of a single business. Unlike other entities that have the resources to complete business combinations with multiple entities in one or several industries, it is probable that we will not have the resources to diversify our operations and mitigate the risks of being in a single line of business. In addition, we intend to focus our search for an initial business combination in a single industry. By completing our business combination with only a single entity, our lack of diversification may:

- subject us to negative economic, competitive and regulatory developments, any or all of which may have a substantial adverse impact on the particular industry in which we operate after our initial business combination,
- cause us to depend on the marketing and sale of a single product or limited number of products or services, and
- confront us with challenges of developing and marketing novel pharmaceutical products if the entity we acquired has no revenue-generating products and is development-oriented.

Limited Ability to Evaluate the Target's Management Team

Although we intend to closely scrutinize the management of a prospective target business when evaluating the desirability of effecting our business combination with that business, our assessment of the target business' management may not prove to be correct. In addition, the future management may not have the necessary skills, qualifications or abilities to manage a public company. Furthermore, the future role of members of our management team or of our board, if any, in the target business cannot presently be stated with any certainty. While it is possible that one or more of our directors will remain associated in some capacity with us following our business combination, it is presently unknown if any of them will devote their full efforts to our affairs subsequent to our business combination. Moreover, we cannot assure you that members of our management team will have significant experience or knowledge relating to the operations of the particular target business. The determination as to whether any members of our board of directors will remain with the combined company will be made at the time of our initial business combination.

Following a business combination, to the extent that we deem it necessary, we may seek to recruit additional managers to supplement the incumbent management team of the target business. We cannot assure you that we will have the ability to recruit additional managers, or that additional managers will have the requisite skills, knowledge or experience necessary to enhance the incumbent management.

Stockholders May Not Have the Ability to Approve our Initial Business Combination

We may conduct redemptions without a stockholder vote pursuant to the tender offer rules of the SEC. However, we will seek stockholder approval if it is required by law or applicable stock exchange rule, or we may decide to seek stockholder approval for business or other legal reasons. Presented in the table below is a graphic explanation of the types of initial business combinations we may consider and whether stockholder approval is currently required under Delaware law for each such transaction.

Type of Transaction	Whether Stockholder Approval is Required
Purchase of assets	No
Purchase of stock of target not involving a merger with the company	No
Merger of target into a subsidiary of the company	No
Merger of the company with a target	Yes

Under NASDAQ's listing rules, stockholder approval would be required for our initial business combination if, for example:

- we issue shares of Class A common stock that will be equal to or in excess of 20% of the number of shares of our common stock then outstanding;
- any of our directors, officers or substantial stockholders (as defined by NASDAQ rules) has a 5% or greater interest (or such persons collectively have a 10% or greater interest), directly or indirectly, in the target business or assets to be acquired or otherwise and the present or potential issuance of common stock could result in an increase in outstanding common shares or voting power of 5% or more; or
- the issuance or potential issuance of common stock will result in our undergoing a change of control.

Permitted Purchases of our Securities

In the event we seek stockholder approval of our business combination and we do not conduct redemptions in connection with our business combination pursuant to the tender offer rules, our sponsor, directors, officers, advisors or their affiliates may purchase shares in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. However, they have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions.

None of the funds in the trust account will be used to purchase shares in such transactions. Our sponsor, directors, officers, advisors or their affiliates will not make any such purchases when they are in possession of any material non-public information not disclosed to the seller or if such purchases are prohibited by Regulation M under the Exchange Act. Such a purchase may include a contractual acknowledgement that such stockholder, although still the record holder of our shares is no longer the beneficial owner thereof and therefore agrees not to exercise its redemption rights. In the event that our sponsor, directors, officers, advisors or their affiliates purchase shares in privately negotiated transactions from public stockholders who have already elected to exercise their redemption rights, such selling stockholders would be required to revoke their prior elections to redeem their shares. We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will comply with such rules.

The purpose of such purchases would be to (i) vote such shares in favor of the business combination and thereby increase the likelihood of obtaining stockholder approval of the business combination or (ii) to satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our business combination, where it appears that such requirement would otherwise not be met. This may result in the completion of our business combination that may not otherwise have been possible.

In addition, if such purchases are made, the public “float” of our common stock may be reduced and the number of beneficial holders of our securities may be reduced, which may make it difficult to maintain or obtain the quotation, listing or trading of our securities on a national securities exchange.

Our sponsor, officers, directors, advisors and/or their affiliates anticipate that they may identify the stockholders with whom our sponsor, officers, directors, advisors or their affiliates may pursue privately negotiated purchases by either the stockholders contacting us directly or by our receipt of redemption requests submitted by stockholders following our mailing of proxy materials in connection with our initial business combination. To the extent that our sponsor, officers, directors, advisors or their affiliates enter into a private purchase, they would identify and contact only potential selling stockholders who have expressed their election to redeem their shares for a pro rata share of the trust account or vote against the business combination. Our sponsor, officers, directors, advisors or their affiliates will only purchase shares if such purchases comply with Regulation M under the Exchange Act and the other federal securities laws.

Any purchases by our sponsor, officers, directors, advisors and/or their affiliates who are affiliated purchasers under Rule 10b-18 under the Exchange Act will only be made to the extent such purchases are able to be made in compliance with Rule 10b-18, which is a safe harbor from liability for manipulation under Section 9(a)(2) and Rule 10b-5 of the Exchange Act. Rule 10b-18 has certain technical requirements that must be complied with in order for the safe harbor to be available to the purchaser. Our sponsor, officers, directors, advisors and/or their affiliates will not make purchases of common stock if the purchases would violate Section 9(a)(2) or Rule 10b-5 of the Exchange Act.

Redemption Rights for Public Stockholders upon Completion of our Initial Business Combination

We will provide our public stockholders with the opportunity to redeem all or a portion of their shares of Class A common stock upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of the initial business combination including interest earned on the funds held in the trust account and not previously released to us to pay our taxes, divided by the number of then outstanding public shares, subject to the limitations described herein. The amount in the trust account as of December 31, 2019 is \$10.02 per public share. The per-share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. Our sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to any founder shares and any public shares held by them in connection with the completion of our business combination.

Manner of Conducting Redemptions

We will provide our public stockholders with the opportunity to redeem all or a portion of their shares of Class A common stock upon the completion of our initial business combination either (i) in connection with a stockholder meeting called to approve the business combination or (ii) by means of a tender offer. The decision as to whether we will seek stockholder approval of a proposed business combination or conduct a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would require us to seek stockholder approval under the law or stock exchange listing requirement. Asset acquisitions and stock purchases would not typically require stockholder approval while direct mergers with our company where we do not survive and any transactions where we issue more than 20% of our outstanding common stock or seek to amend our amended and restated certificate of incorporation would require stockholder approval. If we structure a business combination transaction with a target company in a manner that requires stockholder approval, we will not have discretion as to whether to seek a stockholder vote to approve the proposed business combination. We intend to conduct redemptions without a stockholder vote pursuant to the tender offer rules of the SEC unless stockholder approval is required by law or stock exchange listing requirements or we choose to seek stockholder approval for business or other legal reasons. So long as we obtain and maintain a listing for our securities on NASDAQ, we are required to comply with such rules.

If a stockholder vote is not required and we do not decide to hold a stockholder vote for business or other legal reasons, we will, pursuant to our amended and restated certificate of incorporation:

- conduct the redemptions pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, which regulate issuer tender offers, and
- file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act, which regulates the solicitation of proxies.

Upon the public announcement of our business combination, we or our sponsor will terminate any plan established in accordance with Rule 10b5-1 to purchase shares of our Class A common stock in the open market if we elect to redeem our public shares through a tender offer, to comply with Rule 14e-5 under the Exchange Act.

In the event that we conduct redemptions pursuant to the tender offer rules, our offer to redeem will remain open for at least 20 business days, in accordance with Rule 14e-1(a) under the Exchange Act, and we will not be permitted to complete our initial business combination until the expiration of the tender offer period. In addition, the tender offer will be conditioned on public stockholders not tendering more than a specified number of public shares which are not purchased by our sponsor, which number will be based on the requirement that we will only redeem our public shares so long as (after such redemption) our net tangible assets will be at least \$5,000,001 either immediately prior to or upon consummation of our initial business combination and after payment of underwriters' fees and commissions (so that we are not subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. If public stockholders tender more shares than we have offered to purchase, we will withdraw the tender offer and not complete the initial business combination.

If, however, stockholder approval of the transaction is required by law or stock exchange listing requirement, or we decide to obtain stockholder approval for business or other legal reasons, we will, pursuant to our amended and restated certificate of incorporation:

- conduct the redemptions in conjunction with a proxy solicitation pursuant to Regulation 14A of the Exchange Act, which regulates the solicitation of proxies, and not pursuant to the tender offer rules, and
- file proxy materials with the SEC.

In the event that we seek stockholder approval of our initial business combination, we will distribute proxy materials and, in connection therewith, provide our public stockholders with the redemption rights described above upon completion of the initial business combination.

If we seek stockholder approval, we will complete our initial business combination only if a majority of the outstanding shares of common stock voted are voted in favor of the business combination. A quorum for such meeting will consist of the holders present in person or by proxy of shares of outstanding capital stock of the company representing a majority of the voting power of all outstanding shares of capital stock of the company entitled to vote at such meeting. Our sponsor, officers and directors will count toward this quorum and have agreed to vote their founder shares and any public shares purchased in favor of our initial business combination. For purposes of seeking approval of the majority of our outstanding shares of common stock voted, non-votes will have no effect on the approval of our initial business combination once a quorum is obtained. As a result, in addition to our sponsor, officers and directors' founder shares, we would need 3,750,001, or 37.5%, of the 10,000,000 public shares sold in our initial public offering to be voted in favor of a transaction (assuming all outstanding shares are voted) in order to have our initial business combination approved. We intend to give approximately 30 days (but not less than 10 days nor more than 60 days) prior written notice of any such meeting, if required, at which a vote shall be taken to approve our initial business combination. These quorum and voting thresholds, and the voting agreements of our sponsor, officers and directors, may make it more likely that we will consummate our initial business combination. Each public stockholder may elect to redeem its public shares irrespective of whether they vote for or against the proposed transaction.

Our amended and restated certificate of incorporation provides that we will only redeem our public shares so long as (after such redemption) our net tangible assets will be at least \$5,000,001 either immediately prior to or upon consummation of our initial business combination and after payment of underwriters' fees and commissions (so that we are not subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. For example, the proposed business combination may require: (i) cash consideration to be paid to the target or its owners, (ii) cash to be transferred to the target for working capital or other general corporate purposes or (iii) the retention of cash to satisfy other conditions in accordance with the terms of the proposed business combination. In the event the aggregate cash consideration we would be required to pay for all shares of Class A common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination or redeem any shares, and all shares of Class A common stock submitted for redemption will be returned to the holders thereof.

Limitation on Redemption upon Completion of Initial Business Combination if we Seek Stockholder Approval

Notwithstanding the foregoing, if we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation provides that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to more than an aggregate of 20% of the shares sold in our initial public offering, which we refer to as the “Excess Shares.” We believe this restriction will discourage stockholders from accumulating large blocks of shares, and subsequent attempts by such holders to use their ability to exercise their redemption rights against a proposed business combination as a means to force us or our management to purchase their shares at a significant premium to the then-current market price or on other undesirable terms. Absent this provision, a public stockholder holding more than an aggregate of 20% of the shares sold in our initial public offering could threaten to exercise its redemption rights if such holder’s shares are not purchased by us or our management at a premium to the then-current market price or on other undesirable terms. By limiting our stockholders’ ability to redeem no more than 20% of the shares sold in our initial public offering, we believe we will limit the ability of a small group of stockholders to unreasonably attempt to block our ability to complete our business combination, particularly in connection with a business combination with a target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. However, our amended and restated certificate of incorporation does not restrict our stockholders’ ability to vote all of their shares (including Excess Shares) for or against our business combination.

Tendering Stock Certificates in Connection with a Tender Offer or Redemption Rights

We may require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in “street name,” to either tender their certificates to our transfer agent prior to the date set forth in the tender offer documents mailed to such holders, or up to two business days prior to the vote on the proposal to approve the business combination in the event we distribute proxy materials, or to deliver their shares to the transfer agent electronically using the Depository Trust Company’s DWAC (Deposit/Withdrawal At Custodian) System, at the holder’s option. The tender offer or proxy materials, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will indicate whether we are requiring public stockholders to satisfy such delivery requirements. Accordingly, a public stockholder would have from the time we send out our tender offer materials until the close of the tender offer period, or up to two days prior to the vote on the business combination if we distribute proxy materials, as applicable, to tender its shares if it wishes to seek to exercise its redemption rights. Given the relatively short exercise period, it is advisable for stockholders to use electronic delivery of their public shares.

There is a nominal cost associated with the above-referenced tendering process and the act of certificating the shares or delivering them through the DWAC System. The transfer agent will typically charge the tendering broker \$80.00 and it would be up to the broker whether or not to pass this cost on to the redeeming holder. However, this fee would be incurred regardless of whether or not we require holders seeking to exercise redemption rights to tender their shares. The need to deliver shares is a requirement of exercising redemption rights regardless of the timing of when such delivery must be effectuated.

Any request to redeem such shares, once made, may be withdrawn at any time up to the date set forth in the tender offer materials or the date of the stockholder meeting set forth in our proxy materials, as applicable. Furthermore, if a holder of a public share delivered its certificate in connection with an election of redemption rights and subsequently decides prior to the applicable date not to elect to exercise such rights, such holder may simply request that the transfer agent return the certificate (physically or electronically). It is anticipated that the funds to be distributed to holders of our public shares electing to redeem their shares will be distributed promptly after the completion of our business combination.

If our initial business combination is not approved or completed for any reason, then our public stockholders who elected to exercise their redemption rights would not be entitled to redeem their shares for the applicable pro rata share of the trust account. In such case, we will promptly return any certificates delivered by public holders who elected to redeem their shares.

If our initial proposed business combination is not completed, we may continue to try to complete a business combination with a different target until November 22, 2021.

Redemption of Public Shares and Liquidation if no Initial Business Combination

Our amended and restated certificate of incorporation provides that we will have until November 22, 2021 to complete our initial business combination. If we are unable to complete our business combination by November 22, 2021, we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account including interest earned on the funds held in the trust account and not previously released to us to pay our taxes (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders’ rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to our warrants, which will expire worthless if we fail to complete our business combination by November 22, 2021.

Our sponsor, officers and directors have waived their rights to liquidating distributions from the trust account with respect to any founder shares held by them if we fail to complete our initial business combination by November 22, 2021. However, if our sponsor, officers or directors acquire public shares, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination by such date.

Our sponsor, officers and directors have agreed, pursuant to a letter agreement with us, that they will not propose any amendment to our amended and restated certificate of incorporation (i) that would modify the substance or timing of our obligation to allow redemption in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination by November 22, 2021, or (ii) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity, unless we provide our public stockholders with the opportunity to redeem their shares of Class A common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account including interest earned on the funds held in the trust account and not previously released to us to pay our taxes divided by the number of then outstanding public shares. However, we will only redeem our public shares so long as (after such redemption) our net tangible assets will be at least \$5,000,001 either immediately prior to or upon consummation of our initial business combination and after payment of underwriters' fees and commissions (so that we are not subject to the SEC's "penny stock" rules). If this optional redemption right is exercised with respect to an excessive number of public shares such that we cannot satisfy the net tangible asset requirement (described above) we would not proceed with the amendment or the related redemption of our public shares.

We expect that all costs and expenses associated with implementing our plan of dissolution, as well as payments to any creditors, will be funded from amounts remaining of approximately \$1,213,000 of proceeds held outside the trust account (as of December 31, 2019), although we cannot assure you that there will be sufficient funds for such purpose. However, if those funds are not sufficient to cover the costs and expenses associated with implementing our plan of dissolution, to the extent that there is any interest accrued in the trust account not required to pay taxes on interest income earned on the trust account balance, we may request the trustee to release to us an additional amount of up to \$100,000 of such accrued interest to pay those costs and expenses.

If we were to expend all of the net proceeds of our initial public offering and the sale of the private placement warrants, other than the proceeds deposited in the trust account, and without taking into account interest, if any, earned on the trust account, the per-share redemption amount received by stockholders upon our dissolution would be approximately \$10.00. The proceeds deposited in the trust account could, however, become subject to the claims of our creditors which would have higher priority than the claims of our public stockholders. We cannot assure you that the actual per-share redemption amount received by stockholders will not be substantially less than \$10.00. Under Section 281(b) of the DGCL, our plan of dissolution must provide for all claims against us to be paid in full or make provision for payments to be made in full, as applicable, if there are sufficient assets. These claims must be paid or provided for before we make any distribution of our remaining assets to our stockholders. While we intend to pay such amounts, if any, we cannot assure you that we will have funds sufficient to pay or provide for all creditors' claims.

Although we have sought and will continue to seek to have all vendors, service providers, prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest and claim of any kind in or to any monies held in the trust account for the benefit of our public stockholders, there is no guarantee that they will execute such agreements or even if they execute such agreements that they would be prevented from bringing claims against the trust account including but not limited to fraudulent inducement, breach of fiduciary responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain an advantage with respect to a claim against our assets, including the funds held in the trust account. If any third party refuses to execute an agreement waiving such claims to the monies held in the trust account, our management will perform an analysis of the alternatives available to it and will only enter into an agreement with a third party that has not executed a waiver if management believes that such third party's engagement would be significantly more beneficial to us than any alternative. Examples of possible instances where we may engage a third party that refuses to execute a waiver include the engagement of a third party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a waiver or in cases where management is unable to find a service provider willing to execute a waiver. WithumSmith+Brown, PC, our independent registered public accounting firm will not execute agreements with us waiving such claims to the monies held in the trust account.

In addition, there is no guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse against the trust account for any reason. Our sponsor has agreed that it will be liable to us if and to the extent any claims by a third party for services rendered or products sold to us, or a prospective target business with which we have discussed entering into a transaction agreement, reduce the amount of funds in the trust account to below (i) \$10.00 per public share or (ii) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account, due to reductions in value of the trust assets, in each case net of the amount of interest which may be withdrawn to pay taxes, except as to any claims by a third party who executed a waiver of any and all rights to seek access to the trust account and except as to any claims under our indemnity of the underwriters of our initial public offering against certain liabilities, including liabilities under the Securities Act. In the event that an executed waiver is deemed to be unenforceable against a third party, then our sponsor will not be responsible to the extent of any liability for such third party claims. We have not independently verified whether our sponsor has sufficient funds to satisfy its indemnity obligations and believe that our sponsor's only assets are securities of our company. We have not asked our sponsor to reserve for such indemnification obligations. Therefore, we cannot assure you that our sponsor would be able to satisfy those obligations. As a result, if any such claims were successfully made against the trust account, the funds available for our initial business combination and redemptions could be reduced to less than \$10.00 per public share. In such event, we may not be able to complete our initial business combination, and you would receive such lesser amount per share in connection with any redemption of your public shares. None of our officers will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

In the event that the proceeds in the trust account are reduced below (i) \$10.00 per public share or (ii) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account, due to reductions in value of the trust assets, in each case net of the amount of interest which may be withdrawn to pay taxes, and our sponsor asserts that it is unable to satisfy its indemnification obligations or that it has no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against our sponsor to enforce its indemnification obligations. While we currently expect that our independent directors would take legal action on our behalf against our sponsor to enforce its indemnification obligations to us, it is possible that our independent directors in exercising their business judgment may choose not to do so if, for example, the cost of such legal action is deemed by the independent directors to be too high relative to the amount recoverable or if the independent directors determine that a favorable outcome is not likely. We have not asked our sponsor to reserve for such indemnification obligations and we cannot assure you that our sponsor would be able to satisfy those obligations. Accordingly, we cannot assure you that due to claims of creditors the actual value of the per-share redemption price will not be less than \$10.00 per public share.

We seek to reduce the possibility that our sponsor has to indemnify the trust account due to claims of creditors by endeavoring to have all vendors, service providers (other than our independent auditor), prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to monies held in the trust account. Our sponsor will also not be liable as to any claims under our indemnity of the underwriters of our initial public offering against certain liabilities, including liabilities under the Securities Act. We will have access to up to approximately \$1,213,000 from the proceeds held outside the trust account (as of December 31, 2019) with which to pay any such potential claims. In the event that we liquidate and it is subsequently determined that the reserve for claims and liabilities is insufficient, stockholders who received funds from our trust account could be liable for claims made by creditors.

Under the DGCL, stockholders may be held liable for claims by third parties against a corporation to the extent of distributions received by them in a dissolution. The pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our business combination by November 22, 2021 may be considered a liquidating distribution under Delaware law. Delaware law provides that if a corporation complies with certain procedures set forth in Section 280 of the DGCL intended to ensure that it makes reasonable provision for all claims against it, including a 60-day notice period during which any third-party claims can be brought against the corporation, a 90-day period during which the corporation may reject any claims brought, and an additional 150-day waiting period before any liquidating distributions are made to stockholders, any liability of stockholders with respect to a liquidating distribution is limited to the lesser of such stockholder's pro rata share of the claim or the amount distributed to the stockholder, and any liability of the stockholder would be barred after the third anniversary of the dissolution.

Furthermore, if the pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our business combination by November 22, 2021, is not considered a liquidating distribution under Delaware law and such redemption distribution is deemed to be unlawful, then pursuant to Section 174 of the DGCL, the statute of limitations for claims of creditors could then be six years after the unlawful redemption distribution, instead of three years, as in the case of a liquidating distribution. If we are unable to complete our business combination by November 22, 2021, we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account including interest earned on the funds held in the trust account and not previously released to us to pay our taxes (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. Accordingly, it is our intention to redeem our public shares as soon as reasonably possible following November 22, 2021 and, therefore, we do not intend to comply with those procedures. As such, our stockholders could potentially be liable for any claims to the extent of distributions received by them (but no more) and any liability of our stockholders may extend well beyond the third anniversary of such date.

Because we will not be complying with Section 280, Section 281(b) of the DGCL requires us to adopt a plan, based on facts known to us at such time that will provide for our payment of all existing and pending claims or claims that may be potentially brought against us within the subsequent 10 years. However, because we are a blank check company, rather than an operating company, and our operations are limited to searching for prospective target businesses to acquire, the only likely claims to arise would be from our vendors (such as lawyers, investment bankers, etc. and auditors) or prospective target businesses. As described above, pursuant to the obligation contained in our underwriting agreement, we have sought and will continue to seek to have all vendors, service providers (other than our independent auditor), prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account. As a result of this obligation, the claims that could be made against us are significantly limited and the likelihood that any claim that would result in any liability extending to the trust account is remote. Further, our sponsor may be liable only to the extent necessary to ensure that the amounts in the trust account are not reduced below (i) \$10.00 per public share or (ii) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account, due to reductions in value of the trust assets, in each case net of the amount of interest withdrawn to pay taxes and will not be liable as to any claims under our indemnity of the underwriters of our initial public offering against certain liabilities, including liabilities under the Securities Act. In the event that an executed waiver is deemed to be unenforceable against a third party, our sponsor will not be responsible to the extent of any liability for such third-party claims.

If we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, the proceeds held in the trust account could be subject to applicable bankruptcy law, and may be included in our bankruptcy estate and subject to the claims of third parties with priority over the claims of our stockholders. To the extent any bankruptcy claims deplete the trust account, we cannot assure you we will be able to return \$10.00 per share to our public stockholders. Additionally, if we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, any distributions received by stockholders could be viewed under applicable debtor/creditor and/or bankruptcy laws as either a “preferential transfer” or a “fraudulent conveyance.” As a result, a bankruptcy court could seek to recover some or all amounts received by our stockholders. Furthermore, our board of directors may be viewed as having breached its fiduciary duty to our creditors and/or may have acted in bad faith, thereby exposing itself and our company to claims of punitive damages, by paying public stockholders from the trust account prior to addressing the claims of creditors. We cannot assure you that claims will not be brought against us for these reasons.

Our public stockholders will be entitled to receive funds from the trust account only (i) in the event of the redemption of our public shares if we do not complete our business combination by November 22, 2021, subject to applicable law, (ii) (a) in connection with a stockholder vote to approve an amendment to our amended and restated certificate of incorporation to modify the substance or timing of our obligation to allow redemption in connection with our initial business combination or to redeem 100% of our public shares if we have not consummated an initial business combination by November 22, 2021 or (b) with respect to any other provision relating to stockholders’ rights or pre-initial business combination activity or (iii) our completion of an initial business combination, and then only in connection with those public shares that such stockholder properly elected to redeem, subject to the limitations described herein. In no other circumstances will a stockholder have any right or interest of any kind to or in the trust account. In the event we seek stockholder approval in connection with our initial business combination, a stockholder’s voting in connection with the business combination alone will not result in a stockholder’s redeeming its shares to us for an applicable pro rata share of the trust account. Such stockholder must have also exercised its redemption rights as described above.

Competition

In identifying, evaluating and selecting a target business for our business combination, we have encountered, may continue to encounter intense competition from other entities having a business objective similar to ours, including other blank check companies, private equity groups and leveraged buyout funds, and operating businesses seeking strategic acquisitions. Many of these entities are well established and have extensive experience identifying and effecting business combinations directly or through affiliates. Moreover, many of these competitors possess greater financial, technical, human and other resources than we do. Our ability to acquire larger target businesses is limited by our available financial resources. This inherent limitation gives others an advantage in pursuing the acquisition of a target business. Furthermore, our obligation to pay cash in connection with our public stockholders who exercise their redemption rights may reduce the resources available to us for our initial business combination and our outstanding warrants, and the future dilution they potentially represent, may not be viewed favorably by certain target businesses. Either of these factors may place us at a competitive disadvantage in successfully negotiating an initial business combination.

Employees

We currently have three officers. These individuals, except for Mr. Kapoor, are not obligated to devote any specific number of hours to our matters but they devote as much of their time as they deem necessary and intend to continue doing so to our affairs until we have completed our initial business combination. The amount of time they devote in any time period will vary based on whether a target business has been selected for our initial business combination and the stage of the initial business combination process we are in. We do not intend to have any additional full time employees prior to the completion of our initial business combination.

Periodic Reporting and Financial Information

Our units, Class A common stock and warrants are registered under the Exchange Act and we have reporting obligations, including the requirement that we file annual, quarterly and current reports with the SEC. In accordance with the requirements of the Exchange Act, this Report contains financial statements audited and reported on by our independent registered public accountants.

We will provide stockholders with audited financial statements of the prospective target business as part of the tender offer materials or proxy solicitation materials sent to stockholders to assist them in assessing the target business. In all likelihood, these financial statements will need to be prepared in accordance with GAAP. We cannot assure you that any particular target business selected by us as a potential acquisition candidate will have financial statements prepared in accordance with GAAP or that the potential target business will be able to prepare its financial statements in accordance with GAAP. To the extent that this requirement cannot be met, we may not be able to acquire the proposed target business. While this may limit the pool of potential acquisition candidates, we do not believe that this limitation will be material.

We will be required to evaluate our internal control procedures for the fiscal year ending December 31, 2020 as required by the Sarbanes-Oxley Act. Only in the event we are deemed to be a large accelerated filer or an accelerated filer, and no longer an emerging growth company, will we be required to have our internal control procedures audited. A target company may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of their internal controls. The development of the internal controls of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such acquisition.

Item 1A. Risk Factors.

You should carefully consider all of following risk factors and all the other information contained in this Report, including the financial statements. If any of the following risks occur, our business, financial condition or results of operations may be materially and adversely affected. In that event, the trading price of our securities could decline, and you could lose all or part of your investment. The risk factors described below are not necessarily exhaustive and you are encouraged to perform your own investigation with respect to us and our business.

We are an early stage company with no operating history and no revenues, and you have no basis on which to evaluate our ability to achieve our business objective.

We are an early stage company with no operating results. Because we lack an operating history, you have no basis upon which to evaluate our ability to achieve our business objective of completing our initial business combination with one or more target businesses. We may be unable to complete our business combination. If we fail to complete our business combination, we will never generate any operating revenues.

Our public stockholders may not be afforded an opportunity to vote on our proposed business combination, which means we may complete our initial business combination even if a majority of our public stockholders do not support such a combination.

We may not hold a stockholder vote to approve our initial business combination unless the business combination would require stockholder approval under applicable law or stock exchange listing requirements or if we decide to hold a stockholder vote for business or other legal reasons. Except as required by law, the decision as to whether we will seek stockholder approval of a proposed business combination or will allow stockholders to sell their shares to us in a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors, such as the timing of the transaction and whether the terms of the transaction would otherwise require us to seek stockholder approval. Accordingly, we may complete our initial business combination even if holders of a majority of our public shares do not approve of the business combination we complete.

If we seek stockholder approval of our initial business combination, our sponsor, officers and directors have agreed to vote in favor of such initial business combination, regardless of how our public stockholders vote.

Our sponsor, officers and directors have agreed to vote their founder shares, as well as any public shares purchased, in favor of our initial business combination. As a result, in addition to our sponsor, officers and directors' founder shares, we would need 3,750,001, or 37.5%, of the 10,000,000 public shares sold in our initial public offering to be voted in favor of a transaction. Our initial stockholders own shares representing 20% of our outstanding shares of common stock. Accordingly, if we seek stockholder approval of our initial business combination, it is more likely that the necessary stockholder approval will be received than would be the case if our sponsor, officers and directors agreed to vote their founder shares in accordance with the majority of the votes cast by our public stockholders.

Your only opportunity to affect the investment decision regarding a potential business combination will be limited to the exercise of your right to redeem your shares from us for cash, unless we seek stockholder approval of the business combination.

Since our board of directors may complete a business combination without seeking stockholder approval, public stockholders may not have the right or opportunity to vote on the business combination, unless we seek such stockholder vote. Accordingly, if we do not seek stockholder approval, your only opportunity to affect the investment decision regarding a potential business combination may be limited to exercising your redemption rights within the period of time (which will be at least 20 business days) set forth in our tender offer documents mailed to our public stockholders in which we describe our initial business combination.

The ability of our public stockholders to redeem their shares for cash may make our financial condition unattractive to potential business combination targets, which may make it difficult for us to enter into a business combination with a target.

We may seek to enter into a business combination transaction agreement with a prospective target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. If too many public stockholders exercise their redemption rights, we would not be able to meet such closing condition and, as a result, would not be able to proceed with the business combination. Furthermore, we will only redeem our public shares so long as (after such redemption) our net tangible assets will be at least \$5,000,001 either immediately prior to or upon consummation of our initial business combination and after payment of underwriters' fees and commissions (so that we are not subject to the SEC's "penny stock" rules) or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. Consequently, if accepting all properly submitted redemption requests would cause our net tangible assets to be less than \$5,000,001 upon completion of our initial business combination or such greater amount necessary to satisfy a closing condition, each as described above, we would not proceed with such redemption and the related business combination and may instead search for an alternate business combination. Prospective targets will be aware of these risks and, thus, may be reluctant to enter into a business combination transaction with us.

The ability of our public stockholders to exercise redemption rights with respect to a large number of our shares may not allow us to complete the most desirable business combination or optimize our capital structure.

At the time we enter into an agreement for our initial business combination, we will not know how many stockholders may exercise their redemption rights, and therefore will need to structure the transaction based on our expectations as to the number of shares that will be submitted for redemption. If our business combination agreement requires us to use a portion of the cash in the trust account to pay the purchase price, or requires us to have a minimum amount of cash at closing, we will need to reserve a portion of the cash in the trust account to meet such requirements, or arrange for third party financing. In addition, if a larger number of shares are submitted for redemption than we initially expected, we may need to restructure the transaction to reserve a greater portion of the cash in the trust account or arrange for third party financing. Raising additional third party financing may involve dilutive equity issuances or the incurrence of indebtedness at higher than desirable levels. The above considerations may limit our ability to complete the most desirable business combination available to us or optimize our capital structure. The amount of the deferred underwriting commissions payable to the underwriters will not be adjusted for any shares that are redeemed in connection with a business combination. The per-share amount we will distribute to stockholders who properly exercise their redemption rights will not be reduced by the deferred underwriting commission and after such redemptions, the per-share value of shares held by non-redeeming stockholders will reflect our obligation to pay the deferred underwriting commissions.

The ability of our public stockholders to exercise redemption rights with respect to a large number of our shares could increase the probability that our initial business combination would be unsuccessful and that you would have to wait for liquidation in order to redeem your stock.

If our business combination agreement requires us to use a portion of the cash in the trust account to pay the purchase price, or requires us to have a minimum amount of cash at closing, the probability that our initial business combination would be unsuccessful is increased. If our initial business combination is unsuccessful, you would not receive your pro rata portion of the trust account until we liquidate the trust account. If you are in need of immediate liquidity, you could attempt to sell your stock in the open market; however, at such time our stock may trade at a discount to the pro rata amount per share in the trust account. In either situation, you may suffer a material loss on your investment or lose the benefit of funds expected in connection with our redemption until we liquidate or you are able to sell your stock in the open market.

The requirement that we complete our initial business combination within the prescribed time frame may give potential target businesses leverage over us in negotiating a business combination and may decrease our ability to conduct due diligence on potential business combination targets as we approach our dissolution deadline, which could undermine our ability to complete our business combination on terms that would produce value for our stockholders.

Any potential target business with which we enter into negotiations concerning a business combination will be aware that we must complete our initial business combination by November 22, 2021. Consequently, such target business may obtain leverage over us in negotiating a business combination, knowing that if we do not complete our initial business combination with that particular target business, we may be unable to complete our initial business combination with any target business. This risk will increase as we get closer to the timeframe described above. In addition, we may have limited time to conduct due diligence and may enter into our initial business combination on terms that we would have rejected upon a more comprehensive investigation.

We may not be able to complete our initial business combination within the prescribed time frame, in which case we would cease all operations except for the purpose of winding up and we would redeem our public shares and liquidate, in which case our public stockholders may only receive \$10.00 per share, or less than such amount in certain circumstances, and our warrants will expire worthless.

Our amended and restated certificate of incorporation provides that we must complete our initial business combination by November 22, 2021. We may not be able to find a suitable target business and complete our initial business combination by such date. Our ability to complete our initial business combination may be negatively impacted by general market conditions, volatility in the capital and debt markets and the other risks described herein. If we have not completed our initial business combination within such time period, we will: (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account and not previously released to us to pay our taxes (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. In such case, our public stockholders may only receive \$10.00 per share or less in certain circumstances, and our warrants will expire worthless. In certain circumstances, our public stockholders may receive less than \$10.00 per share on the redemption of their shares.

If we seek stockholder approval of our initial business combination, our sponsor, directors, officers, advisors and their affiliates may elect to purchase shares or warrants from public stockholders, which may influence a vote on a proposed business combination and reduce the public "float" of our Class A common stock or warrants.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our business combination pursuant to the tender offer rules, our sponsor, directors, officers, advisors or their affiliates may purchase shares or public warrants, or a combination thereof in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination, although they are under no obligation to do so. Such a purchase may include a contractual acknowledgement that such stockholder, although still the record holder of our shares is no longer the beneficial owner thereof and therefore agrees not to exercise its redemption rights. In the event that our sponsor, directors, officers, advisors or their affiliates purchase shares in privately negotiated transactions from public stockholders who have already elected to exercise their redemption rights, such selling stockholders would be required to revoke their prior elections to redeem their shares. The purpose of such purchases could be to vote such shares in favor of the business combination and thereby increase the likelihood of obtaining stockholder approval of the business combination, or to satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our business combination, where it appears that such requirement would otherwise not be met. This may result in the completion of our business combination that may not otherwise have been possible.

In addition, if such purchases are made, the public "float" of our Class A common stock or public warrants and the number of beneficial holders of our securities may be reduced, possibly making it difficult to maintain the quotation, listing or trading of our securities on a national securities exchange.

If a stockholder fails to receive notice of our offer to redeem our public shares in connection with our business combination, or fails to comply with the procedures for tendering its shares, such shares may not be redeemed.

We will comply with the tender offer rules or proxy rules, as applicable, when conducting redemptions in connection with our business combination. Despite our compliance with these rules, if a stockholder fails to receive our tender offer or proxy materials, as applicable, such stockholder may not become aware of the opportunity to redeem its shares. In addition, the tender offer documents or proxy materials, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will describe the various procedures that must be complied with in order to validly tender or redeem public shares. For example, we may require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in "street name," to either tender their certificates to our transfer agent prior to the date set forth in the tender offer documents mailed to such holders, or up to two business days prior to the vote on the proposal to approve the business combination in the event we distribute proxy materials, or to deliver their shares to the transfer agent electronically. In the event that a stockholder fails to comply with these or any other procedures, its shares may not be redeemed.

You will not have any rights or interests in funds from the trust account, except under certain limited circumstances. To liquidate your investment, therefore, you may be forced to sell your public shares or warrants, potentially at a loss.

Our public stockholders will be entitled to receive funds from the trust account only upon the earliest to occur of: (i) our completion of an initial business combination, and then only in connection with those public shares that such stockholder properly elected to redeem, subject to the limitations described herein, (ii) the redemption of any public shares properly submitted in connection with a stockholder vote to amend our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to allow redemption in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination by November 22, 2021 or (B) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity and (iii) the redemption of our public shares if we are unable to complete an initial business combination by November 22, 2021, subject to applicable law and as further described herein. In addition, if we are unable to complete an initial business combination by November 22, 2021 for any reason, compliance with Delaware law may require that we submit a plan of dissolution to our then-existing stockholders for approval prior to the distribution of the proceeds held in our trust account. In that case, public stockholders may be forced to wait beyond November 22, 2021 before they receive funds from our trust account. In no other circumstances will a public stockholder have any right or interest of any kind in the trust account. Accordingly, to liquidate your investment, you may be forced to sell your public shares or warrants, potentially at a loss.

NASDAQ may delist our securities from trading on its exchange, which could limit investors' ability to make transactions in our securities and subject us to additional trading restrictions.

Our securities are currently listed on NASDAQ. However, we cannot assure you that our securities will continue to be listed on NASDAQ in the future or prior to our initial business combination. In order to continue listing our securities on NASDAQ prior to our initial business combination, we must maintain certain financial, distribution and stock price levels. Generally, we must maintain a minimum amount in stockholders' equity (generally \$2,500,000) and a minimum number of holders of our securities (generally 300 public holders, with at least 50% of such round lot holders holding securities with a market value of at least \$2,500). Additionally, in connection with our initial business combination, we will be required to demonstrate compliance with NASDAQ's initial listing requirements, which are more rigorous than NASDAQ's continued listing requirements, in order to continue to maintain the listing of our securities on NASDAQ. For instance, our stock price would generally be required to be at least \$4.00 per share and our stockholders' equity would generally be required to be at least \$5.0 million and we would be required to have a minimum of 300 round lot holders of our securities. We cannot assure you that we will be able to meet those initial listing requirements at that time.

If NASDAQ delists our securities from trading on its exchange and we are not able to list our securities on another national securities exchange, we expect our securities could be quoted on an over-the-counter market. If this were to occur, we could face significant material adverse consequences, including:

- a limited availability of market quotations for our securities;
- reduced liquidity for our securities;
- a determination that our Class A common stock is a "penny stock" which will require brokers trading in our Class A common stock to adhere to more stringent rules and possibly result in a reduced level of trading activity in the secondary trading market for our securities;
- a limited amount of news and analyst coverage; and
- a decreased ability to issue additional securities or obtain additional financing in the future.

The National Securities Markets Improvement Act of 1996, which is a federal statute, prevents or preempts the states from regulating the sale of certain securities, which are referred to as "covered securities." Because our units, Class A common stock and warrants are listed on NASDAQ, our units, Class A common stock and warrants are covered securities. Although the states are preempted from regulating the sale of our securities, the federal statute does allow the states to investigate companies if there is a suspicion of fraud, and, if there is a finding of fraudulent activity, then the states can regulate or bar the sale of covered securities in a particular case. While we are not aware of a state having used these powers to prohibit or restrict the sale of securities issued by blank check companies, other than the State of Idaho, certain state securities regulators view blank check companies unfavorably and might use these powers, or threaten to use these powers, to hinder the sale of securities of blank check companies in their states. Further, if we were no longer listed on NASDAQ, our securities would not be covered securities and we would be subject to regulation in each state in which we offer our securities.

You will not be entitled to protections normally afforded to investors of some other blank check companies.

Since the net proceeds of our initial public offering and the sale of the private placement warrants are intended to be used to complete an initial business combination with a target business that has not been selected, we may be deemed to be a “blank check” company under the United States securities laws. However, because we have net tangible assets in excess of \$5,000,000, we are exempt from rules promulgated by the SEC to protect investors in blank check companies, such as Rule 419. Accordingly, investors are not afforded the benefits or protections of those rules. Among other things, this means that we have a longer period of time to complete our business combination than do companies subject to Rule 419. Moreover, if our initial public offering were subject to Rule 419, that rule would prohibit the release of any interest earned on funds held in the trust account to us unless and until the funds in the trust account were released to us in connection with our completion of an initial business combination.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions pursuant to the tender offer rules, and if you or a “group” of stockholders are deemed to hold 15% or more of our Class A common stock, you will lose the ability to redeem all such shares in excess of 15% of our Class A common stock.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation provides that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to more than an aggregate of 15% of the shares sold in our initial public offering, which we refer to as the “Excess Shares.” However, our amended and restated certificate of incorporation does not restrict our stockholders’ ability to vote all of their shares (including Excess Shares) for or against our business combination. Your inability to redeem the Excess Shares will reduce your influence over our ability to complete our business combination and you could suffer a material loss on your investment in us if you sell Excess Shares in open market transactions. Additionally, you will not receive redemption distributions with respect to the Excess Shares if we complete our business combination. And as a result, you will continue to hold that number of shares exceeding 15% and, in order to dispose of such shares, would be required to sell your stock in open market transactions, potentially at a loss.

Because of our limited resources and the significant competition for business combination opportunities, it may be more difficult for us to complete our initial business combination. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on our redemption of our public shares, or less than such amount in certain circumstances, and our warrants will expire worthless.

We have encountered and expect to continue to encounter intense competition from other entities having a business objective similar to ours, including private investors (which may be individuals or investment partnerships), other blank check companies and other entities, domestic and international, competing for the types of businesses we intend to acquire. Many of these individuals and entities are well-established and have extensive experience in identifying and effecting, directly or indirectly, acquisitions of companies operating in or providing services to various industries. Many of these competitors possess greater technical, human and other resources or more local industry knowledge than we do and our financial resources are relatively limited when contrasted with those of many of these competitors. While we believe there are numerous target businesses we could potentially acquire with the net proceeds of our initial public offering and the sale of the private placement warrants, our ability to compete with respect to the acquisition of certain target businesses that are sizable is limited by our available financial resources. This inherent competitive limitation gives others an advantage in pursuing the acquisition of certain target businesses.

Furthermore, because we are obligated to pay cash for the shares of Class A common stock which our public stockholders redeem in connection with our initial business combination, target companies will be aware that this may reduce the resources available to us for our initial business combination. This may place us at a competitive disadvantage in successfully negotiating a business combination. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share, or less in certain circumstances, on the liquidation of our trust account and our warrants will expire worthless. In certain circumstances, our public stockholders may receive less than \$10.00 per share upon our liquidation.

If the net proceeds of our initial public offering and the sale of the private placement warrants not being held in the trust account are insufficient to allow us to operate until November 22, 2021, we may be unable to complete our initial business combination, in which case our public stockholders may only receive \$10.00 per share, or less than such amount in certain circumstances, and our warrants will expire worthless.

The funds available to us outside of the trust account may not be sufficient to allow us to operate until November 22, 2021, assuming that our initial business combination is not completed during that time. We believe that the funds available to us outside of the trust account (\$1,212,755) as of December 31, 2019, are sufficient to allow us to operate until November 22, 2021; however, we cannot assure you that our estimate is accurate. Of the funds available to us, we could use a portion of the funds available to us to pay fees to consultants to assist us with our search for a target business. We could also use a portion of the funds as a down payment or to fund a “no-shop” provision (a provision in letters of intent or merger agreements designed to keep target businesses from “shopping” around for transactions with other companies on terms more favorable to such target businesses) with respect to a particular proposed business combination, although we do not have any current intention to do so. If we entered into a letter of intent or merger agreement where we paid for the right to receive exclusivity from a target business and were subsequently required to forfeit such funds (whether as a result of our breach or otherwise), we might not have sufficient funds to continue searching for, or conduct due diligence with respect to, a target business. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share or less in certain circumstances on the liquidation of our trust account and our warrants will expire worthless. In certain circumstances, our public stockholders may receive less than \$10.00 per share upon our liquidation.

If the net proceeds of our initial public offering and the sale of the private placement warrants not being held in the trust account are insufficient, it could limit the amount available to fund our search for a target business or businesses and complete our initial business combination and we will depend on loans from our sponsor or management team to fund our search for a business combination, to pay our taxes and to complete our initial business combination. If we are unable to obtain these loans, we may be unable to complete our initial business combination.

Of the net proceeds of our initial public offering and the sale of the private placement warrants, only approximately \$1,213,000 (as of December 31, 2019) is be available to us outside the trust account to fund our working capital requirements. If we are required to seek additional capital, we would need to borrow funds from our sponsor, management team or other third parties to operate, or we may be forced to liquidate. None of our sponsor, members of our management team nor any of their affiliates is under any obligation to advance funds to us in such circumstances. Any such advances would be repaid only from funds held outside the trust account or from funds released to us upon completion of our initial business combination. We do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account. If we are unable to obtain these loans, we may be unable to complete our initial business combination. If we are unable to complete our initial business combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the trust account. Consequently, our public stockholders may only receive approximately \$10.00 per share on our redemption of our public shares, and our warrants will expire worthless. In certain circumstances, our public stockholders may receive less than \$10.00 per share on the redemption of their shares.

Subsequent to the completion of our initial business combination, we may be required to take write-downs or write-offs, restructuring and impairment or other charges that could have a significant negative effect on our financial condition, results of operations and our stock price, which could cause you to lose some or all of your investment.

Even if we conduct extensive due diligence on a target business with which we combine, we cannot assure you that this diligence will surface all material issues that may be present inside a particular target business, that it would be possible to uncover all material issues through a customary amount of due diligence, or that factors outside of the target business and outside of our control will not later arise. As a result of these factors, we may be forced to later write-down or write-off assets, restructure our operations, or incur impairment or other charges that could result in our reporting losses. Even if our due diligence successfully identifies certain risks, unexpected risks may arise and previously known risks may materialize in a manner not consistent with our preliminary risk analysis. Although these charges may be non-cash items and not have an immediate impact on our liquidity, the fact that we report charges of this nature could contribute to negative market perceptions about us or our securities. In addition, charges of this nature may cause us to violate net worth or other covenants to which we may be subject as a result of assuming pre-existing debt held by a target business or by virtue of our obtaining post-combination debt financing. Accordingly, any stockholders who choose to remain stockholders following the business combination could suffer a reduction in the value of their shares. Such stockholders are unlikely to have a remedy for such reduction in value.

If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share.

Our placing of funds in the trust account may not protect those funds from third-party claims against us. Although we seek to have all vendors, service providers, prospective target businesses or other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account for the benefit of our public stockholders, such parties may not execute such agreements, or even if they execute such agreements they may not be prevented from bringing claims against the trust account, including, but not limited to, fraudulent inducement, breach of fiduciary responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain advantage with respect to a claim against our assets, including the funds held in the trust account. If any third party refuses to execute an agreement waiving such claims to the monies held in the trust account, our management will perform an analysis of the alternatives available to it and will only enter into an agreement with a third party that has not executed a waiver if management believes that such third party's engagement would be significantly more beneficial to us than any alternative. Making such a request of potential target businesses may make our acquisition proposal less attractive to them and, to the extent prospective target businesses refuse to execute such a waiver, it may limit the field of potential target businesses that we might pursue. WithumSmith+Brown, PC our independent registered public accounting firm will not execute agreements with us waiving such claims to the monies held in the trust account.

Examples of possible instances where we may engage a third party that refuses to execute a waiver include the engagement of a third party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a waiver or in cases where management is unable to find a service provider willing to execute a waiver. In addition, there is no guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse against the trust account for any reason. Upon redemption of our public shares, if we are unable to complete our business combination within the prescribed timeframe, or upon the exercise of a redemption right in connection with our business combination, we will be required to provide for payment of claims of creditors that were not waived that may be brought against us within the 10 years following redemption. Accordingly, the per-share redemption amount received by public stockholders could be less than the \$10.00 per share initially held in the trust account, due to claims of such creditors. Our sponsor has agreed that it will be liable to us if and to the extent any claims by a vendor for services rendered or products sold to us, or a prospective target business with which we have discussed entering into a transaction agreement, reduce the amount of funds in the trust account to below (i) \$10.00 per public share or (ii) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account due to reductions in the value of the trust assets, in each case net of the interest which may be withdrawn to pay taxes. This liability will not apply with respect to any claims by a third party who executed a waiver of any and all rights to seek access to the trust account and except as to any claims under our indemnity of the underwriters of our initial public offering against certain liabilities, including liabilities under the Securities Act. Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, then our sponsor will not be responsible to the extent of any liability for such third party claims. We have not independently verified whether our sponsor has sufficient funds to satisfy its indemnity obligations and believe that our sponsor's only assets are securities of our company. We have not asked our sponsor to reserve for such indemnification obligations. Therefore, we cannot assure you that our sponsor would be able to satisfy those obligations. As a result, if any such claims were successfully made against the trust account, the funds available for our initial business combination and redemptions could be reduced to less than \$10.00 per public share. In such event, we may not be able to complete our initial business combination, and you would receive such lesser amount per share in connection with any redemption of your public shares. None of our officers will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

Our independent directors may decide not to enforce the indemnification obligations of our sponsor, resulting in a reduction in the amount of funds in the trust account available for distribution to our public stockholders.

In the event that the proceeds in the trust account are reduced below the lesser of (i) \$10.00 per public share or (ii) such lesser amount per share held in the trust account as of the date of the liquidation of the trust account due to reductions in the value of the trust assets, in each case net of the interest which may be withdrawn to pay taxes, and our sponsor asserts that it is unable to satisfy its obligations or that it has no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against our sponsor to enforce its indemnification obligations.

While we currently expect that our independent directors would take legal action on our behalf against our sponsor to enforce its indemnification obligations to us, it is possible that our independent directors in exercising their business judgment may choose not to do so if, for example, the cost of such legal action is deemed by the independent directors to be too high relative to the amount recoverable or if the independent directors determine that a favorable outcome is not likely. If our independent directors choose not to enforce these indemnification obligations, the amount of funds in the trust account available for distribution to our public stockholders may be reduced below \$10.00 per share.

If, after we distribute the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, a bankruptcy court may seek to recover such proceeds, and we and our board may be exposed to claims of punitive damages.

If, after we distribute the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, any distributions received by stockholders could be viewed under applicable debtor/creditor and/or bankruptcy laws as either a "preferential transfer" or a "fraudulent conveyance." As a result, a bankruptcy court could seek to recover all amounts received by our stockholders. In addition, our board of directors may be viewed as having breached its fiduciary duty to our creditors and/or having acted in bad faith, thereby exposing itself and us to claims of punitive damages, by paying public stockholders from the trust account prior to addressing the claims of creditors.

If, before distributing the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, the claims of creditors in such proceeding may have priority over the claims of our stockholders and the per-share amount that would otherwise be received by our stockholders in connection with our liquidation may be reduced.

If, before distributing the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, the proceeds held in the trust account could be subject to applicable bankruptcy law, and may be included in our bankruptcy estate and subject to the claims of third parties with priority over the claims of our stockholders. To the extent any bankruptcy claims deplete the trust account, the per-share amount that would otherwise be received by our stockholders in connection with our liquidation may be reduced.

If we are deemed to be an investment company under the Investment Company Act, we may be required to institute burdensome compliance requirements and our activities may be restricted, which may make it difficult for us to complete our business combination.

If we are deemed to be an investment company under the Investment Company Act, our activities may be restricted, including:

- restrictions on the nature of our investments; and
- restrictions on the issuance of securities, each of which may make it difficult for us to complete our business combination.

In addition, we may have imposed upon us burdensome requirements, including:

- registration as an investment company;
- adoption of a specific form of corporate structure; and
- reporting, record keeping, voting, proxy and disclosure requirements and other rules and regulations.

In order not to be regulated as an investment company under the Investment Company Act, unless we can qualify for an exclusion, we must ensure that we are engaged primarily in a business other than investing, reinvesting or trading of securities and that our activities do not include investing, reinvesting, owning, holding or trading “investment securities” constituting more than 40% of our total assets (exclusive of U.S. government securities and cash items) on an unconsolidated basis. Our business will be to identify and complete a business combination and thereafter to operate the post-transaction business or assets for the long term. We do not plan to buy businesses or assets with a view to resale or profit from their resale. We do not plan to buy unrelated businesses or assets or to be a passive investor.

We do not believe that our principal activities subject us to the Investment Company Act. To this end, the proceeds held in the trust account may only be invested in United States “government securities” within the meaning of Section 2(a)(16) of the Investment Company Act having a maturity of 180 days or less or in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act which invest only in direct U.S. government treasury obligations. Pursuant to the trust agreement, the trustee is not permitted to invest in other securities or assets. By restricting the investment of the proceeds to these instruments, and by having a business plan targeted at acquiring and growing businesses for the long term (rather than on buying and selling businesses in the manner of a merchant bank or private equity fund), we intend to avoid being deemed an “investment company” within the meaning of the Investment Company Act. The trust account is intended as a holding place for funds pending the earliest to occur of: (i) the completion of our primary business objective, which is a business combination; (ii) the redemption of any public shares properly submitted in connection with a stockholder vote to amend our amended and restated certificate of incorporation to modify (A) the substance or timing of our obligation to allow redemption in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination by November 22, 2021; or (B) with respect to any other provision relating to stockholders’ rights or pre-initial business combination activity; or (iii) absent a business combination, our return of the funds held in the trust account to our public stockholders as part of our redemption of the public shares. If we do not invest the proceeds as discussed above, we may be deemed to be subject to the Investment Company Act. If we were deemed to be subject to the Investment Company Act, compliance with these additional regulatory burdens would require additional expenses for which we have not allotted funds and may hinder our ability to complete a business combination. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on the liquidation of our trust account and our warrants will expire worthless. In certain circumstances, our public stockholders may receive less than \$10.00 per share on the redemption of their shares.

Changes in laws or regulations, or a failure to comply with any laws and regulations, may adversely affect our business, investments and results of operations.

We are subject to laws and regulations enacted by national, regional and local governments. In particular, we are required to comply with certain SEC and other legal requirements. Compliance with, and monitoring of, applicable laws and regulations may be difficult, time consuming and costly. Those laws and regulations and their interpretation and application may also change from time to time and those changes could have a material adverse effect on our business, investments and results of operations. In addition, a failure to comply with applicable laws or regulations, as interpreted and applied, could have a material adverse effect on our business, investments and results of operations.

Our stockholders may be held liable for claims by third parties against us to the extent of distributions received by them upon redemption of their shares.

Under the DGCL, stockholders may be held liable for claims by third parties against a corporation to the extent of distributions received by them in a dissolution. The pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our initial business combination by November 22, 2021 may be considered a liquidating distribution under Delaware law. If a corporation complies with certain procedures set forth in Section 280 of the DGCL intended to ensure that it makes reasonable provision for all claims against it, including a 60-day notice period during which any third-party claims can be brought against the corporation, a 90-day period during which the corporation may reject any claims brought, and an additional 150-day waiting period before any liquidating distributions are made to stockholders, any liability of stockholders with respect to a liquidating distribution is limited to the lesser of such stockholder's pro rata share of the claim or the amount distributed to the stockholder, and any liability of the stockholder would be barred after the third anniversary of the dissolution. However, it is our intention to redeem our public shares as soon as reasonably possible following November 22, 2021 in the event we do not complete our business combination and, therefore, we do not intend to comply with the foregoing procedures.

Because we will not be complying with Section 280, Section 281(b) of the DGCL requires us to adopt a plan, based on facts known to us at such time that will provide for our payment of all existing and pending claims or claims that may be potentially brought against us within the 10 years following our dissolution. However, because we are a blank check company, rather than an operating company, and our operations will be limited to searching for prospective target businesses to acquire, the only likely claims to arise would be from our vendors (such as lawyers, investment bankers and auditors) or prospective target businesses. If our plan of distribution complies with Section 281(b) of the DGCL, any liability of stockholders with respect to a liquidating distribution is limited to the lesser of such stockholder's pro rata share of the claim or the amount distributed to the stockholder, and any liability of the stockholder would likely be barred after the third anniversary of the dissolution. We cannot assure you that we will properly assess all claims that may be potentially brought against us. As such, our stockholders could potentially be liable for any claims to the extent of distributions received by them (but no more) and any liability of our stockholders may extend beyond the third anniversary of such date. Furthermore, if the pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our initial business combination by November 22, 2021 is not considered a liquidating distribution under Delaware law and such redemption distribution is deemed to be unlawful, then pursuant to Section 174 of the DGCL, the statute of limitations for claims of creditors could then be six years after the unlawful redemption distribution, instead of three years, as in the case of a liquidating distribution.

We may not hold an annual meeting of stockholders until after the consummation of our initial business combination, which could delay the opportunity for our stockholders to elect directors.

In accordance with NASDAQ corporate governance requirements, we are not required to hold an annual meeting until no later than one year after our first fiscal year end following our listing on NASDAQ. Under Section 211(b) of the DGCL, we are, however, required to hold an annual meeting of stockholders for the purposes of electing directors in accordance with our bylaws unless such election is made by written consent in lieu of such a meeting. We may not hold an annual meeting of stockholders to elect new directors prior to the consummation of our initial business combination, and thus we may not be in compliance with Section 211(b) of the DGCL, which requires an annual meeting. Therefore, if our stockholders want us to hold an annual meeting prior to the consummation of our initial business combination, they may attempt to force us to hold one by submitting an application to the Delaware Court of Chancery in accordance with Section 211(c) of the DGCL.

We have not registered the shares of Class A common stock issuable upon exercise of the public warrants under the Securities Act or any state securities laws, and such registration may not be in place when an investor desires to exercise warrants, thus precluding such investor from being able to exercise its warrants except on a cashless basis and potentially causing such warrants to expire worthless.

We have not registered the shares of Class A common stock issuable upon exercise of the warrants issued in our initial public offering under the Securities Act or any state securities laws. However, under the terms of the warrant agreement, we have agreed that as soon as practicable, but in no event later than 15 business days after the closing of our initial business combination, we will use our reasonable best efforts to file, and within 60 business days following our initial business combination to have declared effective, a registration statement under the Securities Act covering such shares and maintain a current prospectus relating to the Class A common stock issuable upon exercise of the warrants, until the expiration of the warrants in accordance with the provisions of the warrant agreement. We cannot assure you that we will be able to do so if, for example, any facts or events arise which represent a fundamental change in the information set forth in the registration statement or prospectus, the financial statements contained or incorporated by reference therein are not current or correct or the SEC issues a stop order. If the shares issuable upon exercise of the warrants issued in our initial public offering are not registered under the Securities Act, we will be required to permit holders to exercise their warrants on a cashless basis. However, no warrant will be exercisable for cash or on a cashless basis, and we will not be obligated to issue any shares to holders seeking to exercise their warrants, unless the issuance of the shares upon such exercise is registered or qualified under the securities laws of the state of the exercising holder, or an exemption from registration is available. Notwithstanding the above, if our Class A common stock is at the time of any exercise of a warrant not listed on a national securities exchange such that it satisfies the definition of a "covered security" under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of public warrants who exercise their warrants to do so on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act and, in the event we so elect, we will not be required to file or maintain in effect a registration statement, but we will be required to use our best efforts to register or qualify the shares issued in our initial public offering under applicable blue sky laws to the extent an exemption is not available. In no event will we be required to net cash settle any warrant. If the issuance of the shares upon exercise of the warrants is not so registered or qualified or exempt from registration or qualification, the holder of such warrant shall not be entitled to exercise such warrant and such warrant may have no value and expire worthless. In such event, holders who acquired their warrants as part of a purchase of units will have paid the full unit purchase price solely for the shares of Class A common stock included in the units. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying shares of Class A common stock for sale under all applicable state securities laws. We will use our best efforts to register or qualify such shares of Class A common stock under the blue sky laws of the state of residence in those states in which the warrants were offered by us in our initial public offering.

The grant of registration rights to our initial stockholders may make it more difficult to complete our initial business combination, and the future exercise of such rights may adversely affect the market price of our Class A common stock.

Pursuant to an agreement entered into concurrently with the issuance and sale of the securities in our initial public offering, our initial stockholders and their permitted transferees can demand that we register their founder shares, after those shares convert to our Class A common stock at the closing of our initial business combination. In addition, holders of our private placement warrants and their permitted transferees can demand that we register the private placement warrants and the Class A common stock issuable upon exercise of the private placement warrants, and holders of warrants that may be issued upon conversion of working capital loans may demand that we register such warrants or the Class A common stock issuable upon exercise of such warrants. We will bear the cost of registering these securities. The registration and availability of such a significant number of securities for trading in the public market may have an adverse effect on the market price of our Class A common stock. In addition, the existence of the registration rights may make our initial business combination more costly or difficult to conclude. This is because the shareholders of the target business may increase the equity stake they seek in the combined entity or ask for more cash consideration to offset the negative impact on the market price of our Class A common stock that is expected when the common stock owned by our initial stockholders, holders of our private placement warrants or holders of our working capital loans or their respective permitted transferees are registered.

Because we are not limited to a particular industry, sector or any specific target businesses with which to pursue our initial business combination, you will be unable to ascertain the merits or risks of any particular target business' operations.

Although we focus our search for a target business in the healthcare industry, we may seek to complete a business combination with an operating company in any industry or sector. However, we will not, under our amended and restated certificate of incorporation, be permitted to complete our business combination with another blank check company or similar company with nominal operations. There is no basis to evaluate the possible merits or risks of any particular target business's operations, results of operations, cash flows, liquidity, financial condition or prospects. To the extent we complete our business combination, we may be affected by numerous risks inherent in the business operations with which we combine. For example, if we combine with a financially unstable business or an entity lacking an established record of revenues or earnings, we may be affected by the risks inherent in the business and operations of a financially unstable or a development stage entity. Although our officers and directors will endeavor to evaluate the risks inherent in a particular target business, we cannot assure you that we will properly ascertain or assess all the significant risk factors or that we will have adequate time to complete due diligence. Furthermore, some of these risks may be outside of our control and leave us with no ability to control or reduce the chances that those risks will adversely impact a target business. We also cannot assure you that an investment in our units will ultimately prove to be more favorable to investors than a direct investment, if such opportunity were available, in a business combination target. Accordingly, any stockholders who choose to remain stockholders following the business combination could suffer a reduction in the value of their shares. Such stockholders are unlikely to have a remedy for such reduction in value.

Past performance by our management team, our advisors and our Founders may not be indicative of future performance of an investment in us.

Information regarding performance by, or businesses associated with our management team and our Founders and their affiliates is presented for informational purposes only. Past performance by our management team and our Founders is not a guarantee either (i) of success with respect to any business combination we may consummate or (ii) that we will be able to locate a suitable candidate for our initial business combination. Our officers, directors and advisors have not had management experience with special purpose acquisition corporations in the past. You should not rely on the historical record of our management team's, our advisors' and our Founders' respective performance as indicative of our future performance of an investment in us or the returns we will, or are likely to, generate going forward. Furthermore, an investment in us is not an investment in either of our Founders.

We may seek acquisition opportunities in industries or sectors which may or may not be outside of our management's area of expertise.

We will consider a business combination outside of our management's area of expertise if a business combination candidate is presented to us and we determine that such candidate offers an attractive acquisition opportunity for our company. Although our management will endeavor to evaluate the risks inherent in any particular business combination candidate, we cannot assure you that we will adequately ascertain or assess all the significant risk factors. We also cannot assure you that an investment in our securities will not ultimately prove to be less favorable to investors in our initial public offering than a direct investment, if an opportunity were available, in a business combination candidate. In the event we elect to pursue an acquisition outside of the areas of our management's expertise, our management's expertise may not be directly applicable to its evaluation or operation, and the information contained herein regarding the areas of our management's expertise would not be relevant to an understanding of the business that we elect to acquire. As a result, our management may not be able to adequately ascertain or assess all the significant risk factors. Accordingly, any stockholders who choose to remain stockholders following our business combination could suffer a reduction in the value of their shares. Such stockholders are unlikely to have a remedy for such reduction in value.

Although we have identified general criteria and guidelines that we believe are important in evaluating prospective target businesses, we may enter into our initial business combination with a target that does not meet such criteria and guidelines, and as a result, the target business with which we enter into our initial business combination may not have attributes entirely consistent with our general criteria and guidelines.

Although we have identified general criteria and guidelines for evaluating prospective target businesses, it is possible that a target business with which we enter into our initial business combination will not have all of these positive attributes. If we complete our initial business combination with a target that does not meet some or all of these criteria and guidelines, such combination may not be as successful as a combination with a business that does meet all of our general criteria and guidelines. In addition, if we announce a prospective business combination with a target that does not meet our general criteria and guidelines, a greater number of stockholders may exercise their redemption rights, which may make it difficult for us to meet any closing condition with a target business that requires us to have a minimum net worth or a certain amount of cash. In addition, if stockholder approval of the transaction is required by law, or we decide to obtain stockholder approval for business or other legal reasons, it may be more difficult for us to attain stockholder approval of our initial business combination if the target business does not meet our general criteria and guidelines. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share, or less in certain circumstances, on the liquidation of our trust account and our warrants will expire worthless. In certain circumstances, our public stockholders may receive less than \$10.00 per share on the redemption of their shares.

We may seek acquisition opportunities with an early stage company, a financially unstable business or an entity lacking an established record of revenue or earnings, which could subject us to volatile revenues or earnings or difficulty in retaining key personnel.

To the extent we complete our initial business combination with an early stage company such as a pre-revenue entity with a limited operating history, a financially unstable business, or an entity lacking an established record of revenues or earnings, we may be affected by numerous risks inherent in the operations of the business with which we combine. These risks include investing in a business without a proven business model and with limited historical financial data, a lack of revenues or earnings and difficulties in obtaining and retaining key personnel. Although our officers and directors will endeavor to evaluate the risks inherent in a particular target business, we may not be able to properly ascertain or assess all the significant risk factors and we may not have adequate time to complete due diligence. Furthermore, some of these risks may be outside of our control and leave us with no ability to control or reduce the chances that those risks will adversely impact a target business.

We are not required to obtain an opinion from an independent investment banking firm or from an independent accounting firm, and consequently, you may have no assurance from an independent source that the price we are paying for the business is fair to our company from a financial point of view.

Unless we complete our business combination with an affiliated entity or our board cannot independently determine the fair market value of the target business or businesses, we are not required to obtain an opinion from an independent investment banking firm that is a member of FINRA or from an independent accounting firm that the price we are paying is fair to our company from a financial point of view. If no opinion is obtained, our stockholders will be relying on the judgment of our board of directors, who will determine fair market value based on standards generally accepted by the financial community. Such standards used will be disclosed in our proxy solicitation or tender offer materials, as applicable, related to our initial business combination.

We may issue additional common stock or preferred stock to complete our initial business combination or under an employee incentive plan after completion of our initial business combination. We may also issue shares of Class A common stock upon the conversion of the Class B common stock at a ratio greater than one-to-one at the closing of our initial business combination as a result of the anti-dilution provisions contained in our amended and restated certificate of incorporation. Any such issuance would dilute the interest of our stockholders and likely present other risks.

Our amended and restated certificate of incorporation will authorize the issuance of up to 100,000,000 shares of Class A common stock, par value \$0.0001 per share, 10,000,000 shares of Class B common stock, par value \$0.0001 per share, and 1,000,000 shares of preferred stock, par value \$0.0001 per share. There are currently 90,000,000 and 7,500,000 authorized but unissued shares of Class A common stock and Class B common stock, respectively, available for issuance, which amount does not take into account the shares of Class A common stock reserved for issuance upon exercise of any outstanding warrants or the shares of Class A common stock issuable upon conversion of Class B common stock. There is currently no share of preferred stock issued and outstanding. Shares of Class B common stock are convertible into shares of our Class A common stock initially at a one-for-one ratio but subject to adjustment as set forth herein, including in certain circumstances in which we issue Class A common stock or equity-linked securities related to our initial business combination.

We may issue a substantial number of additional shares of common or preferred stock to complete our initial business combination (including pursuant to a specified future issuance) or under an employee incentive plan after completion of our initial business combination (although our amended and restated certificate of incorporation provides that we may not issue securities that can vote with common stockholders on matters related to our pre-initial business combination activity). We may also issue shares of Class A common stock upon conversion of the Class B common stock at a ratio greater than one-to-one at the closing of our initial business combination as a result of the anti-dilution provisions contained in our amended and restated certificate of incorporation. However, our amended and restated certificate of incorporation will provide, among other things, that prior to our initial business combination, we may not issue additional shares of capital stock that would entitle the holders thereof to (i) receive funds from the trust account or (ii) vote on any initial business combination. The issuance of additional shares of common or preferred stock:

- may significantly dilute the equity interest of investors;
- may subordinate the rights of holders of common stock if preferred stock is issued with rights senior to those afforded our common stock;
- could cause a change of control if a substantial number of shares of our common stock are issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors; and
- may adversely affect prevailing market prices for our units, Class A common stock and/or warrants.

Resources could be wasted in researching acquisitions that are not completed, which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share, or less than such amount in certain circumstances, on the liquidation of our trust account and our warrants will expire worthless.

We anticipate that investigation of each specific target business and the negotiation, drafting and execution of relevant agreements, disclosure documents and other instruments may require substantial management time and attention and substantial costs for accountants, attorneys and others. If we decide not to complete a specific initial business combination, the costs incurred up to that point for the proposed transaction likely would not be recoverable. Furthermore, if we reach an agreement relating to a specific target business, we may fail to complete our initial business combination for any number of reasons including those beyond our control. Any such event will result in a loss to us of the related costs incurred which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on the liquidation of our trust account and our warrants will expire worthless. In certain circumstances, our public stockholders may receive less than \$10.00 per share on the redemption of their shares.

Our ability to successfully complete our initial business combination and to be successful thereafter will be totally dependent upon the efforts of members of our management team, some of whom may join us following our initial business combination. The loss of such people could negatively impact the operations and profitability of our post-combination business.

Our ability to successfully complete our business combination is dependent upon the efforts of members of our management team. The role of members of our management team in the target business, however, cannot presently be ascertained. Although some members of our management team may remain with the target business in senior management or advisory positions following our business combination, it is likely that some or all of the management of the target business will remain in place. While we intend to closely scrutinize any individuals we engage after our initial business combination, we cannot assure you that our assessment of these individuals will prove to be correct. These individuals may be unfamiliar with the requirements of operating a company regulated by the SEC, which could cause us to have to expend time and resources helping them become familiar with such requirements.

In addition, the officers and directors of an acquisition candidate may resign upon completion of our initial business combination. The departure of a business combination target's key personnel could negatively impact the operations and profitability of our post-combination business. The role of an acquisition candidate's key personnel upon the completion of our initial business combination cannot be ascertained at this time. Although we contemplate that certain members of an acquisition candidate's management team will remain associated with the acquisition candidate following our initial business combination, it is possible that members of the management of an acquisition candidate will not wish to remain in place. The loss of key personnel could negatively impact the operations and profitability of our post-combination business.

Members of our management team may negotiate employment or consulting agreements with a target business in connection with a particular business combination. These agreements may provide for them to receive compensation following our business combination and as a result, may cause them to have conflicts of interest in determining whether a particular business combination is the most advantageous.

Members of our management team may be able to remain with the company after the completion of our business combination only if they are able to negotiate employment or consulting agreements in connection with the business combination. Such negotiations would take place simultaneously with the negotiation of the business combination and could provide for such individuals to receive compensation in the form of cash payments and/or our securities for services they would render to us after the completion of the business combination. The personal and financial interests of such individuals may influence their motivation in identifying and selecting a target business. However, we believe the ability of such individuals to remain with us after the completion of our business combination will not be the determining factor in our decision as to whether or not we will proceed with any potential business combination. There is no certainty, however, that any members of our management team will remain with us after the completion of our business combination. We cannot assure you that any members of our management team will remain in senior management or advisory positions with us. The determination as to whether any members of our management team will remain with us will be made at the time of our initial business combination.

We may have a limited ability to assess the management of a prospective target business and, as a result, may complete our initial business combination with a target business whose management may not have the skills, qualifications or abilities to manage a public company, which could, in turn, negatively impact the value of our stockholders' investment in us.

When evaluating the desirability of effecting our initial business combination with a prospective target business, our ability to assess the target business's management may be limited due to a lack of time, resources or information. Our assessment of the capabilities of the target's management, therefore, may prove to be incorrect and such management may lack the skills, qualifications or abilities we suspected. Should the target's management not possess the skills, qualifications or abilities necessary to manage a public company, the operations and profitability of the post-combination business may be negatively impacted. Accordingly, any stockholders who choose to remain stockholders following the business combination could suffer a reduction in the value of their shares. Such stockholders are unlikely to have a remedy for such reduction in value.

The officers and directors of an acquisition candidate may resign upon completion of our initial business combination. The departure of a business combination target's key personnel could negatively impact the operations and profitability of our post-combination business. The role of an acquisition candidate's key personnel upon the completion of our initial business combination cannot be ascertained at this time. Although we contemplate that certain members of an acquisition candidate's management team will remain associated with the acquisition candidate following our initial business combination, it is possible that members of the management of an acquisition candidate will not wish to remain in place.

Our officers and directors may allocate their time to other businesses, thereby causing conflicts of interest in their determination as to how much time to devote to our affairs. This conflict of interest could have a negative impact on our ability to complete our initial business combination.

Our Founders, including certain of our officers and directors, have fiduciary responsibility to dedicate substantially all their business time to our Founders' respective affairs and their respective portfolio companies. However, this responsibility does not require any of our officers or directors to commit his or her full time to our affairs in particular, which may result in a conflict of interest in allocating their time between our operations and our search for a business combination and their other businesses, including other business endeavors for which he or she may be entitled to substantial compensation. We do not intend to have any full-time employees prior to the completion of our initial business combination. In addition, each of our officers and certain of our directors are employed by or affiliated with our Founders, which makes investments in securities or other interests of or relating to companies in industries we may target for our initial business combination. Our independent directors also serve as officers or board members for other entities. If our officers' and directors' other business affairs require them to devote substantial amounts of time to such affairs in excess of their current commitment levels, it could limit their ability to devote time to our affairs, which may have a negative impact on our ability to complete our initial business combination.

Certain of our officers and directors are now, and all of them may in the future become, affiliated with entities engaged in business activities similar to those intended to be conducted by us and, accordingly, may have conflicts of interest in allocating their time and determining to which entity a particular business opportunity should be presented.

Until we consummate our initial business combination, we will continue to engage in the business of identifying and combining with one or more businesses. Our officers and directors are, and may in the future become, affiliated with entities (such as operating companies or investment vehicles) that are engaged in a similar business.

Our officers and directors also may become aware of business opportunities which may be appropriate for presentation to us and the other entities in the future to which they owe certain fiduciary or contractual duties, including our Founders. Accordingly, they may have conflicts of interest in determining to which entity a particular business opportunity should be presented. These conflicts may not be resolved in our favor and a potential target business may be presented to another entity prior to its presentation to us. Our amended and restated certificate of incorporation provides that we renounce our interest in any corporate opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of our company and such opportunity is one we are legally and contractually permitted to undertake and would otherwise be reasonable for us to pursue.

Our Founders, sponsor, officers, directors, security holders and their respective affiliates may have competitive pecuniary interests that conflict with our interests.

We have not adopted a policy that expressly prohibits our directors, officers, security holders or affiliates from having a direct or indirect pecuniary or financial interest in any investment to be acquired or disposed of by us or in any transaction to which we are a party or have an interest. In fact (subject to certain approvals and consents) we may enter into a business combination with a target business that is affiliated with our Founders, sponsor, our directors or officers, or their respective affiliates, although we do not intend to do so, or we may acquire a target business through an Affiliated Joint Acquisition with one or more affiliates of our Founders, sponsor or management team. We do not have a policy that expressly prohibits any such persons from engaging for their own account in business activities of the types conducted by us. Accordingly, such persons or entities may have a conflict between their interests and ours.

We may engage in a business combination with one or more target businesses that have relationships with entities that may be affiliated with our Founders, sponsor, directors or existing holders which may raise potential conflicts of interest.

In light of the involvement of our officers and directors with other entities, we may decide to acquire one or more businesses affiliated with our Founders, sponsor, officers or directors. Our directors also serve as officers and board members for other entities. Such entities may compete with us for business combination opportunities. Despite our agreement to obtain an opinion from an independent investment banking firm that is a member of FINRA, or from an independent accounting firm, regarding the fairness to our company from a financial point of view of a business combination with one or more domestic or international businesses affiliated with our Founders, sponsor, officers, directors or existing holders, potential conflicts of interest still may exist and, as a result, the terms of the business combination may not be as advantageous to our public stockholders as they would be absent any conflicts of interest.

Moreover, we may, at our option, pursue an Affiliated Joint Acquisition opportunity with an entity affiliated with our Founders, sponsor or management team. Any such parties may co-invest with us in the target business at the time of our initial business combination, or we could raise additional proceeds to complete the acquisition by making a specified future issuance to any such parties.

Since our sponsor, officers and directors will lose their entire investment in us if our business combination is not completed, a conflict of interest may arise in determining whether a particular business combination target is appropriate for our initial business combination.

In August 2019, our sponsor acquired 2,875,000 founder shares for an aggregate purchase price of \$25,000. Prior to the initial investment in the company of \$25,000 by our sponsor, the company had no assets, tangible or intangible. Because the underwriters of our initial public offering did not exercise their over-allotment option at all, 375,000 of such shares were forfeited in January 2020. The founder shares will be worthless if we do not complete an initial business combination. In addition, our sponsor has purchased an aggregate of 4,000,000 private placement warrants, each exercisable for one share of our Class A common stock at \$11.50 per share, for a purchase price of approximately \$4,000,000, or \$1.00 per whole warrant, that will also be worthless if we do not complete a business combination. Holders of founder shares have agreed (A) to vote any shares owned by them in favor of any proposed business combination and (B) not to redeem any founder shares in connection with a stockholder vote to approve a proposed initial business combination. In addition, we may obtain loans from our sponsor, affiliates of our sponsor or an officer or director. The personal and financial interests of our officers and directors may influence their motivation in identifying and selecting a target business combination, completing an initial business combination and influencing the operation of the business following the initial business combination.

We may issue notes or other debt securities, or otherwise incur substantial debt, to complete a business combination, which may adversely affect our leverage and financial condition and thus negatively impact the value of our stockholders' investment in us.

Although we have no commitments as of the date of this Report to issue any notes or other debt securities, or to otherwise incur outstanding debt, we may choose to incur substantial debt to complete our business combination. We have agreed that we will not incur any indebtedness unless we have obtained from the lender a waiver of any right, title, interest or claim of any kind in or to the monies held in the trust account. As such, no issuance of debt will affect the per-share amount available for redemption from the trust account. Nevertheless, the incurrence of debt could have a variety of negative effects, including:

- default and foreclosure on our assets if our operating revenues after an initial business combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt security is payable on demand;

- our inability to obtain necessary additional financing if the debt security contains covenants restricting our ability to obtain such financing while the debt security is outstanding;
- our inability to pay dividends on our common stock;
- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our common stock if declared, our ability to pay expenses, make capital expenditures and acquisitions, and fund other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation;
- limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, and execution of our strategy; and
- other disadvantages compared to our competitors who have less debt.

We may only be able to complete one business combination with the proceeds of our initial public offering and the sale of the private placement warrants, which will cause us to be solely dependent on a single business which may have a limited number of products or services. This lack of diversification may negatively impact our operations and profitability.

Of the net proceeds from our initial public offering and the sale of the private placement warrants, up to \$100,154,572 is available to complete our business combination and pay related fees and expenses (which includes \$3,500,000 for the payment of deferred underwriting commissions).

We may complete our business combination with a single target business or multiple target businesses simultaneously or within a short period of time. However, we may not be able to complete our business combination with more than one target business because of various factors, including the existence of complex accounting issues and the requirement that we prepare and file pro forma financial statements with the SEC that present operating results and the financial condition of several target businesses as if they had been operated on a combined basis. By completing our initial business combination with only a single entity, our lack of diversification may subject us to numerous economic, competitive and regulatory developments. Further, we would not be able to diversify our operations or benefit from the possible spreading of risks or offsetting of losses, unlike other entities which may have the resources to complete several business combinations in different industries or different areas of a single industry. In addition, we intend to focus our search for an initial business combination in a single industry. Accordingly, the prospects for our success may be:

- solely dependent upon the performance of a single business, property or asset, or
- dependent upon the development or market acceptance of a single or limited number of products, processes or services.

This lack of diversification may subject us to numerous economic, competitive and regulatory developments, any or all of which may have a substantial adverse impact upon the particular industry in which we may operate subsequent to our business combination.

We may attempt to simultaneously complete business combinations with multiple prospective targets, which may hinder our ability to complete our business combination and give rise to increased costs and risks that could negatively impact our operations and profitability.

If we determine to simultaneously acquire several businesses that are owned by different sellers, we will need for each of such sellers to agree that our purchase of its business is contingent on the simultaneous closings of the other business combinations, which may make it more difficult for us, and delay our ability, to complete our initial business combination. With multiple business combinations, we could also face additional risks, including additional burdens and costs with respect to possible multiple negotiations and due diligence investigations (if there are multiple sellers) and the additional risks associated with the subsequent assimilation of the operations and services or products of the acquired companies in a single operating business. If we are unable to adequately address these risks, it could negatively impact our profitability and results of operations.

We may attempt to complete our initial business combination with a private company about which little information is available, which may result in a business combination with a company that is not as profitable as we suspected, if at all.

In pursuing our acquisition strategy, we may seek to complete our initial business combination with a privately held company. Very little public information generally exists about private companies, and we could be required to make our decision on whether to pursue a potential initial business combination on the basis of limited information, which may result in a business combination with a company that is not as profitable as we suspected, if at all.

Our management may not be able to maintain control of a target business after our initial business combination. We cannot provide assurance that, upon loss of control of a target business, new management will possess the skills, qualifications or abilities necessary to profitably operate such business.

We may structure a business combination so that the post-transaction company in which our public stockholders own shares will own less than 100% of the equity interests or assets of a target business, but we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires an interest in the target sufficient for the post-transaction company not to be required to register as an investment company under the Investment Company Act. We will not consider any transaction that does not meet such criteria. Even if the post-transaction company owns 50% or more of the voting securities of the target, our stockholders prior to the business combination may collectively own a minority interest in the post business combination company, depending on valuations ascribed to the target and us in the business combination transaction. For example, we could pursue a transaction in which we issue a substantial number of new shares of Class A common stock in exchange for all of the outstanding capital stock of a target. In this case, we would acquire a 100% interest in the target. However, as a result of the issuance of a substantial number of new shares of common stock, our stockholders immediately prior to such transaction could own less than a majority of our outstanding shares of common stock subsequent to such transaction. In addition, other minority stockholders may subsequently combine their holdings resulting in a single person or group obtaining a larger share of the company's stock than we initially acquired. Accordingly, this may make it more likely that our management will not be able to maintain our control of the target business. We cannot provide assurance that, upon loss of control of a target business, new management will possess the skills, qualifications or abilities necessary to profitably operate such business.

We do not have a specified maximum redemption threshold. The absence of such a redemption threshold may make it possible for us to complete a business combination with which a substantial majority of our stockholders do not agree.

Our amended and restated certificate of incorporation does not provide a specified maximum redemption threshold, except that we will only redeem our public shares so long as (after such redemption) our net tangible assets will be at least \$5,000,001 either immediately prior to or upon consummation of our initial business combination and after payment of underwriters' fees and commissions (such that we are not subject to the SEC's "penny stock" rules). As a result, we may be able to complete our business combination even if a substantial majority of our public stockholders do not agree with the transaction and have redeemed their shares or, if we seek stockholder approval of our initial business combination and do not conduct redemptions in connection with our business combination pursuant to the tender offer rules, have entered into privately negotiated agreements to sell their shares to our sponsor, officers, directors, advisors or their affiliates. In the event the aggregate cash consideration we would be required to pay for all shares of Class A common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination or redeem any shares, all shares of Class A common stock submitted for redemption will be returned to the holders thereof, and we instead may search for an alternate business combination.

The exercise price for the public warrants is higher than in some similar blank check company offerings in the past, and, accordingly, the warrants are more likely to expire worthless.

The exercise price of the public warrants is higher than some similar blank check companies in the past. Historically, the exercise price of a warrant was generally a fraction of the purchase price of the units in the initial public offering. The exercise price for our public warrants is \$11.50 per share. As a result, the warrants are less likely to ever be in the money and more likely to expire worthless.

In order to complete our initial business combination, we may seek to amend our amended and restated certificate of incorporation or other governing instruments, including our warrant agreement, in a manner that will make it easier for us to complete our initial business combination but that our stockholders or warrant holders may not support.

In order to complete a business combination, blank check companies have, in the recent past, amended various provisions of their charters and governing instruments, including their warrant agreement. For example, blank check companies have amended the definition of business combination, increased redemption thresholds, changed industry focus and, with respect to their warrants, amended their warrant agreements to require the warrants to be exchanged for cash and/or other securities. We cannot assure you that we will not seek to amend our charter or other governing instruments or change our industry focus in order to complete our initial business combination.

The provisions of our amended and restated certificate of incorporation that relate to our pre-business combination activity (and corresponding provisions of the agreement governing the release of funds from our trust account) may be amended with the approval of holders of 65% of our common stock, which is a lower amendment threshold than that of some other blank check companies. It may be easier for us, therefore, to amend our amended and restated certificate of incorporation and the trust agreement to facilitate the completion of an initial business combination that some of our stockholders may not support.

In those companies, amendment of these provisions requires approval by between 90% and 100% of the company's public stockholders. Our amended and restated certificate of incorporation provides that any provisions related to pre-business combination activity (including the requirement to deposit proceeds of our initial public offering and the private placement of warrants into the trust account and not release such amounts except in specified circumstances, and to provide redemption rights to public stockholders as described herein) may be amended if approved by holders of 65% of our common stock entitled to vote thereon, and corresponding provisions of the trust agreement governing the release of funds from our trust account may be amended if approved by holders of 65% of our common stock entitled to vote thereon. In all other instances, our amended and restated certificate of incorporation may be amended by holders of a majority of our outstanding common stock entitled to vote thereon, subject to applicable provisions of the DGCL or applicable stock exchange rules. We may not issue additional securities that can vote on amendments to our amended and restated certificate of incorporation or in our initial business combination. Our initial stockholders, who collectively beneficially own 20% of our common stock, will participate in any vote to amend our amended and restated certificate of incorporation and/or trust agreement and will have the discretion to vote in any manner they choose. As a result, we may be able to amend the provisions of our amended and restated certificate of incorporation which govern our pre-business combination behavior more easily than some other blank check companies, and this may increase our ability to complete a business combination with which you do not agree. Our stockholders may pursue remedies against us for any breach of our amended and restated certificate of incorporation.

Our sponsor, officers and directors have agreed, pursuant to a letter agreement with us, that they will not propose any amendment to our amended and restated certificate of incorporation (i) that would modify the substance or timing of our obligation to allow redemption in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination by November 22, 2021, or (ii) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity, unless we provide our public stockholders with the opportunity to redeem their shares of Class A common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable), divided by the number of then outstanding public shares. These agreements are contained in a letter agreement that we have entered into with our sponsor, officers and directors. Our stockholders are not parties to, or third-party beneficiaries of, these agreements and, as a result, will not have the ability to pursue remedies against our sponsor, officers or directors for any breach of these agreements. As a result, in the event of a breach, our stockholders would need to pursue a stockholder derivative action, subject to applicable law.

We may be unable to obtain additional financing to complete our initial business combination or to fund the operations and growth of a target business, which could compel us to restructure or abandon a particular business combination.

Although we believe that the net proceeds of our initial public offering and the sale of the private placement warrants will be sufficient to allow us to complete our initial business combination, because we have not yet selected any prospective target business we cannot ascertain the capital requirements for any particular transaction. If the net proceeds of our initial public offering and the sale of the private placement warrants prove to be insufficient, either because of the size of our initial business combination, the depletion of the available net proceeds in search of a target business, the obligation to repurchase for cash a significant number of shares from stockholders who elect redemption in connection with our initial business combination or the terms of negotiated transactions to purchase shares in connection with our initial business combination, we may be required to seek additional financing or to abandon the proposed business combination. We cannot assure you that such financing will be available on acceptable terms, if at all. To the extent that additional financing proves to be unavailable when needed to complete our initial business combination, we would be compelled to either restructure the transaction or abandon that particular business combination and seek an alternative target business candidate. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share plus any pro rata interest earned on the funds held in the trust account (and not previously released to us to pay our taxes) on the liquidation of our trust account and our warrants will expire worthless. In addition, even if we do not need additional financing to complete our business combination, we may require such financing to fund the operations or growth of the target business. The failure to secure additional financing could have a material adverse effect on the continued development or growth of the target business. None of our officers, directors or stockholders is required to provide any financing to us in connection with or after our initial business combination. If we are unable to complete our initial business combination, our public stockholders may only receive approximately \$10.00 per share on the liquidation of our trust account, and our warrants will expire worthless. In certain circumstances, our public stockholders may receive less than \$10.00 per share on the redemption of their shares.

Our initial stockholders may exert a substantial influence on actions requiring a stockholder vote, potentially in a manner that you do not support.

Our initial stockholders own shares representing 20% of our issued and outstanding shares of common stock. Accordingly, they may exert a substantial influence on actions requiring a stockholder vote, potentially in a manner that you do not support, including amendments to our amended and restated certificate of incorporation and approval of major corporate transactions. If our initial stockholders purchase any additional shares of common stock in the aftermarket or in privately negotiated transactions, this would increase their control. Factors that would be considered in making such additional purchases would include consideration of the current trading price of our Class A common stock. In addition, our board of directors, whose members were elected by certain of our initial stockholders, is divided into three classes, each of which generally serves for a term of three years with only one class of directors being elected in each year. We may not hold an annual meeting of stockholders to elect new directors prior to the completion of our business combination, in which case all of the current directors will continue in office until at least the completion of the business combination. If there is an annual meeting, as a consequence of our “staggered” board of directors, only a minority of the board of directors will be considered for election and our initial stockholders, because of their ownership position, will have considerable influence regarding the outcome. In addition, the founder shares, all of which are held by our initial stockholders, will entitle the initial stockholders to elect all of our directors prior to our initial business combination. Holders of our public shares will have no right to vote on the election of directors during such time. These provisions of our amended and restated certificate of incorporation may only be amended by the vote of at least 90% of our issued and outstanding common stock entitled to vote thereon. As a result, you will not have any influence over the election of directors prior to our initial business combination. Accordingly, our initial stockholders will continue to exert control at least until the completion of our business combination.

Our sponsor paid an aggregate of \$25,000 for the founder shares, or approximately \$0.009 per founder share. As a result of this low initial price, our sponsor, its affiliates and our management team and advisors stand to make a substantial profit even if an initial business combination subsequently declines in value or is unprofitable for our public stockholders.

As a result of the low acquisition cost of our founder shares, our sponsor, its affiliates and our management team and advisors could make a substantial profit even if we select and consummate an initial business combination with an acquisition target that subsequently declines in value or is unprofitable for our public stockholders. Thus, such parties may have more of an economic incentive for us to enter into an initial business combination with a riskier, weaker-performing or financially unstable business, or an entity lacking an established record of revenues or earnings, than would be the case if such parties had paid the full offering price for their founder shares.

We may amend the terms of the warrants in a manner that may be adverse to holders of public warrants with the approval by the holders of at least 50% of the then outstanding public warrants. As a result, the exercise price of your warrants could be increased, the exercise period could be shortened and the number of shares of our Class A common stock purchasable upon exercise of a warrant could be decreased, all without your approval.

Our warrants were issued in registered form under a warrant agreement between Continental Stock Transfer & Trust Company, as warrant agent, and us. The warrant agreement provides that the terms of the warrants may be amended without the consent of any holder to cure any ambiguity or correct any defective provision, but requires the approval by the holders of at least 50% of the then outstanding public warrants to make any change that adversely affects the interests of the registered holders of public warrants. Accordingly, we may amend the terms of the public warrants in a manner adverse to a holder if holders of at least 50% of the then outstanding public warrants approve of such amendment. Although our ability to amend the terms of the public warrants with the consent of at least 50% of the then outstanding public warrants is unlimited, examples of such amendments could be amendments to, among other things, increase the exercise price of the warrants, convert the warrants into cash, shorten the exercise period or decrease the number of shares of our Class A common stock purchasable upon exercise of a warrant.

We may redeem your unexpired warrants prior to their exercise at a time that is disadvantageous to you, thereby making your warrants worthless.

We have the ability to redeem outstanding warrants at any time after they become exercisable and prior to their expiration, at a price of \$0.01 per warrant, provided that the last reported sales price of our Class A common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within a 30 trading-day period ending on the third trading day prior to the date on which we give proper notice of such redemption and provided certain other conditions are met. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws. Redemption of the outstanding warrants could force you (i) to exercise your warrants and pay the exercise price therefor at a time when it may be disadvantageous for you to do so, (ii) to sell your warrants at the then-current market price when you might otherwise wish to hold your warrants or (iii) to accept the nominal redemption price which, at the time the outstanding warrants are called for redemption, is likely to be substantially less than the market value of your warrants.

Our warrants and founder shares may have an adverse effect on the market price of our Class A common stock and make it more difficult to complete our business combination.

We issued warrants to purchase 5,000,000 shares of our Class A common stock as part of the units offered in our initial public offering and, simultaneously with the closing of our initial public offering, we issued in a private placement warrants to purchase an aggregate of 4,000,000 shares of Class A common stock at \$11.50 per share. Our initial stockholders currently own 2,500,000 founder shares following the forfeiture of 375,000 founder shares as described herein. The founder shares are automatically convertible into shares of Class A common stock at the closing of our initial business combination on a one-for-one basis, subject to adjustment as set forth herein. In addition, if our sponsor makes any working capital loans, up to \$1,500,000 of such loans may be converted into warrants, at the price of \$1.00 per warrant at the option of the lender. Such warrants would be identical to the private placement warrants, including as to exercise price, exercisability and exercise period.

To the extent we issue shares of Class A common stock to complete a business combination, the potential for the issuance of a substantial number of additional shares of Class A common stock upon exercise of these warrants and conversion rights could make us a less attractive acquisition vehicle to a target business. Any such issuance will increase the number of issued and outstanding shares of our Class A common stock and reduce the value of the shares of Class A common stock issued to complete the business combination. Therefore, our warrants and founder shares may make it more difficult to complete a business combination or increase the cost of acquiring the target business.

The private placement warrants are identical to the warrants sold as part of the units in our initial public offering except that, so long as they are held by our sponsor or its permitted transferees, (i) they will not be redeemable by us, (ii) they (including the Class A common stock issuable upon exercise of these warrants) may not, subject to certain limited exceptions, be transferred, assigned or sold by our sponsor until 30 days after the completion of our initial business combination and (iii) they may be exercised by at the option of the holders thereof on a cashless basis.

Because each unit contains one-half of one warrant and only a whole warrant may be exercised, the units may be worth less than units of other blank check companies.

Each unit contains one-half of one warrant. Because, pursuant to the warrant agreement, the warrants may only be exercised for a whole number of shares, only a whole warrant may be exercised at any given time. This is different from other offerings similar to ours whose units include one share of common stock and one warrant to purchase one whole share. We have established the components of the units in this way in order to reduce the dilutive effect of the warrants upon completion of a business combination since the warrants will be exercisable in the aggregate for one half of the number of shares compared to units that each contain a warrant to purchase one whole share, thus making us, we believe, a more attractive merger partner for target businesses. Nevertheless, this unit structure may cause our units to be worth less than if they included a warrant to purchase one whole share.

A provision of our warrant agreement may make it more difficult for use to consummate an initial business combination.

Unlike some other blank check companies, if

- (i) we issue additional shares of Class A common stock or equity-linked securities for capital raising purposes in connection with the closing of our initial business combination at a Newly Issued Price of less than \$9.20 per share;
- (ii) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of our initial business combination on the date of the consummation of our initial business combination (net of redemptions), and
- (iii) the Market Value is below \$9.20 per share,

then the exercise price of the warrants will be adjusted to be equal to 115% of the greater of the Market Value and the Newly Issued Price, and the \$18.00 per share redemption trigger price will be adjusted (to the nearest cent) to be equal to 180% of the greater of the Market Value and the Newly Issued Price. This may make it more difficult for us to consummate an initial business combination with a target business.

The requirements of being a public company may strain our resources and divert management's attention.

As a public company, we are subject to the reporting requirements of the Exchange Act, the Sarbanes-Oxley Act of 2002 (the "Sarbanes Oxley Act"), the Dodd-Frank Wall Street Reform and Consumer Protection Act, the listing requirements of NASDAQ and other applicable securities rules and regulations. Compliance with these rules and regulations increase our legal and financial compliance costs, make some activities more difficult, time-consuming or costly and increase demand on our systems and resources, particularly after we are no longer an "emerging growth company." The Sarbanes-Oxley Act requires, among other things, that we maintain effective disclosure controls and procedures and internal control over financial reporting. In order to maintain and, if required, improve our disclosure controls and procedures and internal control over financial reporting to meet this standard, significant resources and management oversight may be required. As a result, management's attention may be diverted from other business concerns, which could adversely affect our business and operating results. We may need to hire more employees in the future or engage outside consultants to comply with these requirements, which will increase our costs and expenses.

A market for our securities may not develop, which would adversely affect the liquidity and price of our securities.

The price of our securities may vary significantly due to one or more potential business combinations and general market or economic conditions. Furthermore, an active trading market for our securities may never develop or, if developed, it may not be sustained. You may be unable to sell your securities unless a market can be established and sustained.

Because we must furnish our stockholders with target business financial statements, we may lose the ability to complete an otherwise advantageous initial business combination with some prospective target businesses.

The federal proxy rules require that a proxy statement with respect to a vote on a business combination meeting certain financial significance tests include target historical and/or pro forma financial statement disclosure. We will include the same financial statement disclosure in connection with our tender offer documents, whether or not they are required under the tender offer rules. These financial statements may be required to be prepared in accordance with, or be reconciled to, accounting principles generally accepted in the United States of America, or GAAP, or international financial reporting standards as issued by the International Accounting Standards Board, or IFRS, depending on the circumstances and the historical financial statements may be required to be audited in accordance with the standards of the Public Company Accounting Oversight Board (United States), or PCAOB. These financial statements may also be required to be prepared in accordance with GAAP in connection with our current report on Form 8-K announcing the closing our initial business combination within four business days following such closing. These financial statement requirements may limit the pool of potential target businesses we may acquire because some targets may be unable to provide such financial statements in time for us to disclose such financial statements in accordance with federal proxy rules and complete our initial business combination within the prescribed time frame.

We are an emerging growth company and a smaller reporting company within the meaning of the Securities Act, and if we take advantage of certain exemptions from disclosure requirements available to emerging growth companies and smaller reporting companies, this could make our securities less attractive to investors and may make it more difficult to compare our performance with other public companies.

We are an “emerging growth company” within the meaning of the Securities Act, as modified by the JOBS Act, and we may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. As a result, our stockholders may not have access to certain information they may deem important. We could be an emerging growth company for up to five years, although circumstances could cause us to lose that status earlier, including if the market value of our Class A common stock held by non-affiliates exceeds \$700 million as of any June 30 before that time, in which case we would no longer be an emerging growth company as of the following December 31. We cannot predict whether investors will find our securities less attractive because we will rely on these exemptions. If some investors find our securities less attractive as a result of our reliance on these exemptions, the trading prices of our securities may be lower than they otherwise would be, there may be a less active trading market for our securities and the trading prices of our securities may be more volatile.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such an election to opt out is irrevocable. We have elected not to opt out of such extended transition period, which means that when a standard is issued or revised and it has different application dates for public or private companies, we, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of our financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accountant standards used.

Additionally, we are a “smaller reporting company” as defined in Rule 10(f)(1) of Regulation S-K. Smaller reporting companies may take advantage of certain reduced disclosure obligations, including, among other things, providing only two years of audited financial statements. We will remain a smaller reporting company until the last day of the fiscal year in which (1) the market value of our common stock held by non-affiliates exceeds \$250 million as of the end of the prior June 30th, or (2) our annual revenues exceeded \$100 million during such completed fiscal year and the market value of our common stock held by non-affiliates exceeds \$700 million as of the prior June 30th. To the extent we take advantage of such reduced disclosure obligations, it may also make comparison of our financial statements with other public companies difficult or impossible.

Compliance obligations under the Sarbanes-Oxley Act may make it more difficult for us to complete our initial business combination, require substantial financial and management resources, and increase the time and costs of completing an acquisition.

Section 404 of the Sarbanes-Oxley Act requires that we evaluate and report on our system of internal controls beginning with our Annual Report on Form 10-K for the year ending December 31, 2020. Only in the event we are deemed to be a large accelerated filer or an accelerated filer will we be required to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting. Further, for as long as we remain an emerging growth company, we will not be required to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting. The fact that we are a blank check company makes compliance with the requirements of the Sarbanes-Oxley Act particularly burdensome on us as compared to other public companies because a target company with which we seek to complete our business combination may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of its internal controls. The development of the internal control of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such acquisition.

Provisions in our amended and restated certificate of incorporation and Delaware law may inhibit a takeover of us, which could limit the price investors might be willing to pay in the future for our Class A common stock and could entrench management.

Our amended and restated certificate of incorporation contains provisions that may discourage unsolicited takeover proposals that stockholders may consider to be in their best interests. These provisions include a staggered board of directors and the ability of the board of directors to designate the terms of and issue new series of preferred shares, which may make the removal of management more difficult and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our securities.

We are also subject to anti-takeover provisions under Delaware law, which could delay or prevent a change of control. Together these provisions may make the removal of management more difficult and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our securities.

Our amended and restated certificate of incorporation will require, to the fullest extent permitted by law, that derivative actions brought in our name, actions against our directors, officers, other employees or stockholders for breach of fiduciary duty and other similar actions may be brought only in the Court of Chancery in the State of Delaware and, if brought outside of Delaware, the stockholder bringing the suit will be deemed to have consented to service of process on such stockholder's counsel, which may have the effect of discouraging lawsuits against our directors, officers, other employees or stockholders.

Our amended and restated certificate of incorporation requires, to the fullest extent permitted by law, that derivative actions brought in our name, actions against our directors, officers, other employees or stockholders for breach of fiduciary duty and other similar actions may be brought only in the Court of Chancery in the State of Delaware and, if brought outside of Delaware, the stockholder bringing the suit will be deemed to have consented to service of process on such stockholder's counsel except any action (A) as to which the Court of Chancery in the State of Delaware determines that there is an indispensable party not subject to the jurisdiction of the Court of Chancery (and the indispensable party does not consent to the personal jurisdiction of the Court of Chancery within ten days following such determination), (B) which is vested in the exclusive jurisdiction of a court or forum other than the Court of Chancery, (C) for which the Court of Chancery does not have subject matter jurisdiction, or (D) any action arising under the Securities Act, as to which the Court of Chancery and the federal district court for the District of Delaware shall have concurrent jurisdiction. Any person or entity purchasing or otherwise acquiring any interest in shares of our capital stock shall be deemed to have notice of and consented to the forum provisions in our amended and restated certificate of incorporation. This choice of forum provision may limit a stockholder's ability to bring a claim in a judicial forum that it finds favorable for disputes with us or any of our directors, officers, other employees or stockholders, which may discourage lawsuits with respect to such claims, although our stockholders will not be deemed to have waived our compliance with federal securities laws and the rules and regulations thereunder. Alternatively, if a court were to find the choice of forum provision contained in our amended and restated certificate of incorporation to be inapplicable or unenforceable in an action, we may incur additional costs associated with resolving such action in other jurisdictions, which could harm our business, operating results and financial condition.

Our amended and restated certificate of incorporation provides that the exclusive forum provision will be applicable to the fullest extent permitted by applicable law. Section 27 of the Exchange Act creates exclusive federal jurisdiction over all suits brought to enforce any duty or liability created by the Exchange Act or the rules and regulations thereunder. As a result, the exclusive forum provision will not apply to suits brought to enforce any duty or liability created by the Exchange Act or any other claim for which the federal courts have exclusive jurisdiction.

If we complete our initial business combination with a company with operations or opportunities outside of the United States, we would be subject to a variety of additional risks that may negatively impact our operations.

If we complete our initial business combination with a company with operations or opportunities outside of the United States, we would be subject to any special considerations or risks associated with companies operating in an international setting, including any of the following:

- higher costs and difficulties inherent in managing cross-border business operations and complying with different commercial and legal requirements of overseas markets;
- rules and regulations regarding currency redemption;
- complex corporate withholding taxes on individuals;
- laws governing the manner in which future business combinations may be effected;
- tariffs and trade barriers;
- regulations related to customs and import/export matters;
- longer payment cycles and challenges in collecting accounts receivable;

- tax issues, such as tax law changes and variations in tax laws as compared to the United States;
- currency fluctuations and exchange controls;
- rates of inflation;
- cultural and language differences;
- employment regulations;
- crime, strikes, riots, civil disturbances, terrorist attacks, natural disasters and wars;
- deterioration of political relations with the United States; and
- government appropriations of assets.

We may not be able to adequately address these additional risks. If we were unable to do so, our operations might suffer, which may adversely impact our results of operations and financial condition.

If we acquire an operating company or business in the healthcare industry, our future operations may be subject to risks associated with this sector.

While we may pursue an initial business combination target in any business or industry, we have focused our search on acquiring an operating company or business in the healthcare industry. Risks inherent in investments in this sector may include, but are not limited to, the following:

- Competition could reduce profit margins.
- Our inability to comply with governmental regulations affecting the healthcare industry could negatively affect our operations.
- An inability to license or enforce intellectual property rights on which our business may depend.
- The success of our planned business following consummation of our initial business combination may depend on maintaining a well-secured business and technology infrastructure.
- If we are required to obtain governmental approval of our products, the production of our products could be delayed and we could be required to engage in a lengthy and expensive approval process that may not ultimately be successful.
- Continuing government and private efforts to contain healthcare costs, including through the implementation of legal and regulatory changes, may reduce our future revenue and our profitability following such business combination.
- Changes in the healthcare related wellness industry and markets for such products affecting our customers or retailing practices could negatively impact customer relationships and our results of operations.
- The healthcare industry is susceptible to significant liability exposure. If liability claims are brought against us following a business combination, it could materially adversely affect our operations.
- Dependence of our operations upon third-party suppliers, manufacturers or contractors whose failure to perform adequately could disrupt our business.
- The Affordable Care Act, possible changes to it or its repeal, and how it is implemented could negatively impact our business.
- A disruption in supply could adversely impact our business.

Any of the foregoing could have an adverse impact on our operations following a business combination. However, our efforts in identifying prospective target businesses are not limited to the healthcare industry. Accordingly, if we acquire a target business in another industry, these risks will likely not affect us and we will be subject to other risks attendant with the specific industry in which we operate or target business which we acquire, none of which can be presently ascertained.

Our search for a business combination, and any target business with which we ultimately consummate a business combination, may be materially adversely affected by the recent coronavirus (COVID-19) outbreak.

In December 2019, a novel strain of coronavirus was reported to have surfaced in Wuhan, China, which has and is continuing to spread throughout China and other parts of the world, including the United States. On January 30, 2020, the World Health Organization declared the outbreak of the coronavirus disease (COVID-19) a “Public Health Emergency of International Concern.” On January 31, 2020, U.S. Health and Human Services Secretary Alex M. Azar II declared a public health emergency for the United States to aid the U.S. healthcare community in responding to COVID-19, and on March 11, 2020 the World Health Organization characterized the outbreak as a “pandemic”. A significant outbreak of COVID-19 and other infectious diseases could result in a widespread health crisis that could adversely affect the economies and financial markets worldwide, and the business of any potential target business with which we consummate a business combination could be materially and adversely affected. Furthermore, we may be unable to complete a business combination if continued concerns relating to COVID-19 restrict travel, limit the ability to have meetings with potential investors or the target company’s personnel, vendors and services providers are unavailable to negotiate and consummate a transaction in a timely manner. The extent to which COVID-19 impacts our search for a business combination will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of COVID-19 and the actions to contain COVID-19 or treat its impact, among others. If the disruptions posed by COVID-19 or other matters of global concern continue for an extensive period of time, our ability to consummate a business combination, or the operations of a target business with which we ultimately consummate a business combination, may be materially adversely affected.

Item 1B. Unresolved Staff Comments.

None.

Item 2. Properties.

We do not own any real estate or other physical properties materially important to our operation. We currently maintain our principal executive offices at 1177 Avenue of the Americas, Floor 40, New York, NY 10036. Our executive offices are provided to us by our sponsor at no charge. We consider our current office space, combined with the other office space otherwise available to our executive officers, adequate for our current operations.

Item 3. Legal Proceedings.

To the knowledge of our management, there is no litigation currently pending against us, any of our officers or directors in their capacity as such or against any of our property.

Item 4. Mine Safety Disclosures.

Not applicable.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters, and Issuer Purchases of Equity Securities.

(a) Market Information

Our units, Class A common stock and warrants are each traded on the Nasdaq Capital Market under the symbols "AMHCU," "AMHC" and "AMHCW," respectively. Our units commenced public trading on November 20, 2019, and our Class A common stock and warrants commenced separate public trading on January 10, 2019.

(b) Holders

On March 24, 2020, there was 1 holder of record of our units, 1 holder of record of our Class A common stock and 2 holders of record of our warrants.

(c) Dividends

We have not paid any cash dividends on our common stock to date and do not intend to pay cash dividends prior to the completion of our initial business combination. The payment of cash dividends in the future will be dependent upon our revenues and earnings, if any, capital requirements and general financial condition subsequent to completion of our initial business combination. The payment of any cash dividends subsequent to our initial business combination will be within the discretion of our board of directors at such time. In addition, our board of directors is not currently contemplating and does not anticipate declaring any stock dividends in the foreseeable future. Further, if we incur any indebtedness in connection with our initial business combination, our ability to declare dividends may be limited by restrictive covenants we may agree to in connection therewith.

Securities Authorized for Issuance Under Equity Compensation Plans

None.

Recent Sales of Unregistered Securities

None.

Purchases of Equity Securities by the Issuer and Affiliated Purchasers

None.

Item 6. Selected Financial Data.

Not required for smaller reporting companies.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Special Note Regarding Forward-Looking Statements

All statements other than statements of historical fact included in this Form 10-K including, without limitation, statements under "Management's Discussion and Analysis of Financial Condition and Results of Operations" regarding the Company's financial position, business strategy and the plans and objectives of management for future operations, are forward-looking statements. When used in this Form 10-K, words such as "anticipate," "believe," "estimate," "expect," "intend" and similar expressions, as they relate to us or the Company's management, identify forward-looking statements. Such forward-looking statements are based on the beliefs of management, as well as assumptions made by, and information currently available to, the Company's management. Actual results could differ materially from those contemplated by the forward-looking statements as a result of certain factors detailed in our filings with the SEC.

The following discussion and analysis of the Company's financial condition and results of operations should be read in conjunction with our audited financial statements and the notes related thereto which are included in "Item 8. Financial Statements and Supplementary Data" of this Annual Report on Form 10-K. Certain information contained in the discussion and analysis set forth below includes forward-looking statements. Our actual results may differ materially from those anticipated in these forward-looking statements as a result of many factors, including those set forth under "Special Note Regarding Forward-Looking Statements," "Item 1A. Risk Factors" and elsewhere in this Annual Report on Form 10-K.

We are a blank check company formed under the laws of the State of Delaware on August 13, 2019 for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar Business Combination with one or more target businesses. We intend to effectuate our Business Combination using cash from the proceeds of our Initial Public Offering and the sale of the Placement Units that occurred simultaneously with the completion of our Initial Public Offering, our capital stock, debt or a combination of cash, stock and debt.

The issuance of additional shares in connection with an initial business combination:

- may significantly dilute the equity interest of investors in this offering, which dilution would increase if the anti-dilution provisions in the Class B common stock resulted in the issuance of Class A shares on a greater than one-to-one basis upon conversion of the Class B common stock;
- may subordinate the rights of holders of our common stock if preferred stock is issued with rights senior to those afforded our common stock;
- could cause a change in control if a substantial number of shares of our common stock is issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors;
- may have the effect of delaying or preventing a change of control of us by diluting the stock ownership or voting rights of a person seeking to obtain control of us; and
- may adversely affect prevailing market prices for our Class A common stock and/or warrants.

Similarly, if we issue debt securities or otherwise incur significant debt to bank or other lenders or the owners of a target, it could result in:

- default and foreclosure on our assets if our operating revenues after an initial business combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt security is payable on demand;
- our inability to obtain necessary additional financing if the debt security contains covenants restricting our ability to obtain such financing while the debt security is outstanding;
- our inability to pay dividends on our common stock;

- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our common stock if declared, our ability to pay expenses, make capital expenditures and acquisitions, and fund other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation;
- limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, and execution of our strategy; and
- other purposes and other disadvantages compared to our competitors who have less debt.

We expect to continue to incur significant costs in the pursuit of our acquisition plans. We cannot assure you that our plans to complete a Business Combination will be successful.

Results of Operations

We have neither engaged in any operations nor generated any revenues to date. Our only activities from inception to December 31, 2019 were organizational activities, those necessary to prepare for the Initial Public Offering, described below, and identifying a target company for a Business Combination. We do not expect to generate any operating revenues until after the completion of our Business Combination. We generate non-operating income in the form of interest income on marketable securities held in the Trust Account. We incur expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses in connection with completing a Business Combination.

For the period from August 13, 2019 (inception) through December 31, 2019, we had a net income of \$2,043, which consists of interest income on marketable securities held in the Trust Account of \$154,572, offset by operating costs of \$136,304 and a provision for income taxes of \$16,225.

Liquidity and Capital Resources

As of December 31, 2019, we had cash of \$1,212,755 held outside of the Trust Account. Until the consummation of the Initial Public Offering, the Company's only source of liquidity was an initial purchase of Class B common stock by the Sponsor and loans from our Sponsor.

On November 22, 2019, we consummated the Initial Public Offering of 10,000,000 Units, at \$10.00 per Unit, generating gross proceeds of \$100,000,000. Simultaneously with the closing of the Initial Public Offering, we consummated the sale of 4,000,000 Private Placement Warrants to the Sponsor at a price of \$1.00 per warrant, generating gross proceeds of \$4,000,000.

Following the Initial Public Offering and the sale of the Private Placement Warrants, a total of \$100,000,000 was placed in the Trust Account. We incurred \$5,944,772 in transaction costs, including \$2,000,000 of underwriting fees, \$3,500,000 of deferred underwriting fees and \$444,772 of other offering costs.

For the period from August 13, 2019 (inception) through December 31, 2019, cash used in operating activities was \$367,473. Net income of \$2,043 was offset by interest earned on marketable securities held in the Trust Account of \$154,572 and changes in operating assets and liabilities, which used \$214,944 of cash from operating activities.

We intend to use substantially all of the funds held in the Trust Account, including any amounts representing interest earned on the Trust Account (less taxes payable and deferred underwriting commissions) to complete our Business Combination. We may withdraw interest to pay taxes. To the extent that our capital stock or debt is used, in whole or in part, as consideration to complete our Business Combination, the remaining proceeds held in the Trust Account will be used as working capital to finance the operations of the target business or businesses, make other acquisitions and pursue our growth strategies.

We intend to use the funds held outside the Trust Account primarily to identify and evaluate target businesses, perform business due diligence on prospective target businesses, travel to and from the offices, plants or similar locations of prospective target businesses or their representatives or owners, review corporate documents and material agreements of prospective target businesses, and structure, negotiate and complete a Business Combination.

In order to fund working capital deficiencies or finance transaction costs in connection with a Business Combination, our Sponsor or an affiliate of our Sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete a Business Combination, we would repay such loaned amounts. In the event that a Business Combination does not close, we may use a portion of the working capital held outside the Trust Account to repay such loaned amounts but no proceeds from our Trust Account would be used for such repayment. Up to \$1,500,000 of such loans may be convertible into warrants identical to the Private Placement Warrants, at a price of \$1.00 per warrant at the option of the lender.

We do not believe we will need to raise additional funds in order to meet the expenditures required for operating our business. However, if our estimate of the costs of identifying a target business, undertaking in-depth due diligence and negotiating a Business Combination are less than the actual amount necessary to do so, we may have insufficient funds available to operate our business prior to our Business Combination. Moreover, we may need to obtain additional financing either to complete our Business Combination or because we become obligated to redeem a significant number of our public shares upon consummation of our Business Combination, in which case we may issue additional securities or incur debt in connection with such Business Combination. Subject to compliance with applicable securities laws, we would only complete such financing simultaneously with the completion of our Business Combination. If we are unable to complete our Business Combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the Trust Account. In addition, following our Business Combination, if cash on hand is insufficient, we may need to obtain additional financing in order to meet our obligations.

Off-balance sheet financing arrangements

We have no obligations, assets or liabilities, which would be considered off-balance sheet arrangements as of December 31, 2019. We do not participate in transactions that create relationships with unconsolidated entities or financial partnerships, often referred to as variable interest entities, which would have been established for the purpose of facilitating off-balance sheet arrangements. We have not entered into any off-balance sheet financing arrangements, established any special purpose entities, guaranteed any debt or commitments of other entities, or purchased any non-financial assets.

Contractual obligations

We do not have any long-term debt, capital lease obligations, operating lease obligations or long-term liabilities, other than an agreement to pay the underwriters a deferred fee of \$0.35 per Unit, or \$3,500,000 in the aggregate. A portion of such amount may be paid to third parties not participating in Initial Public Offering (but who are members of FINRA) that assist us in consummating a Business Combination. The election to make such payments to third parties will be solely at the discretion of our management team, and such third parties will be selected by the management team in their sole and absolute discretion; provided, that no single third party (together with its affiliates) may be paid an amount in excess of the portion of the aggregate deferred underwriting commission paid to the underwriters unless the parties otherwise agree. The deferred fee will become payable to the underwriters from the amounts held in the Trust Account solely in the event that we complete a Business Combination, subject to the terms of the underwriting agreement.

Critical Accounting Policies

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and income and expenses during the periods reported. Actual results could materially differ from those estimates. We have identified the following critical accounting policies:

Common stock subject to possible redemption

We account for our common stock subject to possible redemption in accordance with the guidance in Accounting Standards Codification (“ASC”) Topic 480 “Distinguishing Liabilities from Equity.” Common stock subject to mandatory redemption is classified as a liability instrument and is measured at fair value. Conditionally redeemable common stock (including common stock that features redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within our control) is classified as temporary equity. At all other times, common stock is classified as stockholders’ equity. Our common stock features certain redemption rights that are considered to be outside of our control and subject to occurrence of uncertain future events. Accordingly, common stock subject to possible redemption is presented as temporary equity, outside of the stockholders’ equity section of our balance sheet.

Net loss per common share

We apply the two-class method in calculating earnings per share. Net income per common share, basic and diluted for Class A redeemable common stock is calculated by dividing the interest income earned on the Trust Account, net of applicable franchise and income taxes, by the weighted average number of Class A redeemable common stock outstanding for the period. Net loss per common share, basic and diluted for Class B non-redeemable common stock is calculated by dividing the net income, less income attributable to Class A redeemable common stock, by the weighted average number of Class B non-redeemable common stock outstanding for the periods.

Recent Accounting Pronouncements

In July 2017, the FASB issued Accounting Standards Update (“ASU”) 2017-11, Earnings Per Share (Topic 260), Distinguishing Liabilities from Equity (Topic 480) and Derivatives and Hedging (Topic 815): Part I. Accounting for Certain Financial Instruments with Down Round Features; Part II. Replacement of the Indefinite Deferral for Mandatorily Redeemable Financial Instruments of Certain Nonpublic Entities and Certain Mandatorily Redeemable Noncontrolling Interests with a Scope Exception. Part I of this update addresses the complexity of accounting for certain financial instruments with down round features. Down round features are features of certain equity-linked instruments (or embedded features) that result in the strike price being reduced on the basis of the pricing of future equity offerings. Also, entities must adjust their basic Earnings Per Share (“EPS”) calculation for the effect of the down round provision when triggered (that is, when the exercise price of the related equity-linked financial instrument is adjusted downward because of the down round feature). That effect is treated as a dividend and as a reduction of income available to common stockholders in basic EPS. An entity will also recognize the effect of the trigger within equity. The guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. The adoption of this guidance enabled the Company to record the warrants as equity instruments and is not expected to have a material impact on the Company’s financial position, results of operations, cash flows or disclosures moving forward until a trigger event occurs. Part II of this update addresses the difficulty of navigating Topic 480, Distinguishing Liabilities from Equity, because of the existence of extensive pending content in the FASB Accounting Standards Codification. This pending content is the result of the indefinite deferral of accounting requirements about mandatorily redeemable financial instruments of certain non-public entities and certain mandatorily redeemable noncontrolling interests. The amendments in Part II of this update are not expected to have an impact on the Company.

Management does not believe that any other recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on our financial statements.

Item 7A. Quantitative and Qualitative Disclosures about Market Risk.

As of December 31, 2019, we were not subject to any market or interest rate risk. Following the consummation of our Initial Public Offering, the net proceeds of our Initial Public Offering, including amounts in the Trust Account, have been invested in U.S. government treasury bills, notes or bonds with a maturity of 180 days or less or in certain money market funds that invest solely in US treasuries. Due to the short-term nature of these investments, we believe there will be no associated material exposure to interest rate risk.

Item 8. Financial Statements and Supplementary Data.

This information appears following Item 15 of this Report and is included herein by reference.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

None.

Item 9A. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Disclosure controls are procedures that are designed with the objective of ensuring that information required to be disclosed in our reports filed under the Exchange Act, such as this Report, is recorded, processed, summarized, and reported within the time period specified in the SEC’s rules and forms. Disclosure controls are also designed with the objective of ensuring that such information is accumulated and communicated to our management, including the chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure. Our management evaluated, with the participation of our current chief executive officer and chief financial officer (our “Certifying Officers”), the effectiveness of our disclosure controls and procedures as of December 31, 2019, pursuant to Rule 13a-15(b) under the Exchange Act. Based upon that evaluation, our Certifying Officers concluded that, as of December 31, 2019, our disclosure controls and procedures were effective.

We do not expect that our disclosure controls and procedures will prevent all errors and all instances of fraud. Disclosure controls and procedures, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the disclosure controls and procedures are met. Further, the design of disclosure controls and procedures must reflect the fact that there are resource constraints, and the benefits must be considered relative to their costs. Because of the inherent limitations in all disclosure controls and procedures, no evaluation of disclosure controls and procedures can provide absolute assurance that we have detected all our control deficiencies and instances of fraud, if any. The design of disclosure controls and procedures also is based partly on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Management's Report on Internal Controls over Financial Reporting

This Annual Report on Form 10-K does not include a report of management's assessment regarding internal control over financial reporting or an attestation report of our independent registered public accounting firm due to a transition period established by rules of the SEC for newly public companies.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Item 9B. Other Information.

None.

PART III

Item 10. Directors, Executive Officers and Corporate Governance.

Directors and Executive Officers

As of the date of this report, our directors and officers are as follows:

Name	Age	Position
Howard Hoffen	56	Chairman
Bala Venkataraman	52	Chief Executive Officer and Director
Kenneth Clifford	63	Chief Financial Officer
Vishal Kapoor	44	President
Fred Eshelman	71	Director
Ernest Mario	81	Director
Peter Dolan	64	Director
Glenn Reicin	55	Director

Howard Hoffen, our Chairman since inception, has served as the Founder, Chairman and Chief Executive Officer of Metalmark since its founding as an independent firm in 2004, and was previously Chairman and Chief Executive Officer of MSCP. He joined Morgan Stanley in 1985 and MSCP in 1986. He oversaw the private equity businesses of Morgan Stanley, including MSCP, Venture Partners and Global Emerging Markets. Mr. Hoffen was also formerly a member of the Management Committee for Morgan Stanley Investment Management. Mr. Hoffen is currently a director of multiple healthcare companies including Innovetive Petcare Holdings, LLC, an operator of veterinary hospitals and clinics, since 2018, Premier Research Group Holdings, L.P., a middle-market contract research organization, since 2016, and Sebela Holdings LLC, a privately-held commercialization and development organization focused on marketed pharmaceuticals, since 2018. Mr. Hoffen has also previously served as a director of numerous companies including Aegis Sciences Corporation, a leading provider of drug monitoring and toxicology services, from 2010 to 2014, Catalytica, Inc., an outsourced manufacturing business that employed proprietary catalytic technologies to provide more efficient and cleaner production processes for the pharmaceutical and the power generation industries, from 1997 to 2000, Collagen Matrix, Inc., a developer and manufacturer of collagen and mineral-based biomaterial products, from 2014 to 2019, Healogics, Inc., a provider of wound care management services for hospitals and other healthcare providers, from 2008 to 2014, Melissa & Doug, Inc., a designer and developer of a range of educational and traditional toy products, from 2007 to 2010, Vanguard Health Systems, Inc., a hospital management company, from 2001 to 2004, and WorldStrides Holdings, an educational travel provider, from 2016 to 2017. Mr. Hoffen received a BS in Engineering from Columbia University and an MBA from Harvard Business School. Mr. Hoffen is currently a member of the Fu Foundation School of Engineering and Applied Sciences, Board of Visitors at Columbia University. He is well qualified to serve on our Board due to his extensive investment and transactional experience in the healthcare industry.

Bala Venkataraman, our Chief Executive Officer and a Director since inception, has been a founding Partner of Avego since 2014 and prior to this was an experienced operating executive in the pharmaceutical industry. Most recently, beginning in 2011, Mr. Venkataraman was Co-Founder and Executive Chairman of Vidara Therapeutics until its sale to Horizon Pharma in 2014. Prior to founding Vidara Therapeutics, Mr. Venkataraman was the Co-Founder and Chief Executive Officer of Alaven Pharmaceutical from 2003 until its sale to Meda Pharma in 2010. Mr. Venkataraman also served as Chief Operating Officer, Chief Financial Officer, and Vice President of Business Development, Strategic Planning and Operations at First Horizon Pharmaceutical (now part of Shionogi Pharma) from 1998 to 2003. Mr. Venkataraman has authored several papers in research publications related to medicinal chemistry and holds numerous drug and formulation patents. Since 2013 he has been a director of Sebela Holdings LLC, a privately-held commercialization and development organization focused on marketed pharmaceuticals. Mr. Venkataraman holds an MS in Chemistry from Case Western University and an MBA from the Wharton School of the University of Pennsylvania. He is well qualified to serve on our Board due to his extensive operational and investment experience in the healthcare industry.

Kenneth Clifford, our Chief Financial Officer since inception, serves as a Partner and Chief Financial Officer at Metalmark, where he has held such position since Metalmark's founding as an independent firm in 2004. He is a former Managing Director and Chief Financial Officer of Morgan Stanley Capital Partners, Venture Partners and Global Emerging Markets. He joined Morgan Stanley in 1981 and Morgan Stanley Capital Partners in 1986. He was formerly a member of the Investment Committee for the Morgan Stanley Global Emerging Markets Fund, Mr. Clifford served as a director of EnerSys and Ingenuity Systems. He is a Certified Public Accountant in the State of New York. Mr. Clifford received a B.S. in Business and Economics from Lehigh University and an MBA from New York University.

Vishal Kapoor, our President since January 2020, worked at Iveric Bio (formerly known as Ophthotech) from April 2015 to December 2019. As the Chief Business Officer of Iveric Bio, he was responsible for acquiring an industry-leading portfolio of gene therapy and therapeutic assets in ophthalmology. From October 2014 to April 2015, Mr. Kapoor was responsible for business development and portfolio strategy in his role as Director of Corporate Development at NPS Pharma, which was acquired by Shire in 2015. From 2005 to 2014, Mr. Kapoor spent 9 years at Genentech in a variety of positions, including leading strategy for ophthalmology and CNS pipeline assets, Lucentis marketing, commercial assessments for business development and medical affairs. Mr. Kapoor holds an MBA in Finance and Management from Columbia Business School and a BA in Biology from Columbia University.

Fred Eshelman, a director of ours since November 2019, is the founder of Eshelman Ventures, LLC an investment company primarily interested in healthcare companies, since 2014. Previously, from 1986 to 2011 Dr. Eshelman founded and initially served as Chairman and Chief Executive Officer (and later solely as Chairman) of Pharmaceutical Product Development, a global contract research organization. After the sale of Pharmaceutical Product Development in 2011, he served as founding chairman and largest shareholder of Furiex Pharmaceuticals, a company which in-licensed and rapidly developed new medicines and which was sold to Forest Laboratories/Actavis in 2014. His career has also included positions at the former Glaxo, Inc., Beecham Laboratories and Boehringer Mannheim Pharmaceuticals. He is currently a director of Eyenovia, Inc. (NASDAQ:EYEN) a clinical stage ophthalmic biopharmaceutical company, since 2018, Collective Biotherapy, Inc., a B-10 cell-based immunotherapy company, since 2016 and Asepticys, LLC, a development stage company researching novel disinfectants, since 2018. Previously, he was chairman of The Medicines Company (NASDAQ: MDCO), a pharmaceutical company, from 2015 to 2018 and was on the board of Bausch Health Companies, Inc. (NYSE: BHC), a pharmaceutical company, from 2015 to 2018. Dr. Eshelman has served on the executive committee of the Medical Foundation of North Carolina, and was appointed by the North Carolina General Assembly to serve on the Board of Governors for the state's multi-campus university system, as well as the North Carolina Biotechnology Center. In addition, he chairs the board of visitors for the School of Pharmacy at the University of North Carolina at Chapel Hill ("UNC-CH"). The School was named the University of North Carolina Eshelman School of Pharmacy in recognition of his many contributions to the school and the profession. Dr. Eshelman received the doctor of pharmacy from the University of Cincinnati, completed a residency at Cincinnati General Hospital, and a BS Pharm from UNC-CH. He completed the OPM program at Harvard Business School. Dr. Eshelman also received an honorary doctor of science from UNC-CH. He is well qualified to serve on our Board due to his extensive operational and investment experience in the healthcare industry.

Ernest Mario, a director of ours since November 2019, has since 2007 been Chairman of Soleno Therapeutics, Inc. (NASDAQ: SLNO), a pharmaceutical company focused on the development and commercialization of novel therapeutic products for the treatment of rare diseases. He has also, since 2011, been a Venture Partner with Pappas Ventures, a Research Triangle Park, North Carolina life science venture capital firm, since 2014 served as a director Eyenovia, Inc. (NASDAQ: EYEN), a clinical stage ophthalmic biopharmaceutical company, and since April 2018 served as a director of Kindred Bioscience Inc. (NASDAQ: KIN). From 2007 until November 2019, he served as a director of Celgene Corporation (NASDAQ: CELG), a large biotechnology company. Dr. Mario served in management at a number of drug companies before being named in 1989 Chief Executive Officer of Glaxo Wellcome, then the second-largest drug company in the world. During Dr. Mario's tenure, Glaxo brought five major new products to market and saw sales and profits increase substantially. Later, Dr. Mario led pioneering drug delivery technology company Alza until selling it to Johnson & Johnson in 2001. He subsequently served as Chairman and Chief Executive Officer of Reliant Pharmaceuticals, where he led the commercialization of Omacor/Lovaza, the first prescription omega-3 medication clinically proven to reduce very high triglycerides. Dr. Mario also serves on the advisory board to certain funds and co-investment vehicles affiliated with Metalmark. He served as a trustee of Rutgers University, where the pharmacy school he attended now bears his name; the University of Rhode Island, where he earned his PhD in physical sciences; and Duke University, where his 18 years of service was the longest tenure ever for a non-Duke University family member. Dr. Mario earned a BS in pharmacy at Rutgers University and his MS and PhD in physical sciences at the University of Rhode Island. He also holds honorary doctorates from the University of Rhode Island and Rutgers University. In 2007, he was awarded the Remington Medal by the American Pharmacists' Association, pharmacy's highest honor. He is well qualified to serve on our Board due to his extensive operational, investment and transactional experience in the healthcare industry.

Peter Dolan, a director of ours since November 2019, has decades of senior leadership experience across a broad range of businesses and has a track record of successful healthcare investments in large companies and more recently in technology driven startups. Mr. Dolan joined Bristol-Myers Squibb (NYSE: BMY) from General Foods in 1988. After more than a decade leading its Consumer Products, Nutritionals, and Medical Device businesses, he was named Chief Executive Officer of the company in 2001. He led the acquisition of DuPont Pharmaceuticals, which brought Eliquis to the company, which has since become a very large, multi-billion dollar, annual revenue product. In 2001, the successful investment in Imclone's Erbitux provided the oncology revenue bridge until the introductions of Sprycel and later Yervoy. In 2004, he licensed the immuno-oncology compound that became Yervoy, later named as the Biotech Discovery of the Decade for extending survival in some of the hardest to treat cancers. Following his departure from Bristol-Myers Squibb in 2006, Mr. Dolan has served as Chairman and Chief Executive Officer of Gemin X, a venture capital backed startup oncology company that was sold to Cephalon Pharmaceuticals. More recently, from 2014 to 2019, he was Chairman of Allied Minds, plc (LON: ALM), an innovation company that forms, funds, manages and builds startups based on early-stage technology. Over the course of his career, Mr. Dolan has served on the boards of multiple for-profits and not-for-profits, and has been on the Board of Tufts University since 2001, serving as its Chairman since 2013. Other boards have included the American Express Company (NYSE: AXP) and the Tuck School Board of Overseers. Since 2010 he has served as Vice Chair of the Partnership for a Healthier America, which works with the private, public and non-profit sectors to develop strategies and initiatives and brokers commitments to address the obesity epidemic. Mr. Dolan graduated magna cum laude from Tufts University in 1978 with a BA. He then earned his MBA from the Tuck School of Business at Dartmouth College. He is well qualified to serve on our Board due to his extensive investment, operational and transactional experience in the healthcare industry.

Glenn Reicin, a director of ours since November 2019, has since June 2019 been Chief Financial Officer at Sigilon Therapeutics, Inc., a provider of novel treatments for a range of chronic diseases, and from 1993 to 2008 a Managing Director at Morgan Stanley where he headed their Healthcare Equity Research team. He is a biotechnology and medical technology executive with experience across finance, operations and investor relations. From 2013 to May 2019, Mr. Reicin served as President of Greyrock Biomedical Advisors, which provides a range of deal sourcing, valuation, due diligence and management consulting services for companies in the healthcare space. Most notably, he designed and implemented a strategy for PDL Biopharma to ensure the profitability of the company after a 2016 patent and corresponding royalty expired. Previously, in 2013, he served as an Executive-in-Resident at Covidien and from 2008 to 2012 as Managing Director at Skyline Ventures. At Skyline Ventures, he served as an active board member at a number of biotech firms, including Novasys Medical, a maker of minimally invasive treatments for female incontinence from 2009 to 2013, SI-Bone Inc. (NASDAQ: SIBN), a developer of a minimally invasive surgical treatment for sacroiliac joint disorders from 2010 to 2012, and Spinal Motion Incorporated, a developer of artificial disc implants to preserve motion at the treated spinal segment of the body from 2009 to 2014. He also served as Board Observer on Collegium Pharmaceuticals Inc. (NASDAQ: COLL) a pain management pharmaceutical company and AcelRx Pharmaceuticals (NASDAQ: ACRX), a specialty pharmaceutical company. He started his career at Morgan Stanley where he became a Managing Director in equity research covering medical technology. His sell-side career spanned 18 years, including 15 years as a top-three ranked analyst and six consecutive years in the top spot. He holds an M.B.A. from Harvard Business School and B.A. from Brandeis University. He is well qualified to serve on our Board due to his extensive operational, consulting and transactional experience in the healthcare industry.

Number and Terms of Office of Officers and Directors

We currently have six directors. Our board of directors is divided into three classes with only one class of directors being elected in each year and each class (except for those directors appointed prior to our first annual meeting of stockholders) serving a three-year term. The term of office of the first class of directors, consisting of Messrs. Reicin and Dolan, will expire at our first annual meeting of stockholders. The term of office of the second class of directors, consisting of Messrs. Eshelman and Mario, will expire at the second annual meeting of stockholders. The term of office of the third class of directors, consisting of Messrs. Hoffen and Venkataraman, will expire at the third annual meeting of stockholders. We may not hold an annual meeting of stockholders until after we consummate our initial business combination. In addition, the founder shares, all of which are held by our initial stockholders, will entitle the initial stockholders to elect all of our directors prior to our initial business combination. Holders of our public shares will have no right to vote on the election of directors during such time. These provisions of our amended and restated certificate of incorporation may only be amended by the vote of at least 90% of our issued and outstanding common stock entitled to vote thereon. As a result, you will not have any influence over the election of directors prior to our initial business combination.

Our officers are appointed by the board of directors and serve at the discretion of the board of directors, rather than for specific terms of office. Our board of directors is authorized to appoint persons to the offices set forth in our bylaws as it deems appropriate. Our bylaws provide that our officers may consist of one or more Chairmen of the Board, one or more Chief Executive Officers, a President, a Chief Financial Officer, Vice Presidents, Secretary, Treasurer and such other offices as may be determined by the board of directors.

Committees of the Board of Directors

Our board of directors has two standing committees: an audit committee and a compensation committee. Subject to phase-in rules and a limited exception, Nasdaq rules and Rule 10A-3 of the Exchange Act require that the audit committee of a listed company be comprised solely of independent directors, and Nasdaq rules require that the compensation committee of a listed company be comprised solely of independent directors.

Audit Committee

We have established an audit committee of the board of directors. Messrs. Reicin, Dolan and Mario serve as members of our audit committee, and Mr. Reicin chairs the audit committee. Under the Nasdaq listing standards and applicable SEC rules, we are required to have at least three members of the audit committee, all of whom must be independent. Each of Messrs. Reicin, Dolan and Mario meet the independent director standard under Nasdaq listing standards and under Rule 10-A-3(b)(1) of the Exchange Act.

Each member of the audit committee is financially literate and our board of directors has determined that Mr. Reicin qualifies as an “audit committee financial expert” as defined in applicable SEC rules.

We have adopted an audit committee charter, which detail the principal functions of the audit committee, including:

- the appointment, compensation, retention, replacement, and oversight of the work of the independent registered public accounting firm engaged by us;
- pre-approving all audit and permitted non-audit services to be provided by the independent registered public accounting firm engaged by us, and establishing pre-approval policies and procedures;
- setting clear hiring policies for employees or former employees of the independent registered public accounting firm, including but not limited to, as required by applicable laws and regulations;
- setting clear policies for audit partner rotation in compliance with applicable laws and regulations;
- obtaining and reviewing a report, at least annually, from the independent registered public accounting firm describing (i) the independent registered public accounting firm’s internal quality-control procedures, (ii) any material issues raised by the most recent internal quality-control review, or peer review, of the audit firm, or by any inquiry or investigation by governmental or professional authorities within the preceding five years respecting one or more independent audits carried out by the firm and any steps taken to deal with such issues and (iii) all relationships between the independent registered public accounting firm and us to assess the independent registered public accounting firm’s independence;
- reviewing and approving any related party transaction required to be disclosed pursuant to Item 404 of Regulation S-K promulgated by the SEC prior to us entering into such transaction; and
- reviewing with management, the independent registered public accounting firm, and our legal advisors, as appropriate, any legal, regulatory or compliance matters, including any correspondence with regulators or government agencies and any employee complaints or published reports that raise material issues regarding our financial statements or accounting policies and any significant changes in accounting standards or rules promulgated by the Financial Accounting Standards Board, the SEC or other regulatory authorities.

Compensation Committee

We have established a compensation committee of the board of directors. Messrs. Reicin and Eshelman serve as members of our compensation committee. Under the Nasdaq listing standards and applicable SEC rules, we are required to have at least two members of the compensation committee, all of whom must be independent. Messrs. Reicin and Eshelman are independent and Mr. Eshelman chairs the compensation committee.

We have adopted a compensation committee charter, which details the principal functions of the compensation committee, including:

- reviewing and approving on an annual basis the corporate goals and objectives relevant to our Chief Executive Officer’s compensation, if any is paid by us, evaluating our Chief Executive Officer’s performance in light of such goals and objectives and determining and approving the remuneration (if any) of our Chief Executive Officer based on such evaluation;
- reviewing and approving on an annual basis the compensation, if any is paid by us, of all of our other officers;
- reviewing on an annual basis our executive compensation policies and plans;

- implementing and administering our incentive compensation equity-based remuneration plans;
- assisting management in complying with our proxy statement and annual report disclosure requirements;
- approving all special perquisites, special cash payments and other special compensation and benefit arrangements for our officers and employees;
- if required, producing a report on executive compensation to be included in our annual proxy statement; and
- reviewing, evaluating and recommending changes, if appropriate, to the remuneration for directors.

Notwithstanding the foregoing, as indicated above, other than the base salary to Mr. Kapoor of \$8,333.00 per month, no compensation of any kind, including finders, consulting or other similar fees, will be paid to any of our existing stockholders, officers, directors or any of their respective affiliates, prior to, or for any services they render in order to effectuate the consummation of an initial business combination. Accordingly, it is likely that prior to the consummation of an initial business combination, the compensation committee will only be responsible for the review and recommendation of any compensation arrangements to be entered into in connection with such initial business combination.

The charter also provides that the compensation committee may, in its sole discretion, retain or obtain the advice of a compensation consultant, legal counsel or other adviser and will be directly responsible for the appointment, compensation and oversight of the work of any such adviser. However, before engaging or receiving advice from a compensation consultant, external legal counsel or any other adviser, the compensation committee will consider the independence of each such adviser, including the factors required by Nasdaq and the SEC.

Director Nominations

We do not have a standing nominating committee though we intend to form a corporate governance and nominating committee as and when required to do so by law or Nasdaq rules. In accordance with Rule 5605 of the Nasdaq rules, a majority of the independent directors may recommend a director nominee for selection by the board of directors. The board of directors believes that the independent directors can satisfactorily carry out the responsibility of properly selecting or approving director nominees without the formation of a standing nominating committee. As there is no standing nominating committee, we do not have a nominating committee charter in place.

The board of directors will also consider director candidates recommended for nomination by our stockholders during such times as they are seeking proposed nominees to stand for election at the next annual meeting of stockholders (or, if applicable, a special meeting of stockholders). Our stockholders that wish to nominate a director for election to our board of directors should follow the procedures set forth in our bylaws.

We have not formally established any specific, minimum qualifications that must be met or skills that are necessary for directors to possess. In general, in identifying and evaluating nominees for director, the board of directors considers educational background, diversity of professional experience, knowledge of our business, integrity, professional reputation, independence, wisdom, and the ability to represent the best interests of our stockholders.

Compensation Committee Interlocks and Insider Participation

None of our officers currently serves, or in the past year has served, as a member of the compensation committee of any entity that has one or more officers serving on our board of directors.

Compliance with Section 16(a) of the Exchange Act

Section 16(a) of the Securities Exchange Act of 1934, as amended, or the Exchange Act, requires our executive officers, directors and persons who beneficially own more than 10% of a registered class of our equity securities to file with the Securities and Exchange Commission initial reports of ownership and reports of changes in ownership of our common stock and other equity securities. These executive officers, directors, and greater than 10% beneficial owners are required by SEC regulation to furnish us with copies of all Section 16(a) forms filed by such reporting persons. Based solely on our review of such forms furnished to us and written representations from certain reporting persons, we believe that all reports applicable to our executive officers, directors and greater than 10% beneficial owners were filed in a timely manner pursuant to Section 16(a).

Code of Ethics

We have adopted a Code of Ethics applicable to our directors, officers and employees. We have filed a copy of our Code of Ethics and our audit and compensation committee charters as exhibits to the registration statement in connection with our initial public offering. You can review these documents by accessing our public filings at the SEC's web site at www.sec.gov. In addition, a copy of the Code of Ethics will be provided without charge upon request from us. We intend to disclose any amendments to or waivers of certain provisions of our Code of Ethics in a Current Report on Form 8-K.

Availability of Documents

We have filed a copy of our form of Code of Ethics, our audit committee charter, our nominating committee charter and compensation committee charter as exhibits to the registration statement filed in connection with our initial public offering. You will be able to review these documents by accessing our public filings at the SEC's web site at www.sec.gov. In addition, a copy of the Code of Ethics will be provided without charge upon request from us. We intend to disclose any amendments to or waivers of certain provisions of our Code of Ethics in a Current Report on Form 8-K.

Item 11. Executive Compensation.

Executive Officer and Director Compensation

Except for Mr. Kapoor, none of our officers has received any cash compensation for services rendered to us. We pay Mr. Kapoor a monthly base salary of \$8,333. Contingent on his continuous employment with the Company, Mr. Kapoor will also be eligible to receive a one-time bonus in the amount of \$550,000 if the business combination of the Company is successfully closed and publicly announced on or before February 22, 2021, or \$300,000 if after such date. No compensation of any kind, including any finder's fee, reimbursement, consulting fee or monies in respect of any payment of a loan, will be paid by us to our sponsor, officers and directors except for Mr. Kapoor, or any affiliate of our sponsor or officers, prior to, or in connection with any services rendered in order to effectuate, the consummation of our initial business combination (regardless of the type of transaction that it is). However, these individuals are reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Any such payments prior to an initial business combination will be made using funds held outside the trust account. Other than audit committee review of such payments, we do not expect to have any additional controls in place governing our reimbursement payments to our directors and executive officers for their out-of-pocket expenses incurred in connection with identifying and consummating an initial business combination.

After the completion of our initial business combination, directors or members of our management team who remain with us may be paid consulting or management fees from the combined company. All of these fees will be fully disclosed to stockholders, to the extent then known, in the tender offer materials or proxy solicitation materials furnished to our stockholders in connection with a proposed initial business combination. We have not established any limit on the amount of such fees that may be paid by the combined company to our directors or members of management. It is unlikely the amount of such compensation will be known at the time of the proposed initial business combination, because the directors of the post-combination business will be responsible for determining officer and director compensation. Any compensation to be paid to our officers will be determined, or recommended to the board of directors for determination, either by a compensation committee constituted solely by independent directors or by a majority of the independent directors on our board of directors.

We do not intend to take any action to ensure that members of our management team maintain their positions with us after the consummation of our initial business combination, although it is possible that some or all of our officers and directors may negotiate employment or consulting arrangements to remain with us after our initial business combination. The existence or terms of any such employment or consulting arrangements to retain their positions with us may influence our management's motivation in identifying or selecting a target business but we do not believe that the ability of our management to remain with us after the consummation of our initial business combination will be a determining factor in our decision to proceed with any potential business combination. We are not party to any agreements with our officers and directors, except Mr. Kapoor, that provide for benefits upon termination of employment.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.

The following table sets forth information regarding the beneficial ownership of our common stock as of March 24, 2020 based on information obtained from the persons named below, with respect to the beneficial ownership of shares of our common stock, by:

- each person known by us to be the beneficial owner of more than 5% of our outstanding shares of common stock;
- each of our executive officers and directors that beneficially owns shares of our common stock; and
- all our executive officers and directors as a group.

Unless otherwise indicated, we believe that all persons named in the table have sole voting and investment power with respect to all shares of common stock beneficially owned by them.

Name and Address of Beneficial Owner (1)	Class A Common Stock		Class B Common Stock	
	Number of Shares Beneficially Owned	% of Class	Number of Shares Beneficially Owned	% of Class
Amplitude Healthcare Holdings LLC (2)(3)	—	—	2,500,000	20.0%
Howard Hoffen (3)	—	—	2,500,000	20.0%
Bala Venkataraman (3)	—	—	2,500,000	20.0%
Kenneth Clifford (3)	—	—	2,500,000	20.0%
Fred Eshelman (3)	—	—	—	—
Ernest Mario (3)	—	—	—	—
Peter Dolan (3)	—	—	—	—
Glenn Reicin (3)	—	—	—	—
Vishal Kapoor (3)	—	—	—	—
Tenor Opportunity Master Fund, Ltd. (4)	750,000	7.5%	—	—
Owl Creek Asset Management, L.P. (5)	861,000	8.6%	—	—
UBS O’Connor LLC (6)	550,000	5.5%	—	—
All executive officers and directors as a group (8 individuals) (2)	—	—	2,500,000	20.0%

The table above does not include the shares of common stock underlying the private placement warrants held by our sponsor because these securities are not exercisable within 60 days of this report.

* less than 1%.

- (1) Unless otherwise noted, the business address of each of the following entities or individuals is c/o Amplitude Healthcare Acquisition Corporation, 1177 Avenue of the Americas, Fl 40, New York, NY 10036.
- (2) Interests shown consist solely of founder shares, classified as shares of Class B common stock. Such shares are convertible into shares of Class A common stock at the closing of our initial business combination on a one-for-one basis, subject to adjustment, as described herein.
- (3) Our sponsor is the record holder of the Class B common stock reported herein. Metalmark Amplitude Healthcare Holdings LLC and Avego Healthcare Capital, LLC, affiliates of Metalmark and Avego, respectively, are the managing members of our sponsor. The partners of Metalmark indirectly control Metalmark Capital Holdings LLC, which is the general partner of Metalmark Capital Partners III GP, L.P., itself the sole member of Metalmark Amplitude Healthcare Holdings LLC; Howard Hoffen, our Chairman, and Kenneth Clifford, our Chief Financial Officer, are partners of Metalmark. Each of Messrs. Hoffen and Clifford disclaim any beneficial ownership of the reported shares other than to the extent of their respective pecuniary interest therein, directly or indirectly. Bala Venkataraman, our Chief Executive Officer, is the managing member of Avego Healthcare Capital, LLC, a managing member of our sponsor. Mr. Venkataraman disclaims any beneficial ownership of the reported shares other than to the extent of his pecuniary interest therein, directly or indirectly. In addition, each of our officers and directors is a member of our sponsor and accordingly has pecuniary interest in the shares reported herein. Each such person disclaims any beneficial ownership of the reported shares other than to the extent of any pecuniary interest they may have therein, directly or indirectly.
- (4) Based on a Schedule 13G filed with the SEC on January 31, 2020, Tenor Capital Management Company, L.P. (“Tenor Capital”), a Delaware limited partnership, serves as the investment manager to Tenor Opportunity Master Fund, Ltd. (the “Master Fund”), a company organized under the laws of the Cayman Islands, with respect to the Common Stock held by the Master Fund. Robin Shah, a United States citizen, serves as the managing member of Tenor Management GP, LLC, the general partner of Tenor Capital. Both Tenor Capital and Robin Shah disclaim beneficial ownership of the Shares reported herein except to the extent of the Reporting Person’s pecuniary interest therein. The address of the principal business office of each of the Reporting Persons is 810 Seventh Avenue, Suite 1905, New York, NY 10019.

- (5) Based on a Schedule 13G filed with the SEC on December 2, 2019, Owl Creek Credit Opportunities Master Fund, L.P., an exempted company organized under the laws of the Cayman Islands ("Owl Creek Credit Fund"), with respect to the Common Stock directly owned by it. Owl Creek Advisors, LLC, a Delaware limited liability company, the general partner with respect to the Common Stock directly owned by Owl Creek Credit Fund. As such, Owl Creek Advisors, LLC may be deemed to be the beneficial owner of all shares of Class A common stock held by Owl Creek Credit Fund. Owl Creek Asset Management, L.P., a Delaware limited partnership which serves as the investment manager of the Owl Creek Credit Fund and as a sub-adviser to a pooled investment vehicle (the "Managed Account"), with respect to the shares of Common Stock directly owned by the Owl Creek Credit Fund and the Managed Account. Jeffrey A. Altman, as managing member of the general partner of Owl Creek Asset Management, L.P., with respect to the Common Stock owned by Owl Creek Credit Fund and the Managed Account. As such, both Owl Creek Asset Management, L.P. and Jeffrey A. Altman may be deemed to be the beneficial owners of all shares of Class A common stock held by Owl Creek Credit Fund and the Managed Account. The address of the principal business office of each of the Reporting Persons is 640 Fifth Avenue, 20th Floor, New York, NY 10019.
- (6) Based on a Schedule 13G filed with the SEC on February 13, 2020, on behalf of UBS O'Connor LLC, a Delaware limited liability company. UBS O'Connor LLC serves as the investment manager to (i) Nineteen77 Global Multi-Strategy Alpha Master Limited ("GLEA") and (ii) Nineteen77 Global Merger Arbitrage Master Limited ("OGMA"). In such capacity UBS O'Connor LLC exercises voting and investment power over the shares of Common Stock held for the account of GLEA and OGMA. UBS O'Connor LLC is a registered investment adviser under Section 203 of the Investment Advisers Act of 1940, as amended. As a result, UBS O'Connor LLC may be deemed to have beneficial ownership (as determined under Section 13(d) of the Securities Exchange Act of 1934, as amended) of the shares of Common Stock held for the account of GLEA and OGMA. The address of the principal business office of UBS O'Connor LLC is One North Wacker Drive, 32nd Floor, Chicago, Illinois 60606.

Changes in Control

Not Applicable.

Item 13. Certain Relationships and Related Transactions, and Director Independence.

In August 2019, our sponsor acquired 2,875,000 founder shares for an aggregate purchase price of \$25,000. Prior to the initial investment in the company of \$25,000 by our sponsor, the company had no assets, tangible or intangible. The number of founder shares issued was determined based on the expectation that such founder shares represent 20% of the outstanding shares upon completion of our initial public offering. On January 3, 2020, 375,000 founder shares were returned by our sponsor and then forfeited, as our underwriter did not exercise the over-allotment option, at all. The founder shares (including the Class A common stock issuable upon exercise thereof) may not, subject to certain limited exceptions, be transferred, assigned or sold by the holder.

Simultaneously with the closing of our initial public offering, pursuant to the Private Placement Warrants Purchase Agreement, we completed the private sale of an aggregate of the Private Placement Warrants at a purchase price of \$1.00 per Private Placement Warrant to our Sponsor, generating gross proceeds to us of \$4,000,000. The Private Placement Warrants are identical to the Warrants sold as part of the Units in our initial public offering, except that our Sponsor has agreed not to transfer, assign or sell any of the Private Placement Warrants (except to certain permitted transferees) until 30 days after the completion of our initial business combination. The Private Placement Warrants are also not redeemable for cash by us so long as they are held by our Sponsor or its permitted transferees. No underwriting discounts or commissions were paid with respect to such sale.

If any of our officers or directors becomes aware of a business combination opportunity that falls within the line of business of any entity to which he or she has then-current fiduciary or contractual obligations, including our Founders, he or she will honor his or her fiduciary or contractual obligations to present such opportunity to such entity. Our officers and directors currently have certain relevant fiduciary duties or contractual obligations to other entities that may take priority over their duties to us. We may, at our option, pursue an Affiliated Joint Acquisition opportunity with an entity to which an officer or director has a fiduciary or contractual obligation. Any such entity may co-invest with us in the target business at the time of our initial business combination, or we could raise additional proceeds to complete the acquisition by making a specified future issuance to any such entity. No compensation of any kind, including finder's and consulting fees, will be paid to our sponsor, existing officers, directors and advisors except for Mr. Kapoor, or any of their respective affiliates, for services rendered prior to or in connection with the completion of an initial business. In addition, these individuals will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our audit committee will review on a quarterly basis all payments that were made to our sponsor, officers, directors, advisors or our or their affiliates and will determine which expenses and the amount of expenses that will be reimbursed. There is no cap or ceiling on the reimbursement of out-of-pocket expenses incurred by such persons in connection with activities on our behalf.

Our sponsor has agreed to loan us up to \$300,000 which was used for a portion of the expenses of our initial public offering. This loan was non-interest bearing, unsecured and was repaid upon the closing of our initial public offering out of the offering proceeds not held in the trust account. Such loan was repaid upon the consummation of our initial public offering.

In addition, in order to finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete an initial business combination, we would repay such loaned amounts. In the event that the initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used for such repayment. Up to \$1,500,000 of such loans may be convertible into warrants at a price of \$1.00 per warrant at the option of the lender. The warrants would be identical to the private placement warrants, including as to exercise price, exercisability and exercise period. The terms of such loans by our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans. We do not expect to seek loans from parties other than our sponsor or an affiliate of our sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

After our initial business combination, members of our management team who remain with us may be paid consulting, management or other fees from the combined company with any and all amounts being fully disclosed to our stockholders, to the extent then known, in the tender offer or proxy solicitation materials, as applicable, furnished to our stockholders. It is unlikely the amount of such compensation will be known at the time of distribution of such tender offer materials or at the time of a stockholder meeting held to consider our initial business combination, as applicable, as it will be up to the directors of the post-combination business to determine executive and director compensation.

On November 19, 2019, we entered into a registration rights agreement with respect to the private placement warrants, the warrants issuable upon conversion of working capital loans (if any) and the shares of Class A common stock issuable upon exercise of the foregoing and upon conversion of the founder shares.

Related Party Policy

Our audit committee must review and approve any related person transaction we propose to enter into. Our audit committee charter details the policies and procedures relating to transactions that may present actual, potential or perceived conflicts of interest and may raise questions as to whether such transactions are consistent with the best interest of our company and our stockholders. A summary of such policies and procedures is set forth below.

Any potential related party transaction that is brought to the audit committee's attention will be analyzed by the audit committee, in consultation with outside counsel or members of management, as appropriate, to determine whether the transaction or relationship does, in fact, constitute a related party transaction. At its meetings, the audit committee will be provided with the details of each new, existing or proposed related party transaction, including the terms of the transaction, the business purpose of the transaction and the benefits to us and to the relevant related party.

In determining whether to approve a related party transaction, the audit committee must consider, among other factors, the following factors to the extent relevant:

- whether the terms of the transaction are fair to us and on the same basis as would apply if the transaction did not involve a related party;
- whether there are business reasons for us to enter into the transaction;
- whether the transaction would impair the independence of an outside director; and
- whether the transaction would present an improper conflict of interest for any director or executive officer.

Any member of the audit committee who has an interest in the transaction under discussion must abstain from any voting regarding the transaction, but may, if so requested by the chairman of the audit committee, participate in some or all of the audit committee's discussions of the transaction. Upon completion of its review of the transaction, the audit committee may determine to permit or to prohibit the transaction.

Director Independence

Nasdaq listing standards require that a majority of our board of directors be independent. An "independent director" is defined generally as a person other than an officer or employee of the company or its subsidiaries or any other individual having a relationship which in the opinion of the company's board of directors, would interfere with the director's exercise of independent judgment in carrying out the responsibilities of a director. Our board of directors has determined that Messrs. Eshelman, Mario, Dolan and Reicin are "independent directors" as defined in the Nasdaq listing standards and applicable SEC rules. Our independent directors have regularly scheduled meetings at which only independent directors are present.

Item 14 . Principal Accountant Fees and Services.

WithumSmith+Brown, PC, or Withum, acts as our independent registered public accounting firm. The following is a summary of fees paid to Withum for services rendered.

Audit Fees. During the period from August 13, 2019 (inception) through December 31, 2019, fees for our independent registered public accounting firm were approximately \$49,955, for the services Withum performed in connection with our Initial Public Offering and the audit of our December 31, 2019 financial statements included in this Annual Report on Form 10-K.

Audit-Related Fees. During the period from August 13, 2019 (inception) through December 31, 2019, our independent registered public accounting firm did not render assurance and related services related to the performance of the audit or review of financial statements.

Tax Fees. During the period from August 13, 2019 (inception) through December 31, 2019, our independent registered public accounting firm did not render services to us for tax compliance, tax advice and tax planning.

All Other Fees. During the period from August 13, 2019 (inception) through December 31, 2019, there were no fees billed for products and services provided by our independent registered public accounting firm other than those set forth above.

Pre-Approval Policy

Our audit committee was formed upon the consummation of our initial public offering. As a result, the audit committee did not pre-approve all of the foregoing services, although any services rendered prior to the formation of our audit committee were approved by our board of directors. Since the formation of our audit committee, and on a going-forward basis, the audit committee has and will pre-approve all auditing services and permitted non-audit services to be performed for us by our auditors, including the fees and terms thereof (subject to the de minimis exceptions for non-audit services described in the Exchange Act which are approved by the audit committee prior to the completion of the audit).

Report of Independent Registered Public Accounting Firm

To the Stockholders and the Board of Directors of
Amplitude Healthcare Acquisition Corporation

Opinion on the Financial Statements

We have audited the accompanying balance sheet of Amplitude Healthcare Acquisition Corporation (the "Company") as of December 31, 2019, the related statements of operations, changes in stockholders' equity and cash flows for the period from August 13, 2019 (inception) through December 31, 2019, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2019 and the results of its operations and its cash flows for the period from August 13, 2019 (inception) through December 31, 2019, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

This financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audit we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

/s/ WithumSmith+Brown, PC

We have served as the Company's auditor since 2019.

Deferred offering costs paid directly by Sponsor in exchange for issuance of Class B common stock	<u>\$ 25,000</u>

The accompanying notes are an integral part of the financial statements.

NOTE 1. DESCRIPTION OF ORGANIZATION AND BUSINESS OPERATIONS

Amplitude Healthcare Acquisition Corporation (the “Company”) was incorporated in Delaware on August 13, 2019. The Company was formed for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses (the “Business Combination”).

Although the Company is not limited to a particular industry or sector for purposes of consummating a Business Combination, the Company intends to focus its search on companies in the healthcare industry. The Company is an early stage and emerging growth company and, as such, the Company is subject to all of the risks associated with early stage and emerging growth companies.

As of December 31, 2019, the Company had not commenced any operations. All activity for the period from August 13, 2019 (inception) through December 31, 2019 relates to the Company’s formation and the initial public offering (“Initial Public Offering”), which is described below. The Company will not generate any operating revenues until after the completion of its initial Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income from the proceeds derived from the Initial Public Offering.

The registration statement for the Company’s Initial Public Offering was declared effective on November 19, 2019. On November 22, 2019, the Company consummated the Initial Public Offering of 10,000,000 units (the “Units” and, with respect to the shares of Class A common stock included in the Units sold, the “Public Shares”), generating gross proceeds of \$100,000,000, which is described in Note 3.

Simultaneously with the closing of the Initial Public Offering, the Company consummated the sale of 4,000,000 warrants (the “Private Placement Warrants”) at a price of \$1.00 per Private Placement Warrant in a private placement to Amplitude Healthcare Holdings LLC, a Delaware limited liability company (the “Sponsor”), generating gross proceeds of \$4,000,000, which is described in Note 4.

Transaction costs amounted to \$5,944,772, consisting of \$2,000,000 of underwriting fees, \$3,500,000 of deferred underwriting fees and \$444,772 of other offering costs. In addition, \$1,555,205 of cash was held outside of the Trust Account (as defined below) and is available for working capital purposes as of the Initial Public Offering date. As of December 31, 2019, \$1,212,755 of cash was held outside of the Trust Account.

Following the closing of the Initial Public Offering on November 22, 2019, an amount of \$100,000,000 (\$10.00 per Unit) from the net proceeds of the sale of the Units in the Initial Public Offering and the sale of the Private Placement Warrant was placed in a trust account (“Trust Account”) which will be invested only in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act, with a maturity of 180 days or less or in any open-ended investment company that holds itself out as a money market fund selected by the Company meeting the conditions of Rule 2a-7 of the Investment Company Act, as determined by the Company, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the Trust Account, as described below.

The Company’s management has broad discretion with respect to the specific application of the net proceeds of the Initial Public Offering and the sale of Private Placement Warrants, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. There is no assurance that the Company will be able to complete a Business Combination successfully. The Company must complete a Business Combination with one or more target businesses that together have an aggregate fair market value of at least 80% of the assets held in the Trust Account (excluding the deferred underwriting commissions and taxes payable on interest earned on the Trust Account) at the time of the agreement to enter into a Business Combination. The Company will only complete a Business Combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act 1940, as amended (the “Investment Company Act”).

The Company will provide its holders of the outstanding Public Shares (the “Public Stockholders”) with the opportunity to redeem all or a portion of their Public Shares upon the completion of a Business Combination either (i) in connection with a stockholder meeting called to approve the Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek stockholder approval of a Business Combination or conduct a tender offer will be made by the Company, solely in its discretion. The Public Stockholders will be entitled to redeem their Public Shares for a pro rata portion of the amount then in the Trust Account (initially anticipated to be \$10.00 per Public Share, plus any pro rata interest earned on the funds held in the Trust Account and not previously released to the Company to pay its tax obligations). The per-share amount to be distributed to Public Stockholders who redeem their Public Shares will not be reduced by the deferred underwriting commissions the Company will pay to the underwriters (as discussed in Note 6). There will be no redemption rights upon the completion of a Business Combination with respect to the Company’s warrants.

The Company will proceed with a Business Combination if the Company has net tangible assets of at least \$5,000,001 immediately prior to or upon such consummation of a Business Combination and, if the Company seeks stockholder approval, a majority of the shares voted are voted in favor of the Business Combination. If a stockholder vote is not required by law and the Company does not decide to hold a stockholder vote for business or other legal reasons, the Company will, pursuant to its Certificate of Incorporation (the “Certificate of Incorporation”), conduct the redemptions pursuant to the tender offer rules of the U.S. Securities and Exchange Commission (“SEC”) and file tender offer documents with the SEC prior to completing a Business Combination. If, however, stockholder approval of the transactions is required by law, or the Company decides to obtain stockholder approval for business or legal reasons, the Company will offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If the Company seeks stockholder approval in connection with a Business Combination, the Company’s Sponsor, officers and directors (the “Initial Stockholders”) have agreed to vote their Founder Shares (as defined in Note 5) and any Public Shares purchased during or after the Initial Public Offering in favor of approving a Business Combination. Additionally, each Public Stockholder may elect to redeem their Public Shares irrespective of whether they vote for or against the proposed transaction.

If the Company seeks stockholder approval of a Business Combination and it does not conduct redemptions pursuant to the tender offer rules, the Certificate of Incorporation provides that a Public Stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”)), will be restricted from redeeming its shares with respect to more than an aggregate of 10% or more of the Public Shares, without the prior consent of the Company.

The Sponsor has agreed (a) to waive its redemption rights with respect to any Founder Shares and Public Shares held by it in connection with the completion of a Business Combination and in connection with a stockholder vote to approve an amendment to our amended and restated certificate of incorporation (1) to modify the substance or timing of the Company’s obligation to redeem 100% of its Public Shares if it does not complete a Business Combination by November 22, 2021 or (2) with respect to any other provision relating to stockholders’ rights or pre-Business Combination activity and (b) not to propose an amendment to the Certificate of Incorporation (i) that would modify the substance or timing of the Company’s obligation to redeem 100% of its Public Shares if the Company does not complete a Business Combination by November 22, 2021 or (ii) with respect to any other provision relating to stockholders’ rights or pre-initial business combination activity, unless the Company provides the Public Stockholders with the opportunity to redeem their Public Shares in conjunction with any such amendment.

The Company will have until November 22, 2021 to complete a Business Combination (the “Combination Period”). If the Company is unable to complete a Business Combination within the Combination Period, the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account including interest earned on the funds held in the Trust Account and not previously released to the Company to pay its tax obligations (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding Public Shares, which redemption will completely extinguish Public Stockholders’ rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the Company’s remaining stockholders and the Company’s board of directors, dissolve and liquidate, subject in each case to the Company’s obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to the Company’s warrants, which will expire worthless if the Company fails to complete a Business Combination within the Combination Period.

The Initial Stockholders have agreed to waive their liquidation rights with respect to the Founder Shares if the Company fails to complete a Business Combination within the Combination Period. However, if the Initial Stockholders or any of their respective affiliates acquire Public Shares after the Initial Public Offering, such Public Shares will be entitled to liquidating distributions from the Trust Account if the Company fails to complete a Business Combination within the Combination Period. The underwriters have agreed to waive their rights to their deferred underwriting commission (see Note 6) held in the Trust Account in the event the Company does not complete a Business Combination within the Combination Period and, in such event, such amounts will be included with the other funds held in the Trust Account that will be available to fund the redemption of the Public Shares. In the event of such distribution, it is possible that the per share value of the assets remaining available for distribution will be less than the Initial Public Offering price per Unit (\$10.00).

In order to protect the amounts held in the Trust Account, the Sponsor has agreed to be liable to the Company if and to the extent any claims by a third party for services rendered or products sold to the Company, or a prospective target business with which the Company has discussed entering into a transaction agreement, reduce the amount of funds in the Trust Account to below (i) \$10.00 per Public Share or (ii) such lesser amount per Public Share held in the Trust Account as of the date of the liquidation of the Trust Account due to reductions in the value of the trust assets, in each case net of the interest which may be withdrawn to pay taxes. This liability will not apply with respect to any claims by a third party who executed a waiver of any and all rights to seek access to the Trust Account and except as to any claims under the Company's indemnity of the underwriters of the Initial Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the "Securities Act"). Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, the Sponsor will not be responsible to the extent of any liability for such third-party claims. The Company will seek to reduce the possibility that the Sponsor will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers (except the Company's independent registered public accounting firm), prospective target businesses or other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements are presented in conformity with accounting principles generally accepted in the United States of America ("GAAP") and pursuant to the rules and regulations of the SEC.

Emerging Growth Company

The Company is an "emerging growth company," as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the "JOBS Act"), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company's financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future events. Accordingly, the actual results could differ significantly from those estimates.

Common Stock Subject to Possible Redemption

The Company accounts for its common stock subject to possible redemption in accordance with the guidance in Accounting Standards Codification (“ASC”) Topic 480 “Distinguishing Liabilities from Equity.” Common stock subject to mandatory redemption is classified as a liability instrument and is measured at fair value. Conditionally redeemable common stock (including common stock that features redemption rights that is either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company’s control) is classified as temporary equity. At all other times, common stock is classified as stockholders’ equity. The Company’s common stock features certain redemption rights that are considered to be outside of the Company’s control and subject to occurrence of uncertain future events. Accordingly, at December 31, 2019, the 9,308,227 shares of common stock subject to possible redemption is presented as temporary equity, outside of the stockholders’ equity section of the Company’s balance sheet.

Offering Costs

Offering costs consist of legal, accounting, underwriting fees and other costs incurred through the balance sheet date that are directly related to the Initial Public Offering. Offering costs amounting to \$5,944,772 were charged to stockholders’ equity upon the completion of the Initial Public Offering.

Income Taxes

The Company accounts for income taxes under ASC 740, “Income Taxes” (“ASC 740”). ASC 740 requires the recognition of deferred tax assets and liabilities for both the expected impact of differences between the financial statement and tax basis of assets and liabilities and for the expected future tax benefit to be derived from tax loss and tax credit carry forwards. ASC 740 additionally requires a valuation allowance to be established when it is more likely than not that all or a portion of deferred tax assets will not be realized.

ASC 740 also clarifies the accounting for uncertainty in income taxes recognized in an enterprise’s financial statement and prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. There were no unrecognized tax benefits and no amounts accrued for interest and penalties as of December 31, 2019. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company is subject to income tax examinations by major taxing authorities since inception.

Net Income (Loss) Per Common Share

Net income (loss) per common share is computed by dividing net income (loss) by the weighted average number of common shares outstanding for the period. The Company has not considered the effect of warrants sold in the Initial Public Offering and private placement to purchase 9,000,000 shares of Class A common stock in the calculation of diluted income (loss) per share, since the exercise of the warrants are contingent upon the occurrence of future events and the inclusion of such warrants would be anti-dilutive.

The Company's statement of operations includes a presentation of income (loss) per share for common shares subject to redemption in a manner similar to the two-class method of income per share. Net income per common share, basic and diluted for Class A redeemable common stock is calculated by dividing the interest income earned on the Trust Account, net of applicable franchise and income taxes of approximately \$94,000 for the period from August 13, 2019 (inception) through December 31, 2019, by the weighted average number of Class A redeemable common stock since issuance. Net loss per common share, basic and diluted for Class B non-redeemable common stock is calculated by dividing the net income (loss), less income attributable to Class A redeemable common stock, by the weighted average number of Class B non-redeemable common stock outstanding for the period. Class B non-redeemable common stock includes the Founder Shares as these shares do not have any redemption features and do not participate in the income earned on the Trust Account.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of a cash account in a financial institution, which, at times, may exceed the Federal Depository Insurance Coverage of \$250,000. At December 31, 2019, the Company has not experienced losses on this account and management believes the Company is not exposed to significant risks on such account.

Financial Instruments

The fair value of the Company's assets and liabilities, which qualify as financial instruments under ASC Topic 820, "Fair Value Measurements and Disclosures," approximates the carrying amounts represented in the accompanying balance sheet, primarily due to their short-term nature.

Recent Accounting Pronouncements

In July 2017, the FASB issued Accounting Standards Update ("ASU") 2017-11, Earnings Per Share (Topic 260), Distinguishing Liabilities from Equity (Topic 480) and Derivatives and Hedging (Topic 815): Part I. Accounting for Certain Financial Instruments with Down Round Features; Part II. Replacement of the Indefinite Deferral for Mandatorily Redeemable Financial Instruments of Certain Nonpublic Entities and Certain Mandatorily Redeemable Noncontrolling Interests with a Scope Exception. Part I of this update addresses the complexity of accounting for certain financial instruments with down round features. Down round features are features of certain equity-linked instruments (or embedded features) that result in the strike price being reduced on the basis of the pricing of future equity offerings. Also, entities must adjust their basic Earnings Per Share ("EPS") calculation for the effect of the down round provision when triggered (that is, when the exercise price of the related equity-linked financial instrument is adjusted downward because of the down round feature). That effect is treated as a dividend and as a reduction of income available to common stockholders in basic EPS. An entity will also recognize the effect of the trigger within equity. The guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. The adoption of this guidance enabled the Company to record the warrants as equity instruments and is not expected to have a material impact on the Company's financial position, results of operations, cash flows or disclosures moving forward until a trigger event occurs. Part II of this update addresses the difficulty of navigating Topic 480, Distinguishing Liabilities from Equity, because of the existence of extensive pending content in the FASB Accounting Standards Codification. This pending content is the result of the indefinite deferral of accounting requirements about mandatorily redeemable financial instruments of certain non-public entities and certain mandatorily redeemable noncontrolling interests. The amendments in Part II of this update are not expected to have an impact on the Company.

Management does not believe that any other recently issued, but not yet effective, accounting pronouncements, if currently adopted, would have a material effect on the Company's financial statements.

NOTE 3. INITIAL PUBLIC OFFERING

Pursuant to the Initial Public Offering, the Company sold 10,000,000 Units at a price of \$10.00 per Unit. Each Unit consists of one share of Class A common stock and one-half of one redeemable warrant (“Public Warrant”). Each whole Public Warrant will entitle the holder to purchase one share of Class A common stock at a price of \$11.50 per share, subject to adjustment (see Note 7).

NOTE 4. PRIVATE PLACEMENT

Simultaneously with the closing of the Initial Public Offering, the Sponsor purchased an aggregate of 4,000,000 Private Placement Warrants at a price of \$1.00 per Private Placement Warrant, for an aggregate purchase price of \$4,000,000. The Sponsor has agreed to purchase up to a total of 4,300,000 Private Placement Warrants, for an aggregate purchase price of \$4,300,000, if the over-allotment option is exercised in full by the underwriters. Each Private Placement Warrant will be exercisable to purchase one share of Class A common stock at a price of \$11.50 per share. A portion of the proceeds from the Private Placement Warrants were added to the proceeds from the Initial Public Offering held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period, the proceeds of the sale of the Private Placement Warrants will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law), and the Private Placement Warrants will expire worthless. There will be no redemption rights or liquidating distributions from the Trust Account with respect to the Placement Warrants.

NOTE 5. RELATED PARTY TRANSACTIONS

Founder Shares

In August 2019, the Sponsor purchased 2,875,000 shares (the “Founder Shares”) of the Company’s Class B common stock for an aggregate consideration of \$25,000. The Founder Shares will automatically convert into Class A common stock upon consummation of a Business Combination on a one-for-one basis, subject to certain adjustments, as described in Note 7.

The Founder Shares included an aggregate of up to 375,000 shares subject to forfeiture to the extent that the underwriters’ over-allotment option is not exercised in full or in part, so that the Initial Stockholders will own, on an as-converted basis, 20% of the Company’s issued and outstanding shares after the Initial Public Offering (assuming the Initial Stockholders did not purchase any Public Shares in the Initial Public Offering). On January 6, 2020, the underwriters’ election to exercise their over-allotment option expired unexercised, resulting in the forfeiture of 375,000 shares. Accordingly, as of January 6, 2020, there are 2,500,000 Founder Shares issued and outstanding.

The Initial Stockholders have agreed, subject to limited exceptions, not to transfer, assign or sell any of their Founder Shares until the earlier to occur of: (A) 180 days after the completion of a Business Combination or (B) subsequent to a Business Combination, the date on which the Company completes a liquidation, merger, capital stock exchange, reorganization or other similar transaction that results in all of the Company’s Public Stockholders having the right to exchange their shares of common stock for cash, securities or other property.

Promissory Note — Related Party

On August 23, 2019, the Sponsor agreed to loan the Company an aggregate of up to \$300,000 to cover expenses related to the Initial Public Offering (the “Promissory Note”). The Promissory Note was non-interest bearing and payable on the earlier of March 31, 2020 or the completion of the Initial Public Offering. The borrowings outstanding under the Promissory Note of \$183,876 were repaid upon the consummation of the Initial Public Offering on November 22, 2019.

Related Party Loans

In addition, in order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of the Company's officers and directors may, but are not obligated to, loan the Company funds as may be required ("Working Capital Loans"). If the Company completes a Business Combination, the Company would repay the Working Capital Loans out of the proceeds of the Trust Account released to the Company. Otherwise, the Working Capital Loans would be repaid only out of funds held outside the Trust Account. In the event that a Business Combination does not close, the Company may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loans but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans. The Working Capital Loans would either be repaid upon consummation of a Business Combination, without interest, or, at the lender's discretion, up to \$1,500,000 of such Working Capital Loans may be convertible into warrants of the post Business Combination entity at a price of \$1.00 per warrant. The warrants would be identical to the Private Placement Warrants. As of December 31, 2019, no Working Capital Loans were outstanding.

NOTE 6. COMMITMENTS AND CONTINGENCIES

Registration Rights

Pursuant to a registration rights agreement entered into on November 19, 2019, holders of the Founder Shares, Private Placement Warrants and warrants that may be issued upon conversion of Working Capital Loans (and any shares of Class A common stock issuable upon the exercise of the Private Placement Warrants and warrants that may be issued upon conversion of Working Capital Loans and upon conversion of the Founder Shares) are entitled to registration rights, requiring the Company to register such securities for resale (in the case of the Founder Shares, only after conversion to Class A common stock). The holders of the majority of these securities will be entitled to make up to three demands, excluding short form demands, that the Company register such securities. In addition, the holders have certain "piggy-back" registration rights with respect to registration statements filed subsequent to the completion of a Business Combination and rights to require the Company to register for resale such securities pursuant to Rule 415 under the Securities Act. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

Underwriting Agreement

The Company granted the underwriters a 45-day option from the date of Initial Public Offering to purchase up to 1,500,000 additional Units to cover over-allotments, if any, at the Initial Public Offering price less the underwriting discounts and commissions. On January 6, 2020, the underwriters' election to exercise their over-allotment option expired unexercised.

The underwriters were paid a cash underwriting discount of \$0.20 per Unit, or \$2,000,000 in the aggregate. The underwriters are entitled to a deferred fee of \$0.35 per Unit, or \$3,500,000 in the aggregate. A portion of such amount may be paid to third parties not participating in Initial Public Offering (but who are members of FINRA) that assist the Company in consummating a Business Combination. The election to make such payments to third parties will be solely at the discretion of the Company's management team, and such third parties will be selected by the management team in their sole and absolute discretion; provided, that no single third party (together with its affiliates) may be paid an amount in excess of the portion of the aggregate deferred underwriting commission paid to the underwriters unless the parties otherwise agree. The deferred fee will become payable to the underwriters from the amounts held in the Trust Account solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement.

NOTE 7. STOCKHOLDERS' EQUITY

Preferred Stock — The Company is authorized to issue 1,000,000 shares of preferred stock with a par value of \$0.0001 per share with such designations, voting and other rights and preferences as may be determined from time to time by the Company's board of directors. At December 31, 2019, there were no shares of preferred stock issued or outstanding.

Class A Common Stock — The Company is authorized to issue 100,000,000 shares of Class A common stock with a par value of \$0.0001 per share. Holders of Class A common stock are entitled to one vote for each share. At December 31, 2019, there were 691,773 shares of Class A common stock issued or outstanding, excluding 9,308,227 shares of Class A common stock subject to possible redemption.

Class B Common Stock — The Company is authorized to issue 10,000,000 shares of Class B common stock with a par value of \$0.0001 per share. Holders of Class B common stock are entitled to one vote for each share. At December 31, 2019, there were 2,875,000 shares of Class B common stock issued and outstanding, of which an aggregate of up to 375,000 shares were subject to forfeiture (see Note 10).

Holders of Class B common stock will have the right to elect all of the Company’s directors prior to a Business Combination. Holders of Class A common stock and Class B common stock will vote together as a single class on all other matters submitted to a vote of stockholders, except as required by law.

The shares of Class B common stock will automatically convert into shares of Class A common stock at the closing of a Business Combination on a one-for-one basis, subject to adjustment. In the case that additional shares of Class A common stock, or equity-linked securities, are issued or deemed issued in excess of the amounts offered in the Initial Public Offering and related to the closing of a Business Combination, the ratio at which shares of Class B common stock shall convert into shares of Class A common stock will be adjusted (unless the holders of a majority of the outstanding shares of Class B common stock agree to waive such adjustment with respect to any such issuance or deemed issuance) so that the number of shares of Class A common stock issuable upon conversion of all shares of Class B common stock will equal, in the aggregate, on an as-converted basis, 20% of the sum of the total number of all shares of common stock outstanding upon the completion of the Initial Public Offering plus all shares of Class A common stock and equity-linked securities issued or deemed issued in connection with a Business Combination (excluding any shares or equity-linked securities issued, or to be issued, to any seller in a Business Combination). Holders of Founder Shares may also elect to convert their shares of Class B common stock into an equal number of shares of Class A common stock, subject to adjustment as provided above, at any time.

Warrants — Public Warrants may only be exercised for a whole number of shares. No fractional warrants will be issued upon separation of the Units and only whole warrants will trade. The Public Warrants will become exercisable on the later of (a) 30 days after the completion of a Business Combination or (b) 12 months from the closing of the Initial Public Offering. The Public Warrants will expire five years after the completion of a Business Combination or earlier upon redemption or liquidation.

The Company will not be obligated to deliver any shares of Class A common stock pursuant to the exercise of a warrant and will have no obligation to settle such warrant exercise unless a registration statement under the Securities Act with respect to the shares of Class A common stock underlying the warrants is then effective and a prospectus relating thereto is current, subject to the Company satisfying its obligations with respect to registration. No warrant will be exercisable and the Company will not be obligated to issue any shares of Class A common stock upon exercise of a warrant unless Class A common stock issuable upon such warrant exercise has been registered, qualified or deemed to be exempt under the securities laws of the state of residence of the registered holder of the warrants.

The Company has agreed that as soon as practicable, but in no event later than 15 business days, after the closing of a Business Combination, the Company will use its best efforts to file, and within 60 business days following a Business Combination to have declared effective, a registration statement for the registration, under the Securities Act, of the shares of Class A common stock issuable upon exercise of the warrants. The Company will use its reasonable best efforts to maintain the effectiveness of such registration statement, and a current prospectus relating thereto, until the expiration of the warrants in accordance with the provisions of the warrant agreement. Notwithstanding the above, if the Class A common stock is at the time of any exercise of a warrant not listed on a national securities exchange such that it satisfies the definition of a “covered security” under Section 18(b)(1) of the Securities Act, the Company may, at its option, require holders of Public Warrants who exercise their warrants to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event the Company so elects, the Company will not be required to file or maintain in effect a registration statement, but will be required to use its best efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

Once the warrants become exercisable, the Company may redeem the Public Warrants:

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon not less than 30 days' prior written notice of redemption to each warrant holder; and
- if, and only if, the reported last sale price of the Company's Class A common stock equals or exceeds \$18.00 per share for any 20 trading days within a 30-trading day period ending three business days before the Company sends the notice of redemption to each warrant holder.

If and when the warrants become redeemable by the Company, the Company may exercise its redemption right even if it is unable to register or qualify the underlying securities for sale under all applicable state securities laws.

If the Company calls the Public Warrants for redemption, management will have the option to require all holders that wish to exercise the Public Warrants to do so on a "cashless basis," as described in the warrant agreement. The exercise price and number of shares of Class A common stock issuable upon exercise of the warrants may be adjusted in certain circumstances including in the event of a stock dividend, or recapitalization, reorganization, merger or consolidation. However, the warrants will not be adjusted for issuance of Class A common stock at a price below its exercise price, except as discussed below. Additionally, in no event will the Company be required to net cash settle the warrants. If the Company is unable to complete a Business Combination within the Combination Period and the Company liquidates the funds held in the Trust Account, holders of warrants will not receive any of such funds with respect to their warrants, nor will they receive any distribution from the Company's assets held outside of the Trust Account with the respect to such warrants. Accordingly, the warrants may expire worthless.

In addition, if (x) the Company issues additional shares of Class A common stock or equity-linked securities for capital raising purposes in connection with the closing of a Business Combination at an issue price or effective issue price of less than \$9.20 per share of Class A common stock (with such issue price or effective issue price to be determined in good faith by the Company's board of directors and, in the case of any such issuance to the sponsor or its affiliates, without taking into account any Founder Shares held by the sponsor or such affiliates, as applicable, prior to such issuance) (the "Newly Issued Price"), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of a Business Combination on the date of the consummation of a Business Combination (net of redemptions), and (z) the volume weighted average trading price of the Company's Class A common stock during the 20 trading day period starting on the trading day prior to the day on which the Company consummates a Business Combination (such price, the "Market Value") is below \$9.20 per share, then the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$18.00 per share redemption trigger price will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price.

The Private Placement Warrants are identical to the Public Warrants underlying the Units sold in the Initial Public Offering, except that the Private Placement Warrants and the Class A common stock issuable upon the exercise of the Private Placement Warrants will not be transferable, assignable or saleable until 30 days after the completion of a Business Combination, subject to certain limited exceptions. Additionally, the Placement Warrants will be exercisable on a cashless basis and be non-redeemable so long as they are held by the initial purchasers or their permitted transferees. If the Private Placement Warrants are held by someone other than the initial purchasers or their permitted transferees, the Private Placement Warrants will be redeemable by the Company and exercisable by such holders on the same basis as the Public Warrants.

NOTE 8. INCOME TAX

The Company's net deferred tax assets are as follows:

	December 31, 2019
Deferred tax asset	
Organizational costs/Startup expenses	\$ 12,389
Total deferred tax asset	12,389
Valuation allowance	(12,389)
Deferred tax asset, net of allowance	\$ —

The income tax provision consists of the following:

	December 31, 2019
Federal	
Current	\$ 16,225
Deferred	(12,389)
State	
Current	—
Deferred	—
Change in valuation allowance	12,389
Income tax provision	\$ 16,225

As of December 31, 2019, the Company did not have any U.S. federal and state net operating loss carryovers available to offset future taxable income.

In assessing the realization of the deferred tax assets, management considers whether it is more likely than not that some portion of all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which temporary differences representing net future deductible amounts become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. After consideration of all of the information available, management believes that significant uncertainty exists with respect to future realization of the deferred tax assets and has therefore established a full valuation allowance. For the period from August 13, 2019 (inception) through December 31, 2019, the change in the valuation allowance was \$12,389.

A reconciliation of the federal income tax rate to the Company's effective tax rate at December 31, 2019 is as follows:

Statutory federal income tax rate	21.0%
State taxes, net of federal tax benefit	0.0%
Change in valuation allowance	67.8%
Income tax provision	88.8%

The Company files income tax returns in the U.S. federal jurisdiction in various state and local jurisdictions and is subject to examination by the various taxing authorities.

NOTE 9. FAIR VALUE MEASUREMENTS

At December 31, 2019, assets held in the Trust Account were comprised of \$100,154,572 in money market funds which are invested in U.S. Treasury Securities.

The fair value of the Company's financial assets and liabilities reflects management's estimate of amounts that the Company would have received in connection with the sale of the assets or paid in connection with the transfer of the liabilities in an orderly transaction between market participants at the measurement date. In connection with measuring the fair value of its assets and liabilities, the Company seeks to maximize the use of observable inputs (market data obtained from independent sources) and to minimize the use of unobservable inputs (internal assumptions about how market participants would price assets and liabilities). The following fair value hierarchy is used to classify assets and liabilities based on the observable inputs and unobservable inputs used in order to value the assets and liabilities:

- Level 1: Quoted prices in active markets for identical assets or liabilities. An active market for an asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2: Observable inputs other than Level 1 inputs. Examples of Level 2 inputs include quoted prices in active markets for similar assets or liabilities and quoted prices for identical assets or liabilities in markets that are not active.
- Level 3: Unobservable inputs based on our assessment of the assumptions that market participants would use in pricing the asset or liability.

The following table presents information about the Company's assets that are measured at fair value on a recurring basis at December 31, 2019 and indicates the fair value hierarchy of the valuation inputs the Company utilized to determine such fair value:

Description	Level	December 31, 2019
Assets:		
Marketable securities held in Trust Account – U.S. Treasury Securities Money Market Fund	1	\$ 100,154,572

NOTE 10. SUBSEQUENT EVENTS

The Company evaluated subsequent events and transactions that occurred after the balance sheet date up to the date that the financial statements were issued. Other than as described below, the Company did not identify any subsequent events that would have required adjustment or disclosure in the financial statements.

On January 6, 2020, the underwriters' election to exercise their over-allotment option expired unexercised, resulting in the forfeiture of 375,000 shares. Accordingly, as of January 6, 2020, there are 2,500,000 Founder Shares issued and outstanding.

Management is currently evaluating the impact of the COVID-19 pandemic on the industry and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's financial position, results of its operations and/or search for a target company, the specific impact is not readily determinable as of the date of these financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

**DESCRIPTION OF THE REGISTRANT'S SECURITIES
REGISTERED PURSUANT TO SECTION 12 OF THE SECURITIES
EXCHANGE ACT OF 1934, AS AMENDED**

As of December 31, 2019, Amplitude Healthcare Acquisition Corporation (“we,” “our,” “us” or the “Company”) had the following three classes of securities registered under Section 12 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”): (i) its Class A common stock, \$0.0001 par value per share (“Class A common stock”), (ii) its warrants, exercisable for one share of class A common stock for \$11.50 per share, and (iii) its units, consisting of one share of Class A common stock and one-half of one redeemable warrant. In addition, this Description of Securities also contains a description of the Company’s Class B common stock, par value \$0.0001 per share (the “Class B common stock” or “founder shares”), which is not registered pursuant to Section 12 of the Exchange Act but is convertible into shares of the Class A common stock. The description of the Class B common stock is necessary to understand the material terms of the Class A common stock.

Pursuant to our amended and restated certificate of incorporation, as amended, our authorized capital stock consists of 100,000,000 shares of Class A common stock, \$0.0001 par value, 10,000,000 shares of Class B common stock, \$0.0001 par value, and 1,000,000 shares of undesignated preferred stock, \$0.0001 par value. The following description summarizes the material terms of our capital stock.

Defined terms used herein and not defined herein shall have the meaning ascribed to such terms in the Company’s Annual Report on Form 10-K.

Units

Each unit consists of one whole share of Class A common stock and one-half of one redeemable warrant. Each whole warrant entitles the holder thereof to purchase one share of our Class A common stock at a price of \$11.50 per share, subject to adjustment. Pursuant to the warrant agreement, a warrant holder may exercise its warrants only for a whole number of shares of Class A common stock.

Common Stock

Common stockholders of record are entitled to one vote for each share held on all matters to be voted on by stockholders. Holders of the Class A common stock and holders of the Class B common stock will vote together as a single class on all matters submitted to a vote of our stockholders, except as required by law. Unless specified in our amended and restated certificate of incorporation, as amended, or bylaws, or as required by applicable provisions of the DGCL or applicable stock exchange rules, the affirmative vote of a majority of our shares of common stock that are voted is required to approve any such matter voted on by our stockholders. Our board of directors is divided into three classes, each of which will generally serve for a term of three years with only one class of directors being elected in each year. There is no cumulative voting with respect to the election of directors, with the result that the holders of more than 50% of the shares voted for the election of directors can elect all of the directors. Our stockholders are entitled to receive ratable dividends when, as and if declared by the board of directors out of funds legally available therefor.

We will provide our stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account as of two business days prior to the consummation of our initial business combination including interest earned on the funds held in the trust account and not previously released to us to pay our taxes, divided by the number of then outstanding public shares, subject to the limitations described herein. The per-share amount we will distribute to investors who properly redeem their shares will not be reduced by the deferred underwriting commissions we will pay to the underwriters. Our sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to any founder shares and any public shares held by them in connection with the completion of our initial business combination. Unlike many blank check companies that hold stockholder votes and conduct proxy solicitations in conjunction with their initial business combinations and provide for related redemptions of public shares for cash upon completion of such initial business combinations even when a vote is not required by law, if a stockholder vote is not required by law and we do not decide to hold a stockholder vote for business or other legal reasons, we will, pursuant to our amended and restated certificate of incorporation, as amended, conduct the redemptions pursuant to the tender offer rules of the SEC, and file tender offer documents with the SEC prior to completing our initial business combination. Our amended and restated certificate of incorporation, as amended, requires these tender offer documents to contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under the SEC’s proxy rules. If, however, a stockholder approval of the transaction is required by law, or we decide to obtain stockholder approval for business or other legal reasons, we will, like many blank check companies, offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If we seek stockholder approval, we will complete our initial business combination only if a majority of the outstanding shares of common stock voted are voted in favor of the initial business combination. A quorum for such meeting will consist of the holders present in person or by proxy of shares of outstanding capital stock of the company representing a majority of the voting power of all outstanding shares of capital stock of the company entitled to vote at such meeting.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation, as amended, provides that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the shares of Class A common stock sold in our initial public offering, which we refer to as the Excess Shares. However, we would not be restricting our stockholders’ ability to vote all of their shares (including Excess Shares) for or against our initial business combination. Our stockholders’ inability to redeem the Excess Shares will reduce their influence over our ability to complete our initial business combination, and such stockholders could suffer a material loss in their investment if they sell such Excess Shares on the open market. Additionally, such stockholders will not receive redemption distributions with respect to the Excess Shares if we complete the initial business combination. And, as a result, such stockholders will continue to hold that number of shares exceeding 15% and, in order to dispose such shares would be required to sell their stock in open market transactions, potentially at a loss.

In the event of a liquidation, dissolution or winding up of the company after an initial business combination, our stockholders are entitled to share ratably in all assets remaining available for distribution to them after payment of liabilities and after provision is made for each class of stock, if any, having preference over the common stock. Our stockholders have no preemptive or other subscription rights. There are no sinking fund provisions applicable to the common stock, except that we will provide our stockholders with the opportunity to redeem their public shares for cash equal to their pro rata share of the aggregate amount then on deposit in the trust account, upon the completion of our initial business combination, subject to the limitations described herein.

Founder Shares

The founder shares are identical to the shares of Class A common stock, and holders of founder shares have the same stockholder rights as public stockholders, except that (i) the founder shares are subject to certain transfer restrictions, as described in more detail below, (ii) our sponsor, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed (A) to waive their redemption rights with respect to any founder shares and any public shares held by them in connection with the completion of our initial business combination, (B) to waive their redemption rights with respect to their founder shares and public shares in connection with a stockholder vote to approve an amendment to our amended and restated certificate of incorporation, as amended, (x) to modify the substance or timing of our obligation to redeem 100% of our public shares if we do not complete our initial business combination within the timeframe set forth in our amended and restated certificate of incorporation, as amended, or (y) with respect to any other provision relating to stockholders’ rights or pre-initial business combination activity and (C) to waive their rights to liquidating distributions from the trust account with respect to any founder shares held by them if we fail to complete our initial business combination within the timeframe set forth in our amended and restated certificate of incorporation, as amended, although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our initial business combination within such time period, (iii) the founder shares are shares of our Class B common stock that will automatically convert into shares of our Class A common stock at the time of our initial business combination, or at any time prior thereto at the option of the holder, on a one-for-one basis, subject to adjustment as described herein, and (iv) are entitled to registration rights. If we submit our initial business combination to our public stockholders for a vote, our sponsor, officers and directors have agreed pursuant to the letter agreement to vote any founder shares held by them and any public shares purchased (including in open market and privately negotiated transactions) in favor of our initial business combination.

The shares of Class B common stock will automatically convert into shares of Class A common stock at the time of our initial business combination on a one-for-one basis (subject to adjustment for stock splits, stock dividends, reorganizations, recapitalizations and the like), and subject to further adjustment as provided herein. In the case that additional shares of Class A common stock, or equity-linked securities, are issued or deemed issued in excess of the amounts offered in our initial public offering and related to the closing of the initial business combination, including pursuant to a specified future issuance, the ratio at which shares of Class B common stock shall convert into shares of Class A common stock will be adjusted (unless the holders of a majority of the outstanding shares of Class B common stock agree to waive such adjustment with respect to any such issuance or deemed issuance, including a specified future issuance) so that the number of shares of Class A common stock issuable upon conversion of all shares of Class B common stock will equal, in the aggregate, on an as-converted basis, 20% of the sum of the total number of all shares of common stock outstanding upon completion of our initial public offering plus all shares of Class A common stock and equity-linked securities issued or deemed issued in connection with the initial business combination (excluding any shares or equity-linked securities issued, or to be issued, to any seller in the initial business combination, any private placement-equivalent warrants issued to our sponsor or its affiliates upon conversion of loans made to us). Holders of founder shares may also elect to convert their shares of Class B common stock into an equal number of shares of Class A common stock, subject to adjustment as provided above, at any time. The term “equity-linked securities” refers to any debt or equity securities that are convertible, exercisable or exchangeable for shares of Class A common stock issued in a financing transaction in connection with our initial business combination, including but not limited to a private placement of equity or debt. Securities could be “deemed issued” for purposes of the conversion rate adjustment if such shares are issuable upon the conversion or exercise of convertible securities, warrants or similar securities.

With certain limited exceptions, the founder shares are not transferable, assignable or salable (except to our officers and directors and other persons or entities affiliated with our sponsor, each of whom will be subject to the same transfer restrictions) until the earlier of (A) one year after the completion of our initial business combination or (B) subsequent to our initial business combination, (x) if the last sale price of our Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, or (y) the date on which we complete a liquidation, merger, capital stock exchange, reorganization or other similar transaction that results in all of our stockholders having the right to exchange their shares of common stock for cash, securities or other property.

Redeemable Warrants

Each warrant entitles the registered holder to purchase one share of our Class A common stock at a price of \$11.50 per share, subject to adjustment as discussed below, at any time commencing 30 days after the completion of our initial business combination. The warrants will expire five years after the completion of our initial business combination, at 5:00 p.m., New York City time, or earlier upon redemption or liquidation.

We will not be obligated to deliver any shares of Class A common stock pursuant to the exercise of a warrant and will have no obligation to settle such warrant exercise unless a registration statement under the Securities Act with respect to the shares of Class A common stock underlying the warrants is then effective and a prospectus relating thereto is current, subject to our satisfying our obligations described below with respect to registration. No warrant will be exercisable and we will not be obligated to issue shares of Class A common stock upon exercise of a warrant unless Class A common stock issuable upon such warrant exercise has been registered, qualified or deemed to be exempt under the securities laws of the state of residence of the registered holder of the warrants. In the event that the conditions in the two immediately preceding sentences are not satisfied with respect to a warrant, the holder of such warrant will not be entitled to exercise such warrant and such warrant may have no value and expire worthless. In no event will we be required to net cash settle any warrant. In the event that a registration statement is not effective for the exercised warrants, the purchaser of a unit containing such warrant will have paid the full purchase price for the unit solely for the share of Class A common stock underlying such unit.

We have agreed that as soon as practicable, but in no event later than 15 business days after the closing of our initial business combination, we will use our best efforts to file with the SEC a registration statement covering the shares of Class A common stock issuable upon exercise of the warrants, to cause such registration statement to become effective and to maintain a current prospectus relating to those shares of Class A common stock until the warrants expire or are redeemed, as specified in the warrant agreement. If a registration statement covering the shares of Class A common stock issuable upon exercise of the warrants is not effective by the 60th business day after the closing of our initial business combination, warrant holders may, until such time as there is an effective registration statement and during any period when we will have failed to maintain an effective registration statement, exercise warrants on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act or another exemption. Notwithstanding the above, if our Class A common stock is at the time of any exercise of a warrant not listed on a national securities exchange such that it satisfies the definition of a “covered security” under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of public warrants who exercise their warrants to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event we so elect, we will not be required to file or maintain in effect a registration statement, and in the event we do not so elect, we will use our best efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

Once the warrants become exercisable, we may call the warrants for redemption:

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon not less than 30 days’ prior written notice of redemption (the “30-day redemption period”) to each warrant holder; and
- if, and only if, the reported last sale price of the Class A common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within a 30-trading day period ending three business days before we send the notice of redemption to the warrant holders.

If and when the warrants become redeemable by us, we may not exercise our redemption right if the issuance of shares of Class A common stock upon exercise of the warrants is not exempt from registration or qualification under applicable state blue sky laws or we are unable to effect such registration or qualification. We will use our best efforts to register or qualify such shares of common stock under the blue sky laws of the state of residence in those states in which the warrants were offered by us in our initial public offering.

We have established the last of the redemption criterion discussed above to prevent a redemption call unless there is at the time of the call a significant premium to the warrant exercise price. If the foregoing conditions are satisfied and we issue a notice of redemption of the warrants, each warrant holder will be entitled to exercise its warrant prior to the scheduled redemption date. However, the price of the Class A common stock may fall below the \$18.00 redemption trigger price (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) as well as the \$11.50 warrant exercise price after the redemption notice is issued.

If we call the warrants for redemption as described above, our management will have the option to require any holder that wishes to exercise its warrant to do so on a “cashless basis.” In determining whether to require all holders to exercise their warrants on a “cashless basis,” our management will consider, among other factors, our cash position, the number of warrants that are outstanding and the dilutive effect on our stockholders of issuing the maximum number of shares of Class A common stock issuable upon the exercise of our warrants. If our management takes advantage of this option, all holders of warrants would pay the exercise price by surrendering their warrants for that number of shares of Class A common stock equal to the quotient obtained by dividing (x) the product of the number of shares of Class A common stock underlying the warrants, multiplied by the difference between the exercise price of the warrants and the “fair market value” (defined below) by (y) the fair market value. The “fair market value” shall mean the average reported last sale price of the Class A common stock for the 10 trading days ending on the third trading day prior to the date on which the notice of redemption is sent to the holders of warrants. If our management takes advantage of this option, the notice of redemption will contain the information necessary to calculate the number of shares of Class A common stock to be received upon exercise of the warrants, including the “fair market value” in such case. Requiring a cashless exercise in this manner will reduce the number of shares to be issued and thereby lessen the dilutive effect of a warrant redemption. We believe this feature is an attractive option to us if we do not need the cash from the exercise of the warrants after our initial business combination. If we call our warrants for redemption and our management does not take advantage of this option, our sponsor and its permitted transferees would still be entitled to exercise their private placement warrants for cash or on a cashless basis using the same formula described above that other warrant holders would have been required to use had all warrant holders been required to exercise their warrants on a cashless basis, as described in more detail below.

A holder of a warrant may notify us in writing in the event it elects to be subject to a requirement that such holder will not have the right to exercise such warrant, to the extent that after giving effect to such exercise, such person (together with such person's affiliates), to the warrant agent's actual knowledge, would beneficially own in excess of 4.9% or 9.8% (or such other amount as a holder may specify) of the shares of Class A common stock outstanding immediately after giving effect to such exercise.

If the number of outstanding shares of Class A common stock is increased by a stock dividend payable in shares of Class A common stock, or by a split-up of shares of Class A common stock or other similar event, then, on the effective date of such stock dividend, split-up or similar event, the number of shares of Class A common stock issuable on exercise of each warrant will be increased in proportion to such increase in the outstanding shares of Class A common stock. A rights offering to holders of Class A common stock entitling holders to purchase shares of Class A common stock at a price less than the fair market value will be deemed a stock dividend of a number of shares of Class A common stock equal to the product of (i) the number of shares of Class A common stock actually sold in such rights offering (or issuable under any other equity securities sold in such rights offering that are convertible into or exercisable for Class A common stock) and (ii) one (1) minus the quotient of (x) the price per share of Class A common stock paid in such rights offering divided by (y) the fair market value. For these purposes (i) if the rights offering is for securities convertible into or exercisable for Class A common stock, in determining the price payable for Class A common stock, there will be taken into account any consideration received for such rights, as well as any additional amount payable upon exercise or conversion and (ii) fair market value means the volume weighted average price of Class A common stock as reported during the ten (10) trading day period ending on the trading day prior to the first date on which the shares of Class A common stock trade on the applicable exchange or in the applicable market, regular way, without the right to receive such rights.

In addition, if we, at any time while the warrants are outstanding and unexpired, pay a dividend or make a distribution in cash, securities or other assets to the holders of Class A common stock on account of such shares of Class A common stock (or other shares of our capital stock into which the warrants are convertible), other than (a) as described above, (b) certain ordinary cash dividends, (c) to satisfy the redemption rights of the holders of Class A common stock in connection with a proposed initial business combination, (d) to satisfy the redemption rights of the holders of Class A common stock in connection with a stockholder vote to amend our amended and restated certificate of incorporation, as amended, (i) to modify the substance or timing of our obligation to redeem 100% of our Class A common stock if we do not complete our initial business combination within the timeframe set forth in our amended and restated certificate of incorporation, as amended, or (ii) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity, or (e) in connection with the redemption of our public shares upon our failure to complete our initial business combination, then the warrant exercise price will be decreased, effective immediately after the effective date of such event, by the amount of cash and/or the fair market value of any securities or other assets paid on each share of Class A common stock in respect of such event.

If the number of outstanding shares of our Class A common stock is decreased by a consolidation, combination, reverse stock split or reclassification of shares of Class A common stock or other similar event, then, on the effective date of such consolidation, combination, reverse stock split, reclassification or similar event, the number of shares of Class A common stock issuable on exercise of each warrant will be decreased in proportion to such decrease in outstanding shares of Class A common stock.

Whenever the number of shares of Class A common stock purchasable upon the exercise of the warrants is adjusted, as described above, the warrant exercise price will be adjusted by multiplying the warrant exercise price immediately prior to such adjustment by a fraction (x) the numerator of which will be the number of shares of Class A common stock purchasable upon the exercise of the warrants immediately prior to such adjustment, and (y) the denominator of which will be the number of shares of Class A common stock so purchasable immediately thereafter.

In case of any reclassification or reorganization of the outstanding shares of Class A common stock (other than those described above or that solely affects the par value of such shares of Class A common stock), or in the case of any merger or consolidation of us with or into another corporation (other than a consolidation or merger in which we are the continuing corporation and that does not result in any reclassification or reorganization of our outstanding shares of Class A common stock), or in the case of any sale or conveyance to another corporation or entity of the assets or other property of us as an entirety or substantially as an entirety in connection with which we are dissolved, the holders of the warrants will thereafter have the right to purchase and receive, upon the basis and upon the terms and conditions specified in the warrants and in lieu of the shares of our Class A common stock immediately theretofore purchasable and receivable upon the exercise of the rights represented thereby, the kind and amount of shares of stock or other securities or property (including cash) receivable upon such reclassification, reorganization, merger or consolidation, or upon a dissolution following any such sale or transfer, that the holder of the warrants would have received if such holder had exercised their warrants immediately prior to such event. If less than 70% of the consideration receivable by the holders of Class A common stock in such a transaction is payable in the form of Class A common stock in the successor entity that is listed for trading on a national securities exchange or is quoted in an established over-the-counter market, or is to be so listed for trading or quoted immediately following such event, and if the registered holder of the warrant properly exercises the warrant within thirty days following public disclosure of such transaction, the warrant exercise price will be reduced as specified in the warrant agreement based on the Black-Scholes value (as defined in the warrant agreement) of the warrant. The purpose of such exercise price reduction is to provide additional value to holders of the warrants when an extraordinary transaction occurs during the exercise period of the warrants pursuant to which the holders of the warrants otherwise do not receive the full potential value of the warrants in order to determine and realize the option value component of the warrant. This formula is to compensate the warrant holder for the loss of the option value portion of the warrant due to the requirement that the warrant holder exercise the warrant within 30 days of the event. The Black-Scholes model is an accepted pricing model for estimating fair market value where no quoted market price for an instrument is available.

The warrants were issued in registered form under a warrant agreement between Continental Stock Transfer & Trust Company, as warrant agent, and us. The warrant agreement provides that the terms of the warrants may be amended without the consent of any holder to cure any ambiguity or correct any defective provision, but requires the approval by the holders of at least 50% of the then outstanding public warrants to make any change that adversely affects the interests of the registered holders of public warrants.

The warrants may be exercised upon surrender of the warrant certificate on or prior to the expiration date at the offices of the warrant agent, with the exercise form on the reverse side of the warrant certificate completed and executed as indicated, accompanied by full payment of the exercise price (or on a cashless basis, if applicable), by certified or official bank check payable to us, for the number of warrants being exercised. The warrant holders do not have the rights or privileges of holders of Class A common stock and any voting rights until they exercise their warrants and receive shares of Class A common stock. After the issuance of shares of Class A common stock upon exercise of the warrants, each holder will be entitled to one (1) vote for each share held of record on all matters to be voted on by stockholders.

No fractional shares will be issued upon exercise of the warrants. If, upon exercise of the warrants, a holder would be entitled to receive a fractional interest in a share, we will, upon exercise, round down to the nearest whole number of shares of Class A common stock to be issued to the warrant holder.

Certain Anti-Takeover Provisions of Delaware Law and our Amended and Restated Certificate of Incorporation, As Amended, and Bylaws

We are subject to the provisions of Section 203 of the DGCL regulating corporate takeovers. This statute prevents certain Delaware corporations, under certain circumstances, from engaging in a “business combination” with:

- a stockholder who owns 15% or more of our outstanding voting stock (otherwise known as an “interested stockholder”);
- an affiliate of an interested stockholder; or
- an associate of an interested stockholder, for three years following the date that the stockholder became an interested stockholder.

A “business combination” includes a merger or sale of more than 10% of our assets. However, the above provisions of Section 203 do not apply if:

- our board of directors approves the transaction that made the stockholder an “interested stockholder,” prior to the date of the transaction;
- after the completion of the transaction that resulted in the stockholder becoming an interested stockholder, that stockholder owned at least 85% of our voting stock outstanding at the time the transaction commenced, other than statutorily excluded shares of common stock; or
- on or subsequent to the date of the transaction, the initial business combination is approved by our board of directors and authorized at a meeting of our stockholders, and not by written consent, by an affirmative vote of at least two-thirds of the outstanding voting stock not owned by the interested stockholder.

Our amended and restated certificate of incorporation, as amended, provides that our board of directors will be classified into three classes of directors. As a result, in most circumstances, a person can gain control of our board only by successfully engaging in a proxy contest at two or more annual meetings.

Our authorized but unissued common stock and preferred stock are available for future issuances without stockholder approval (including a specified future issuance) and could be utilized for a variety of corporate purposes, including future offerings to raise additional capital, acquisitions and employee benefit plans. The existence of authorized but unissued and unreserved common stock and preferred stock could render more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger or otherwise.

Class B Common Stock Consent Right

For so long as any shares of Class B common stock remain outstanding, we may not, without the prior vote or written consent of the holders of a majority of the shares of Class B common stock then outstanding, voting separately as a single class, amend, alter or repeal any provision our certificate of incorporation, whether by merger, consolidation or otherwise, if such amendment, alteration or repeal would alter or change the powers, preferences or relative, participating, optional or other or special rights of the Class B common stock. Any action required or permitted to be taken at any meeting of the holders of Class B common stock may be taken without a meeting, without prior notice and without a vote, if a consent or consents in writing, setting forth the action so taken, shall be signed by the holders of the outstanding Class B common stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares of Class B common stock were present and voted.

**CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER
PURSUANT TO SECURITIES EXCHANGE ACT RULES 13A-14(A) AND 15D-14(A)
AS ADOPTED PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Bala Venkataraman, certify that:

1. I have reviewed this Annual Report on Form 10-K of Amplitude Healthcare Acquisition Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) (Paragraph omitted pursuant to SEC Release Nos. 33-8238/34-47986 and 33-8392/34-49313);
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) (Paragraph omitted pursuant to SEC Release Nos. 33-8238/34-47986 and 33-8392/34-49313);
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
